RI TRANSPARENCY REPORT

2020

Goodman & Co Investment Counsel / Dundee Goodman
 Merchant Partners

About this report

The PRI Reporting Framework is a key step in the journey towards building a common language and industry standard for reporting responsible investment (RI) activities. This RI Transparency Report is one of the key outputs of this Framework. Its primary objective is to enable signatory transparency on RI activities and facilitate dialogue between investors and their clients, beneficiaries and other stakeholders. A copy of this report will be publicly disclosed for all reporting signatories on the [PRI website](#), ensuring accountability of the PRI Initiative and its signatories.

This report is an export of the individual Signatory organisation's response to the PRI during the 2020 reporting cycle. It includes their responses to mandatory indicators, as well as responses to voluntary indicators the signatory has agreed to make public. The information is presented exactly as it was reported. Where an indicator offers a response option that is multiple-choice, all options that were available to the signatory to select are presented in this report. Presenting the information exactly as reported is a result of signatory feedback which suggested the PRI not summarise the information. As a result, the reports can be extensive. However, to help easily locate information, there is a **Principles index** which highlights where the information can be found and summarises the indicators that signatories complete and disclose.

Understanding the Principles Index

The Principles Index summarises the response status for the individual indicators and modules and shows how these relate to the six [Principles for Responsible Investment](#). It can be used by stakeholders as an 'at-a-glance' summary of reported information and to identify particular themes or areas of interest.

Indicators can refer to one or more Principles. Some indicators are not specific to any Principle. These are highlighted in the 'General' column. When multiple Principles are covered across numerous indicators, in order to avoid repetition, only the main Principle covered is highlighted.

All indicators within a module are presented below. The status of indicators is shown with the following symbols:

Symbol	Status
✓	The signatory has completed all mandatory parts of this indicator
☑	The signatory has completed some parts of this indicator
🔒	This indicator was not relevant for this signatory
-	The signatory did not complete any part of this indicator
Ⓜ	The signatory has flagged this indicator for internal review

Within the table, indicators marked in blue are mandatory to complete. Indicators marked in grey are voluntary to complete.

General

New selection options have been added to this indicator. Please review your prefilled responses carefully.

SG 01.1

Indicate if you have an investment policy that covers your responsible investment approach.

Yes

SG 01.2

Indicate the components/types and coverage of your policy.

Select all that apply

Policy components/types	Coverage by AUM
<input checked="" type="checkbox"/> Policy setting out your overall approach <input type="checkbox"/> Formalised guidelines on environmental factors <input type="checkbox"/> Formalised guidelines on social factors <input type="checkbox"/> Formalised guidelines on corporate governance factors <input type="checkbox"/> Fiduciary (or equivalent) duties <input type="checkbox"/> Asset class-specific RI guidelines <input type="checkbox"/> Sector specific RI guidelines <input type="checkbox"/> Screening / exclusions policy <input type="checkbox"/> Engagement policy <input type="checkbox"/> (Proxy) voting policy <input type="checkbox"/> Other, specify (1) <input type="checkbox"/> Other, specify(2)	<input type="radio"/> Applicable policies cover all AUM <input checked="" type="radio"/> Applicable policies cover a majority of AUM <input type="radio"/> Applicable policies cover a minority of AUM

SG 01.3

Indicate if the investment policy covers any of the following

- Your organisation's definition of ESG and/or responsible investment and it's relation to investments
- Your investment objectives that take ESG factors/real economy influence into account
- Time horizon of your investment
- Governance structure of organisational ESG responsibilities
- ESG incorporation approaches
- Active ownership approaches
- Reporting
- Climate change
- Understanding and incorporating client / beneficiary sustainability preferences
- Other RI considerations, specify (1)
- Other RI considerations, specify (2)

SG 01.4

Describe your organisation's investment principles and overall investment strategy, interpretation of fiduciary (or equivalent) duties, and how they consider ESG factors and real economy impact.

As mining investments are long-term investments, our investment philosophy is dedicated to the concept of long-term committed capital. The proper de-risking of a project to an operating mine has many layers, with value being added at each stage. Small companies need capital to advance through each phase of the de-risking process. Additionally, these companies benefit from advice and experience in successfully navigating the political, social and technical challenges that may be encountered.

