RI TRANSPARENCY REPORT

2020

WPV

About this report

The PRI Reporting Framework is a key step in the journey towards building a common language and industry standard for reporting responsible investment (RI) activities. This RI Transparency Report is one of the key outputs of this Framework. Its primary objective is to enable signatory transparency on RI activities and facilitate dialogue between investors and their clients, beneficiaries and other stakeholders. A copy of this report will be publicly disclosed for all reporting signatories on the [PRI website](#), ensuring accountability of the PRI Initiative and its signatories.

This report is an export of the individual Signatory organisation's response to the PRI during the 2020 reporting cycle. It includes their responses to mandatory indicators, as well as responses to voluntary indicators the signatory has agreed to make public. The information is presented exactly as it was reported. Where an indicator offers a response option that is multiple-choice, all options that were available to the signatory to select are presented in this report. Presenting the information exactly as reported is a result of signatory feedback which suggested the PRI not summarise the information. As a result, the reports can be extensive. However, to help easily locate information, there is a **Principles index** which highlights where the information can be found and summarises the indicators that signatories complete and disclose.

Understanding the Principles Index

The Principles Index summarises the response status for the individual indicators and modules and shows how these relate to the six [Principles for Responsible Investment](#). It can be used by stakeholders as an 'at-a-glance' summary of reported information and to identify particular themes or areas of interest.

Indicators can refer to one or more Principles. Some indicators are not specific to any Principle. These are highlighted in the 'General' column. When multiple Principles are covered across numerous indicators, in order to avoid repetition, only the main Principle covered is highlighted.

All indicators within a module are presented below. The status of indicators is shown with the following symbols:

Symbol	Status
✓	The signatory has completed all mandatory parts of this indicator
☑	The signatory has completed some parts of this indicator
🔒	This indicator was not relevant for this signatory
-	The signatory did not complete any part of this indicator
⚠	The signatory has flagged this indicator for internal review

Within the table, indicators marked in blue are mandatory to complete. Indicators marked in grey are voluntary to complete.

OO 11.4

Provide a brief description of how your organisation includes responsible investment considerations in your investment manager selection, appointment and monitoring processes.

Our selection process takes various aspects into account. Of course the track record of the manager and the expected performance of the investment product are very important but we also take a closer look at the manager's investment process (including deal sourcing) and the development of his staff to cite a few examples. If there is a great turnover regarding the manager's staff we tend to refrain from the manager and the particular investment as this is mostly a sign of bad employee management. We also track the progress and development and of the commercial model. We ask specific questions to current events as for example the handling of the impacts and possible effects of COVID 19. At an early stage of the manager due diligence we provide a questionnaire which also shows our attitude as an UN Pri member regarding responsible investments.

Conducted by	<input checked="" type="checkbox"/> Internal staff
Asset class	<input type="checkbox"/> All asset classes <input type="checkbox"/> Listed Equity <input checked="" type="checkbox"/> Property
Scope and process	In our due diligence process we always raise the question whether the external manager is a PRI member or member in a comparable association. We also ask for ESG policies and require the manager to provide the policy. If he does not have an ESG policy we require him to explain how he includes ESG factors in his investment process.
Outcomes	A lot of the managers our Luxembourg Fund collaborates with are PRI members or members of comparable associations. Nearly all of the managers have ESG policies and they offer to explain their own approach to the topic. If one of the managers does not take into account ESG factors it is very probable that the investment committee recommends not to cooperate with this particular manager.

ESG incorporation in actively managed fixed income

Implementation processes

FI 01	Mandatory	Public	Gateway	PRI 1
-------	-----------	--------	---------	-------

FI 01.1	Indicate (1) Which ESG incorporation strategy and/or combination of strategies you apply to your actively managed fixed income investments; and (2) The proportion (+/- 5%) of your total actively managed fixed income investments each strategy applies to.
----------------	---

Corporate (financial)	Screening alone	50
	Thematic alone	0
	Integration alone	0
	Screening + integration strategies	50
	Thematic + integration strategies	0
	Screening + thematic strategies	0
	All three strategies combined	0
	No incorporation strategies applied	0
		100%

FI 01.2	Describe your reasons for choosing a particular ESG incorporation strategy and how combinations of strategies are used.
----------------	---

Direct investment in fixed income in WPV on WPV’s own balance sheet will not be expanded any further but will be continually reduced. Therefore we confine ourselves to monitoring. in a few cases new investmens occur. There is an individual screening process in place.

If we would decide to expand direct investment in fixed income on our own balance sheet in the future we would integrate ESG issues in our due diligence process and in the decision-making.

FI 03	Mandatory	Public	Additional Assessed	PRI 1
--------------	------------------	---------------	----------------------------	--------------

FI 03.1	Indicate how you ensure that your ESG research process is robust:
----------------	---

- Comprehensive ESG research is undertaken internally to determine companies’ activities; and products and/or services
- Issuers are given the opportunity by you or your research provider to review ESG research on them and correct inaccuracies
- Issuer information and/or ESG ratings are updated regularly to ensure ESG research is accurate
- Internal audits and regular reviews of ESG research are undertaken in a systematic way.
- A materiality/sustainability framework is created and regularly updated that includes all the key ESG risks and opportunities for each sector/country.
- Other, specify
- None of the above

FI 03.2	Describe how your ESG information or analysis is shared among your investment team.
----------------	---

- ESG information is held within a centralised database and is accessible to all investment staff
- ESG information is displayed on front office research platforms
- ESG information is a standard item on all individual issuer summaries, research notes, ‘tear sheets’, or similar documents
- Investment staff are required to discuss ESG information on issuers as a standard item during investment committee meetings
- Records capture how ESG information and research was incorporated into investment decisions
- Other, specify
- None of the above

(A) Implementation: Screening

FI 04	Mandatory	Public	Gateway	PRI 1
--------------	------------------	---------------	----------------	--------------

FI 04.1	Indicate the type of screening you conduct.

Negative/exclusionary screening	<input type="checkbox"/>		
Positive/best-in-class screening	<input checked="" type="checkbox"/>		
Norms-based screening	<input checked="" type="checkbox"/>		

FI 04.2 Describe your approach to screening for internally managed active fixed income

Direct investment in fixed income in WPV on WPV’s own balance sheet will not be expanded any further but reduced. Therefore we confine ourselves to monitoring.

If we would decide to expand direct investments in fixed income on our own balance sheet we would integrate ESG issues in our due diligence process and in the decision-making.

Individual research is carried out inhouse by our own investment professionals who keep contact to the external managers and the issuers. Additionally we receive ESG research data from our master capital management company (which we also use as basis for our recommendations to the capital management company).

FI 06 **Mandatory** **Public** **Core Assessed** **PRI 1**

FI 06.1 Indicate which systems your organisation has to ensure that fund screening criteria are not breached in fixed income investments.

Type of screening	Checks
Positive/best-in-class screening	<input checked="" type="checkbox"/> Analysis is performed to ensure that issuers meet screening criteria <input checked="" type="checkbox"/> We ensure that data used for the screening criteria is updated at least once a year. <input checked="" type="checkbox"/> Automated IT systems prevent our portfolio managers from investing in excluded issuers or bonds that do not meet screening criteria <input type="checkbox"/> Audits of fund holdings are undertaken yearly by internal audit or compliance functions <input type="checkbox"/> Other, specify <input type="checkbox"/> None of the above
