

CLIMATE TRANSPARENCY REPORT 2020

EAB Group Plc

About the Climate-related Disclosure Indicators

Climate has been identified as a top priority for PRI signatories, with over 70% of asset owners reporting this as the most important long-term trend they are acting on.

The FSB Task Force's guidance on climate-related financial disclosure aim to create a single framework for disclosure on assessment and management of climate-related risk. The recommendations, supported by investors representing US\$22 trillion, identify four main disclosures, Governance, Strategy, Risk Management, Metrics and Targets, and include specific guidance for asset owners and managers.

As a result, the PRI introduced climate-related disclosure indicators that can be used to align with the TCFD recommendations in the 2020 PRI Reporting Framework.

About this report

This report is an export of only the climate-related indicators from the 2020 Reporting Framework response. The full Public Transparency Report is available here (<https://reporting.unpri.org/surveys/PRI-reporting-framework-2020/-17679A49-AB47-4000-84F4-DAE935FE8D59/79894dbc337a40828d895f9402aa63de/html/2/?lang=en&a=1>). It shows the responses to all the completed climate indicators, even those you chose to keep private. It is designed for your internal review or – if you wish - to share with your stakeholders.

The PRI will not publish this report on its website if you have designated your 2020 climate reporting as “private”. Otherwise, you will be able to access the Climate Transparency Report of your organisation and that of other signatories on the [PRI website](#) and on the [Data Portal](#).

To easily locate information, there is a **Recommendation index** which summarises the indicators that signatories complete and disclose. The report presents information exactly as it was reported as per signatory preference. Where an indicator offers a response option that is multiple-choice, all options that were available to the signatory are presented in this report.

Investment policy

SG 01	Mandatory	Public	Core Assessed	General
-------	-----------	--------	---------------	---------

New selection options have been added to this indicator. Please review your prefilled responses carefully.

SG 01.1 Indicate if you have an investment policy that covers your responsible investment approach.

SG 01 CC	Mandatory to Report Voluntary to Disclose	Public	Descriptive	General
----------	---	--------	-------------	---------

SG 01.6 CC Indicate whether your organisation has identified transition and physical climate-related risks and opportunities and factored this into the investment strategies and products, within the organisation's investment time horizon.

Yes

Describe the identified transition and physical climate-related risks and opportunities and how they have been factored into the investment strategies/products.

We think that renewable energy and the broader energy transition plays a big role in the combat against climate change and creating a more sustainable future. Therefore, we have made direct investments in solar energy and are planning to increase our share of renewable energy investments. We also make energy efficiency investments with regards to our real estate investment portfolios. We also are of the view that climate change provides opportunities with regards to natural resources (forestry investments among other) and are exploring new opportunities in that field.

No

SG 01.7 CC Indicate whether the organisation has assessed the likelihood and impact of these climate risks?

Yes

Describe the associated timescales linked to these risks and opportunities.

We think that the opportunities with regards to renewable energy are there today and are of the view that much increased investment is needed in the medium term (in the next 5-10 years) in order to reach the Paris agreement climate goals. We also think that in order to better reach the goals, increased energy efficiency is needed as well. This provides more options and different ways to reach those. With regards to climate change-related opportunities in the fields of agriculture and forestry might take a little more time to pan-out, but are of the opinion that a sensible timeline could we in the next 10-15 years we see positive changes happening in Northern Europe.

No

SG 01.8 CC Indicate whether the organisation publicly supports the TCFD?

Yes

No

**SG 01.9
CC**

Indicate whether there is an organisation-wide strategy in place to identify and manage material climate-related risks and opportunities.

Yes

Describe

Our approach takes into account both transition risks (policy, technology, market and reputational) and also physical risks with regards to climate change. We also monitor opportunities made possible by climate change such as better resilience, resource efficiency, new energy sources and so on.

No

**SG 1.10
CC**

Indicate the documents and/or communications the organisation uses to publish TCFD disclosures.

- Public PRI Climate Transparency Report
- Annual financial filings
- Regular client reporting
- Member communications
- Other
- We currently do not publish TCFD disclosures

Governance and human resources

SG 07 CC

Mandatory to Report Voluntary to Disclose

Public

Descriptive

General

**SG 07.5
CC**

Indicate the roles in the organisation that have oversight, accountability and/or management responsibilities for climate-related issues.

