

# CLIMATE TRANSPARENCY REPORT 2020

Lincluden Investment Management

# About the Climate-related Disclosure Indicators

Climate has been identified as a top priority for PRI signatories, with over 70% of asset owners reporting this as the most important long-term trend they are acting on.

The FSB Task Force's guidance on climate-related financial disclosure aim to create a single framework for disclosure on assessment and management of climate-related risk. The recommendations, supported by investors representing US\$22 trillion, identify four main disclosures, Governance, Strategy, Risk Management, Metrics and Targets, and include specific guidance for asset owners and managers.

As a result, the PRI introduced climate-related disclosure indicators that can be used to align with the TCFD recommendations in the 2020 PRI Reporting Framework.

## About this report

This report is an export of only the climate-related indicators from the 2020 Reporting Framework response. The full Public Transparency Report is available here (<https://reporting.unpri.org/surveys/PRI-reporting-framework-2020/-4376CC69-D8F7-4765-B12E-A8A9AA6DFEC4/79894dbc337a40828d895f9402aa63de/html/2/?lang=en&a=1>). It shows the responses to all the completed climate indicators, even those you chose to keep private. It is designed for your internal review or – if you wish - to share with your stakeholders.

The PRI will not publish this report on its website if you have designated your 2020 climate reporting as “private”. Otherwise, you will be able to access the Climate Transparency Report of your organisation and that of other signatories on the [PRI website](#) and on the [Data Portal](#).

To easily locate information, there is a **Recommendation index** which summarises the indicators that signatories complete and disclose. The report presents information exactly as it was reported as per signatory preference. Where an indicator offers a response option that is multiple-choice, all options that were available to the signatory are presented in this report.

## Investment policy

SG 01	Mandatory	Public	Core Assessed	General
-------	-----------	--------	---------------	---------

**New selection options have been added to this indicator. Please review your prefilled responses carefully.**

**SG 01.1** Indicate if you have an investment policy that covers your responsible investment approach.

SG 01 CC	Mandatory to Report Voluntary to Disclose	Public	Descriptive	General
----------	---	--------	-------------	---------

**SG 01.6 CC** Indicate whether your organisation has identified transition and physical climate-related risks and opportunities and factored this into the investment strategies and products, within the organisation's investment time horizon.

Yes

Describe the identified transition and physical climate-related risks and opportunities and how they have been factored into the investment strategies/products.

Our proprietary independent research includes fundamental estimates of the transition and climate-related risks as a core component of forecasting financial valuations. This can affect both fundamental and forecast values as well as applicable discount rates.

No

**SG 01.7 CC** Indicate whether the organisation has assessed the likelihood and impact of these climate risks?

Yes

Describe the associated timescales linked to these risks and opportunities.

Our investment process is based on an expectation of a long term secular trend while managing short term risks.

No

**SG 01.8 CC** Indicate whether the organisation publicly supports the TCFD?

Yes

No

**SG 01.9 CC** Indicate whether there is an organisation-wide strategy in place to identify and manage material climate-related risks and opportunities.

Yes

	Describe
--	----------

Relevant climate-related risks and opportunities are discussed during our regular investment meetings as appropriate and are considered on a day-to-day basis by portfolio managers in individual portfolios. A firmwide ESG Committee oversees climate related risks and opportunities from a governance perspective.

No

<b>SG 1.10 CC</b>	Indicate the documents and/or communications the organisation uses to publish TCFD disclosures.
-----------------------	---

- Public PRI Climate Transparency Report
- Annual financial filings
- Regular client reporting
- Member communications
- Other
- We currently do not publish TCFD disclosures

**Governance and human resources**

<b>SG 07 CC</b>	<b>Mandatory to Report Voluntary to Disclose</b>	<b>Public</b>	<b>Descriptive</b>	<b>General</b>
-----------------	--	---------------	--------------------	----------------

<b>SG 07.5 CC</b>	Indicate the roles in the organisation that have oversight, accountability and/or management responsibilities for climate-related issues.
-----------------------	---

	Chief Executive Officer (CEO), Chief Investment Officer (CIO), Chief Risk Officer (CRO), Investment Committee
--	---