Our philosophy, approach, and processes are described at a high level on the relevant page of our website to be found at

<http://www.dundeegoodmanmerchantpartners.com/investments/investment-philosophy/default.aspx>

SG 01.5

Provide a brief description of the key elements, any variations or exceptions to your investment policy that covers your responsible investment approach. [Optional]

WE PUBLICALLY STATE ON OUR WEBSITE THAT:

A large part of our overall assessment revolves around risk management and a deep understanding of the importance of having a social licence to operate. To that end, Dundee Goodman Merchant Partners integrates all of the social issues (which have been defined by the industry as Environmental, Social and Governance issues), into our overall investment analysis and risk management strategy as part of our due diligence process. The management of ESG issues is critical when seeking the improvement of long-term returns. Immediately following investment, portfolio companies are engaged and consistently monitored throughout the investment process. There is a strict expectation for responsible mining and ESG practices to be implemented into their business systems.

The United Nations-supported Principles for Responsible Investment (PRI) Initiative is an international network of investors working together to put the six Principles for Responsible Investment into practice. Its goal is to understand the implications of sustainability for investors and support signatories to incorporate these issues into their investment decision-making and ownership practices. Dundee Goodman Merchant Partners has examined these principles and is now a signatory.

IN ADDITION TO OUR WEBSITE COMMITMENT WE HAVE DRAFT POLICY PREPARED AS OUTLINE BELOW**KEY ELEMENTS**

- Our RI policy is integral with our overall investment policy framework
- Executing on our policy requires qualitative and quantitative input from across our investment team at all stages
- Investment decision making will be responsive to detailed ESG risk assessment

- Our expertise is in actively de-risking and managing as a way of realizing value in undervalued businesses. We will identify all ESG risks and develop remediation strategy to mitigate risk in investee businesses
- Where appropriate we will require investee businesses to be working toward substantial compliance with one or more globally recognized performance standards
- We will require governance level intervention and oversight of critical risk management areas
- We will seek formal reporting on risk management progress

SPECIFICS

- We will invest in business, or actively intervene and direct outcomes, that recognize the importance of sustainable practices
- Areas of specific interest include Multi-stakeholder engagement
- Community engagement and dialogue
- Social responsibility and fairness
- Community and local "return" and sustainability
- Environmental sustainability and stewardship
- Employee and community health and safety
- Cultural awareness and gender and racial equal opportunity
- Human rights
- We expect our investee companies to adopt a full life cycle approach to planning and management (i.e. development to post closure)
- We expect our investee companies to consider product stewardship and supply chain compliance
- We expect our investee businesses to adopt documented governance systems related to oversight of the project management function to ensure that project "stage gates" are passed properly and with full and accurate disclosure
- To ensure a "no surprises" philosophy prevails especially as it relates to schedule, costs, and stakeholder feedback and Social License risk
- To ensure that development proceeds in alignment with ESG requirements and permitting processes

QUANTIFICATION & STANDARDS

- Compliance at operating companies with mandatory and voluntary standards and codes is a key element in mitigating and managing ESG risk
- Minimum requirement is full compliance with local law, regulation, and direction by agencies and competent/legal authorities
- Permit conditions
- Relevant international, Canadian and US law (for example related to transparency and corruption)
- We will require, as appropriate for the jurisdiction and circumstances, substantial compliance (or an agreed compliance timetable) by investee business with one or more internationally recognized standards or conduct codes such as the IFC performance standards
- ICMM codes and standards
- UN Global Compact
- PMI standards for governance of project management
- We will require a best practice approach to the generally accepted definitions of social license, corporate citizenship, social responsibility, human rights, environmental stewardship and sustainability
- We expect best practice governance systems and controls, corporate transparency, and properly organized hierarchical systems allowing controls to cascade into the management of the business or operation

SCREENING OUTCOMES & RISK MANAGEMENT

- We will carry out initial screening assessment for all investment opportunity under consideration with a pass/proceed outcome
- Negative ESG screening outcomes occur when Sovereign risk to a key operating location is high and cannot be mitigated
- Social license has been ignored or lost and ongoing risk cannot be mitigated quickly enough to recover value
- There is no EITI coverage in a key jurisdiction and a transparency risk exists
- Extreme environmental risk, legacy risk, or closure risk will likely negatively affect value over medium and long term
- Poor governance and lack of transparency does not allow for adequate diligence processes
- Positive ESG screening outcomes occur when there are no significant ESG risks discovered during diligence
- And our modelling shows that there is unrecognized value
- Positive ESG screening outcomes but where issues are flagged for risk assessment and mitigation planning is where DGMP can create value
- The DGMP business paradigm/value proposition is that we are a team of professionals with operating and governance experience across the full range of sector risks and disciplines
- We can quantify ESG risk in this sector and develop mitigation strategies and programs
- This allows us to see and realize value that other investors don't see or cannot leverage

No

SG 05.1

Indicate if and how frequently your organisation sets and reviews objectives for its responsible investment activities.