Board members or trustees

- Oversight/accountability for climate-related issues
- Assessment and management of climate-related issues
- No responsibility for climate-related issues

Chief Executive Officer (CEO), Chief Investment Officer (CIO), Chief Risk Officer (CRO), Investment Committee

- Oversight/accountability for climate-related issues
- Assessment and management of climate-related issues
- No responsibility for climate-related issues

Other Chief-level staff or heads of departments

- Oversight/accountability for climate-related issues
- Assessment and management of climate-related issues
- No responsibility for climate-related issues

Portfolio managers

- Oversight/accountability for climate-related issues
- Assessment and management of climate-related issues
- No responsibility for climate-related issues

Investment analysts

- Oversight/accountability for climate-related issues
- Assessment and management of climate-related issues
- No responsibility for climate-related issues

Dedicated responsible investment staff

- Oversight/accountability for climate-related issues
- Assessment and management of climate-related issues
- No responsibility for climate-related issues

Investor relations

- Oversight/accountability for climate-related issues
- Assessment and management of climate-related issues
- No responsibility for climate-related issues

External managers or service providers

- Oversight/accountability for climate-related issues
- Assessment and management of climate-related issues
- No responsibility for climate-related issues

SG 07.6 CC

For board-level roles that have climate-related issue oversight/accountability or implementation responsibilities, indicate how these responsibilities are executed.

The group has set a goal to be a leader in the local market in the case of climate change management and awareness. The CEO and CIO provides regular reports to board members in this regard. The board has the oversight in following the KPIs set in the matter.

SG 07.7 CC

For management-level roles that assess and manage climate-related issues, provide further information on the structure and processes involved.

The CIO follows the implementation of the climate strategy by portfolio managers and other investment staff. The CIO reports to the CEO in this regard.

**SG 07.8
CC**

Indicate how your organisation engages external investment managers and/or service providers on the TCFD recommendations and their implementation.

- Request that external managers and/or service providers incorporate TCFD into mainstream financial filings (annual financial reports, other regulatory reporting or similar)
- Request incorporation of TCFD into regular client reporting
- Request that external managers complete PRI climate indicator reporting
- Request responses to TCFD Fund Manager questions in the PRI Asset Owner Guide
- Other
- We do not engage with external managers and/or service providers on the TCFD recommendations and their implementation

ESG issues in asset allocation**SG 13****Mandatory****Public****Descriptive****PRI 1****SG 13.1**

Indicate whether the organisation carries out scenario analysis and/or modelling, and if it does, provide a description of the scenario analysis (by asset class, sector, strategic asset allocation, etc.).

- Yes, in order to assess future ESG factors
- Yes, in order to assess future climate-related risks and opportunities

Describe

We use different climate scenarios in order to better gauge the impact of those scenarios on the desirability of certain sectors, countries and companies. Through scenario analysis we assess both transitional risks and opportunities provided by the climate change.

- No, our organisation does not currently carry out scenario analysis and/or modelling

SG 13.2

Indicate if your organisation considers ESG issues in strategic asset allocation and/or allocation of assets between sectors or geographic markets.

We do the following

- Allocation between asset classes
- Determining fixed income duration
- Allocation of assets between geographic markets
- Sector weightings
- Other, specify
- We do not consider ESG issues in strategic asset allocation

SG 13 CC**Mandatory to Report Voluntary to Disclose****Public****Descriptive****General**

SG 13.4
CC

Describe how your organisation is using scenario analysis to manage climate-related risks and opportunities, including how the analysis has been interpreted, its results, and any future plans.

- Initial assessment
- Incorporation into investment analysis

Describe

We use different climate scenarios in order to better gauge the impact of those scenarios on the desirability of certain sectors, countries and companies. The different scenarios affect the inputs in our financial modelling.

- Inform active ownership
- Other

SG 13.5
CC

Indicate who uses this analysis.

- Board members, trustees, C-level roles, Investment Committee
- Portfolio managers
- Dedicated responsible investment staff
- External managers
- Investment consultants/actuaries
- Other

SG 13.6
CC

Indicate whether your organisation has evaluated the potential impact of climate-related risks, beyond the investment time horizon, on its investment strategy.