- Oversight/accountability for climate-related issues
- Assessment and management of climate-related issues
- No responsibility for climate-related issues

	Portfolio managers
--	--------------------

- Oversight/accountability for climate-related issues
- Assessment and management of climate-related issues
- No responsibility for climate-related issues

	Investment analysts
--	---------------------

- Oversight/accountability for climate-related issues
- Assessment and management of climate-related issues
- No responsibility for climate-related issues

**ESG issues in asset allocation**

<b>SG 13</b>	<b>Mandatory</b>	<b>Public</b>	<b>Descriptive</b>	<b>PRI 1</b>
--------------	------------------	---------------	--------------------	--------------

<b>SG 13.1</b>	Indicate whether the organisation carries out scenario analysis and/or modelling, and if it does, provide a description of the scenario analysis (by asset class, sector, strategic asset allocation, etc.).
----------------	--

- Yes, in order to assess future ESG factors
- Yes, in order to assess future climate-related risks and opportunities
- No, our organisation does not currently carry out scenario analysis and/or modelling

<b>SG 13.3</b>	Additional information. [OPTIONAL]
----------------	------------------------------------

Lincluden specializes in bottom-up stock selection in it's investment process. As such all scenario analysis and modeling is done on a security specific basis when researching individual companies. The company specific scenario analysis incorporates all business risks a company might face including corporate governance, environmental and social trends when determining the intrinsic value.

<b>SG 14</b>	<b>Mandatory to Report Voluntary to Disclose</b>	<b>Public</b>	<b>Additional Assessed</b>	<b>PRI 1</b>
--------------	--	---------------	----------------------------	--------------

<b>SG 14.1</b>	Some investment risks and opportunities arise as a result of long term trends. Indicate which of the following are considered.
----------------	--

- Changing demographics
- Climate change
- Resource scarcity
- Technological developments
- Other, specify(1)
- Other, specify(2)
- None of the above

<b>SG 14.2</b>	Indicate which of the following activities you have undertaken to respond to climate change risk and opportunity
----------------	--

- Established a climate change sensitive or climate change integrated asset allocation strategy
- Targeted low carbon or climate resilient investments
- Phase out your investments in your fossil fuel holdings
- Reduced portfolio exposure to emissions intensive or fossil fuel holdings
- Used emissions data or analysis to inform investment decision making
- Sought climate change integration by companies
- Sought climate supportive policy from governments
- Other, specify
- None of the above

**SG 14.3**

Indicate which of the following tools the organisation uses to manage climate-related risks and opportunities.

- Scenario analysis
- Disclosures on emissions risks to clients/trustees/management/beneficiaries
- Climate-related targets
- Encouraging internal and/or external portfolio managers to monitor emissions risks
- Emissions-risk monitoring and reporting are formalised into contracts when appointing managers
- Weighted average carbon intensity
- Carbon footprint (scope 1 and 2)
- Portfolio carbon footprint
- Total carbon emissions
- Carbon intensity
- Exposure to carbon-related assets
- Other emissions metrics
- Other, specify
- None of the above

**SG 14.5**

Additional information [Optional]

We've begun measuring data around the carbon cycle, including footprints, intensity, emissions in our portfolios, to allow further integration in our proprietary valuation and risk models in the future.

**SG 14 CC**

Voluntary

Public

General

**SG 14.8  
CC**

Indicate whether climate-related risks are integrated into overall risk management and explain the risk management processes used for identifying, assessing and managing climate-related risks.

- Processes for climate-related risks are integrated into overall risk management

Please describe

Material ESG factors, including climate risks, can have significant impacts on the long-term prospects for the businesses in which we invest, and these factors are incorporated into our research, valuation models, and propriety company quality scoring system accordingly. We are evaluating the case for a separate policy with regards to climate-related risks and opportunities.

- Processes for climate-related risks are not integrated into overall risk management

**SG 14.9  
CC**

Indicate whether your organisation, and/or external investment manager or service providers acting on your behalf, undertake active ownership activities to encourage TCFD adoption.

- Yes

Please describe

As a supporter of the TCFD we are supportive by encouraging investee companies to adopt TCFD.

- No, we do not undertake active ownership activities.
- No, we do not undertake active ownership activities to encourage TCFD adoption.
