# RI TRANSPARENCY REPORT

## 2018

### Chequers Capital

## About this report

The PRI Reporting Framework is a key step in the journey towards building a common language and industry standard for reporting responsible investment (RI) activities. This RI Transparency Report is one of the key outputs of this Framework. Its primary objective is to enable signatory transparency on RI activities and facilitate dialogue between investors and their clients, beneficiaries and other stakeholders. A copy of this report will be publicly disclosed for all reporting signatories on the [PRI website](#), ensuring accountability of the PRI Initiative and its signatories.

This report is an export of the individual Signatory organisation's response to the PRI during the 2018 reporting cycle. It includes their responses to mandatory indicators, as well as responses to voluntary indicators the signatory has agreed to make public. The information is presented exactly as it was reported. Where an indicator offers a response option that is multiple-choice, all options that were available to the signatory to select are presented in this report. Presenting the information exactly as reported is a result of signatory feedback which suggested the PRI not summarise the information. As a result, the reports can be extensive. However, to help easily locate information, there is a **Principles index** which highlights where the information can be found and summarises the indicators that signatories complete and disclose.

## Understanding the Principles Index

The Principles Index summarises the response status for the individual indicators and modules and shows how these relate to the six [Principles for Responsible Investment](#). It can be used by stakeholders as an 'at-a-glance' summary of reported information and to identify particular themes or areas of interest.

Indicators can refer to one or more Principles. Some indicators are not specific to any Principle. These are highlighted in the 'General' column. When multiple Principles are covered across numerous indicators, in order to avoid repetition, only the main Principle covered is highlighted.

All indicators within a module are presented below. The status of indicators is shown with the following symbols:

Symbol	Status
✓	The signatory has completed all mandatory parts of this indicator
☑	The signatory has completed some parts of this indicator
🔒	This indicator was not relevant for this signatory
-	The signatory did not complete any part of this indicator
Ⓜ	The signatory has flagged this indicator for internal review

Within the table, indicators marked in blue are mandatory to complete. Indicators marked in grey are voluntary to complete.

SG 01.1

Indicate if you have an investment policy that covers your responsible investment approach.

Yes

SG 01.2

Indicate the components/types and coverage of your policy.

Select all that apply

Policy components/types	Coverage by AUM
<input checked="" type="checkbox"/> Policy setting out your overall approach <input type="checkbox"/> Formalised guidelines on environmental factors <input type="checkbox"/> Formalised guidelines on social factors <input type="checkbox"/> Formalised guidelines on corporate governance factors <input type="checkbox"/> Asset class-specific RI guidelines <input type="checkbox"/> Sector specific RI guidelines <input checked="" type="checkbox"/> Screening / exclusions policy <input type="checkbox"/> Other, specify (1) <input type="checkbox"/> Other, specify(2)	<input checked="" type="radio"/> Applicable policies cover all AUM <input type="radio"/> Applicable policies cover a majority of AUM <input type="radio"/> Applicable policies cover a minority of AUM

SG 01.3

Indicate if the investment policy covers any of the following

- Your organisation's definition of ESG and/or responsible investment and it's relation to investments
- Your investment objectives that take ESG factors/real economy influence into account
- Time horizon of your investment
- Governance structure of organisational ESG responsibilities
- ESG incorporation approaches
- Active ownership approaches
- Reporting
- Climate change and related issues
- Other RI considerations, specify (1)
- Other RI considerations, specify (2)

**SG 01.4**

Describe your organisation's investment principles and overall investment strategy, and how they consider ESG factors and real economy impact.

Chequers will focus primarily on acquiring well-established mid-market businesses, principally in France, Germany and Italy.

It will also consider investing in neighbouring countries when attractive opportunities offering special edge arise in a due-diligence friendly environment. Chequers looks for companies with identified value creation levers. It favours companies with a strong market position which can be extended domestically or internationally. The ability of the management in place to implement strategic plans is carefully checked in order to assess the level of risk in pursuing organisational changes, geographical expansion or add-on acquisitions.

This combination has allowed Chequers to protect its investment value with a low risk profile while delivering consistent top decile returns.

Chequers aims to create long-term relationships with management teams based on reliability and business ethics.

Chequers refrains from investing in certain sectors e.g. alcohol, weapons, etc.

Systematic due diligence on ESG issues and exclusion of deals where a significant ESG issue may arise.

Targeted holding period: 5 to 10 years.

**SG 01.5**

Provide a brief description of the key elements, any variations or exceptions to your investment policy that covers your responsible investment approach. [Optional]

Chequers Capital is an investment company that has adopted an ongoing commitment to fulfilling the social responsibility principles it has adopted.

Chequers Capital was founded to provide services for its customers and investors designed to provide security and performance for the funds it is entrusted with on the basis on best market practices. It is determined to respect not only corporate financial responsibility principles but also extra-financial responsibilities; indeed they lie at the very heart of its investment and decision-making processes. Acting for the benefit of its investors, the firm is constantly available to provide explanations to ensure complete transparency vis-a-vis its customers. This is the natural counterpart of the confidence they have placed in the firm.

The first principle is that of **honesty**. Chequers Capital managers comply fully with the principle of strict legality, respect of the law and fairness in business affairs, whether it concerns relations with external players, their investments, or the operations of the company.

The second principle is that of **good governance**, focused on investment orientation and asset control to ensure objectives are met. Management is conscious of their investment responsibilities and ensures that equitable investment decisions and methods are pursued.

The third principle is the use of the **best skills** to ensure that the most effective decisions are taken. This involves seeking external business expertise or knowledge of specific situations that can be used in conjunction with in-house expertise.

The fourth principle involves **consciousness of the impact of policy decisions** to avoid taking investment decisions in areas that might be harmful to the interests of investors or which might have harmful consequences which Chequers Capital may not be able to justify.

The fifth principle is an **ongoing preoccupation with fairness and equity**. This guides our internal economic and social decisions both with regard to staff and management. The principle of equity applies to all decisions which have a human impact. The concern for efficiency which is its driving force never takes priority over legitimate or contractual rights granted by Chequers Capital.

Chequers Capital has provided its staff with the content of the five corporate governance principles. Its directors ensure that they are applied in all circumstances.

Because Chequers Capital is an investment company inspired by solid ethical principles that guide the professional and personal behaviour of its staff, it is able to ensure a high level of investment performance without undermining economic or human value-added. Directors of Chequers Capital anticipate, integrate and manage the full range of risks inherent in its business activities whether they be economic, social or environmental, weighing them in the light of their own ethical and good governance principles. These principles are never relegated to a subsidiary level of risk by Chequers Capital or its staff.

No