- Yes
- No

Please explain the rationale

We think that the impacts are hard to quantify especially with a very long evaluation horizon. We consider it better to make predictions with the time frames of our investments and in those time frames we think that our assessments are more accurate and better basis for decision making.

SG 13.7
CC

Indicate whether a range of climate scenarios is used.

- Analysis based on a 2°C or lower scenario
- Analysis based on an abrupt transition, consistent with the Inevitable Policy Response
- Analysis based on a 4°C or higher scenario
- No, a range is not used

SG 13.8
CC

Indicate the climate scenarios your organisation uses.

Provider	Scenario used
IEA	<input checked="" type="checkbox"/> Beyond 2 Degrees Scenario (B2DS)
IEA	<input checked="" type="checkbox"/> Energy Technology Perspectives (ETP) 2 Degrees scenario
IEA	<input checked="" type="checkbox"/> Sustainable Development Scenario (SDS)
IEA	<input checked="" type="checkbox"/> New Policy Scenario (NPS)
IEA	<input checked="" type="checkbox"/> Current Policy Scenario (CPS)
IRENA	<input type="checkbox"/> RE Map
Greenpeace	<input type="checkbox"/> Advanced Energy [R]evolution
Institute for Sustainable Development	<input checked="" type="checkbox"/> Deep Decarbonisation Pathway Project (DDPP)
Bloomberg	<input checked="" type="checkbox"/> BNEF reference scenario
IPCC	<input checked="" type="checkbox"/> Representative Concentration Pathway (RCP) 8.5
IPCC	<input type="checkbox"/> RPC 6
IPCC	<input checked="" type="checkbox"/> RPC 4.5
IPCC	<input checked="" type="checkbox"/> RPC 2.6
Other	<input type="checkbox"/> Other (1)
Other	<input type="checkbox"/> Other (2)
Other	<input type="checkbox"/> Other (3)

SG 14	Mandatory to Report Voluntary to Disclose	Public	Additional Assessed	PRI 1
-------	---	--------	---------------------	-------

SG 14.1

Some investment risks and opportunities arise as a result of long term trends. Indicate which of the following are considered.

- Changing demographics
- Climate change
- Resource scarcity
- Technological developments
- Other, specify(1)
- Other, specify(2)
- None of the above

SG 14.2

Indicate which of the following activities you have undertaken to respond to climate change risk and opportunity

- Established a climate change sensitive or climate change integrated asset allocation strategy
- Targeted low carbon or climate resilient investments

Specify the AUM invested in low carbon and climate resilient portfolios, funds, strategies or asset classes.

	trillions	billions	millions	thousands	hundreds
Total AUM			100	000	000
Currency	USD				
Assets in USD			100	000	000

Specify the framework or taxonomy used.

Clean energy investments

- Phase out your investments in your fossil fuel holdings
- Reduced portfolio exposure to emissions intensive or fossil fuel holdings
- Used emissions data or analysis to inform investment decision making
- Sought climate change integration by companies
- Sought climate supportive policy from governments
- Other, specify
- None of the above

SG 14.3

Indicate which of the following tools the organisation uses to manage climate-related risks and opportunities.

- Scenario analysis
- Disclosures on emissions risks to clients/trustees/management/beneficiaries
- Climate-related targets
- Encouraging internal and/or external portfolio managers to monitor emissions risks
- Emissions-risk monitoring and reporting are formalised into contracts when appointing managers
- Weighted average carbon intensity
- Carbon footprint (scope 1 and 2)
- Portfolio carbon footprint
- Total carbon emissions
- Carbon intensity
- Exposure to carbon-related assets
- Other emissions metrics
- Other, specify
- None of the above

SG 14 CC	Voluntary	Public		General
-----------------	-----------	--------	--	---------

SG 14.6 CC	Provide further details on the key metric(s) used to assess climate-related risks and opportunities.
-------------------	--

Metric Type	Coverage	Purpose	Metric Unit	Metric Methodology
Weighted average carbon intensity	<input type="checkbox"/> All assets <input checked="" type="checkbox"/> Majority of assets <input type="checkbox"/> Minority of assets	To measure the portfolio's exposure to GHG intensive companies and industries	metric tons of CO2 equivalent emission per year per 1 \$million revenue	TCFD
Carbon footprint (scope 1 and 2)	<input type="checkbox"/> All assets <input checked="" type="checkbox"/> Majority of assets <input type="checkbox"/> Minority of assets	To measure the emissions a company produces	metric tons of CO2 equivalent emissions per year	GHG protocol

SG 14.8 CC	Indicate whether climate-related risks are integrated into overall risk management and explain the risk management processes used for identifying, assessing and managing climate-related risks.
-------------------	--

- Processes for climate-related risks are integrated into overall risk management

Please describe

We use exclusion lists to limit our exposure to certain sectors and companies also in the case of climate-related risks. We also measure the carbon footprint of the companies and the carbon intensity of the portfolio. We try to continuously reduce the carbon intensity of our portfolios against their benchmarks.

Processes for climate-related risks are not integrated into overall risk management

SG 14.9 CC Indicate whether your organisation, and/or external investment manager or service providers acting on your behalf, undertake active ownership activities to encourage TCFD adoption.

- Yes
- No, we do not undertake active ownership activities.
- No, we do not undertake active ownership activities to encourage TCFD adoption.

SG 15	Mandatory to Report Voluntary to Disclose	Public	Descriptive	PRI 1
--------------	--	---------------	--------------------	--------------

SG 15.1 Indicate if your organisation allocates assets to, or manages, funds based on specific environmental and social themed areas.

Yes

SG 15.2 Indicate the percentage of your total AUM invested in environmental and social themed areas.

%

5

SG 15.3 Specify which thematic area(s) you invest in, indicate the percentage of your AUM in the particular asset class and provide a brief description.

Area

Energy efficiency / Clean technology

Asset class invested

Listed equity

Percentage of AUM (+/-5%) per asset class invested in the area

5

- Fixed income - SSA
- Fixed income - Corporate (financial)
- Fixed income - Corporate (non-financial)
- Fixed income - Securitised
- Private equity
- Property

Percentage of AUM (+/-5%) per asset class invested in the area

10

- Infrastructure
- Hedge funds
- Cash

Brief description and measures of investment

We make investments in funds that invest in equity of the companies involved in clean energy. We also make energy efficiency investments related to our property investments

- Renewable energy

Asset class invested

- Listed equity
- Fixed income - SSA
- Fixed income - Corporate (financial)
- Fixed income - Corporate (non-financial)
- Fixed income - Securitised
- Private equity
- Property
- Infrastructure

Percentage of AUM (+/-5%) per asset class invested in the area

80

- Hedge funds
- Cash

Brief description and measures of investment

Elite Intian Aurinko I Ky invests in Solar power parks in India. It holds a 14 % share of a portfolio of 4 solar plants, which has 230 MW DC total installed capacity. The mandate of the fund is to invest in operational solar plants in Asia. The investments are selected based on operational and financial characteristics and on ESG characteristics. The aim of the fund is to maximize solar energy production with its available resources and provide as much clean energy as possible. It also aims to reduce problems with solar plant water usage and adhere to the ILO employee safety and health guidelines in the plant operations. The governance issues are mitigated by active participation in the board meetings.

- Green buildings

Asset class invested

- Listed equity
- Fixed income - SSA
- Fixed income - Corporate (financial)

- Infrastructure

Percentage of AUM (+/-5%) per asset class invested in the area

20

- Hedge funds
- Cash

Brief description and measures of investment

Elite Älyenergia I Ky invests in both operational and development stage renewable energy plants and building energy efficiency solutions. It has made a couple of small scale building energy efficiency projects in which energy used for heating has been reduced by energy efficiency technologies (by using heat pumps and such). It has also made an investment to develop a portfolio of 3.5 MW solar plants in Spain. The ESG criteria used for selecting investments relate to reductions in green house gases and investments are made only in targets with good corporate governance.

- Sustainable forestry
- Sustainable agriculture
- Microfinance
- SME financing
- Social enterprise / community investing
- Affordable housing
- Education
- Global health
- Water