- Quarterly or more frequently
- Biannually
- Annually
- Less frequently than annually
- Ad-hoc basis
- It is not set/reviewed

Governance and human resources

SG 07**Mandatory****Public****Core Assessed****General****SG 07.1**

Indicate the internal and/or external roles used by your organisation, and indicate for each whether they have oversight and/or implementation responsibilities for responsible investment.

Roles

- Board members or trustees
- Internal Roles (triggers other options)

Select from the below internal roles

- Chief Executive Officer (CEO), Chief Investment Officer (CIO), Chief Operating Officer (COO), Investment Committee
 - Oversight/accountability for responsible investment
 - Implementation of responsible investment
 - No oversight/accountability or implementation responsibility for responsible investment
- Other Chief-level staff or head of department, specify
 - Managing Director/MD Technical**
 - Oversight/accountability for responsible investment
 - Implementation of responsible investment
 - No oversight/accountability or implementation responsibility for responsible investment
 - Portfolio managers
 - Oversight/accountability for responsible investment
 - Implementation of responsible investment
 - No oversight/accountability or implementation responsibility for responsible investment
 - Investment analysts
 - Dedicated responsible investment staff
 - Investor relations
 - Other role, specify (1)
 - Other role, specify (2)
- External managers or service providers

SG 07.2	For the roles for which you have RI oversight/accountability or implementation responsibilities, indicate how you execute these responsibilities.
----------------	---

Our team can be found on our website;

<http://www.dundegoodmanmerchantpartners.com/about-us/our-team/default.aspx>

CEO, CFO, Portfolio Management and DGMP management group (6 individuals from 4 locations) and associates analysts meet regularly and have a formal weekly meeting. Integration of ESG is an "all of management" function but one individual on this team has specific ESG credentials and provides additional technical and operational guidance and is accountable for RI governance oversight throughout the investment process

SG 07.3	Indicate the number of dedicated responsible investment staff your organisation has.
----------------	--

	Number

ESG incorporation in actively managed listed equities

Implementation processes

LEI 01	Mandatory	Public	Gateway	PRI 1
--------	-----------	--------	---------	-------

LEI 01.1

Indicate which ESG incorporation strategy and/or combination of strategies you apply to your actively managed listed equities; and the breakdown of your actively managed listed equities by strategy or combination of strategies.

ESG incorporation strategy (select all that apply)

- Screening alone (i.e., not combined with any other strategies)
- Thematic alone (i.e., not combined with any other strategies)
- Integration alone (i.e., not combined with any other strategies)
- Screening and integration strategies

Percentage of active listed equity to which the strategy is applied — you may estimate +/- 5%	
---	---

- Thematic and integration strategies
- Screening and thematic strategies
- All three strategies combined
- We do not apply incorporation strategies

Total actively managed listed equities

100%

LEI 01.2

Describe your organisation's approach to ESG incorporation and the reasons for choosing the particular strategy/strategies.

Screening level analysis indicates where a decision to proceed should incorporate conditions to be settled or agreement to a plan to resolve issues precedent to the investment being made (where investment is). Once an investment is completed and an active management regime has commenced there are several ways in which monitoring and intervention, where required, can occur;

- Appointment of an internal technical liaison to follow up on specific issues
- Process driven compliance assessment and follow up on ESG investment conditions
- Regular dialogue with management within a governance process constrained framework that addresses ESG
- Setting up channels where expertise can be offered on the basis that the investor has value to add
- Representative formal board/governance appointments from within the investor team or from a pool of trusted independents

The choices available allow us to remain flexible and design an engagement process that best suits the asset and its management and the issues needing management.

(A) Implementation: Screening

LEI 04	Mandatory	Public	Descriptive	PRI 1
LEI 04.1	Indicate and describe the type of screening you apply to your internally managed active listed equities.			

Type of screening

- Negative/exclusionary screening

Screened by

- Product
 Activity
 Sector
 Country/geographic region
 Environmental and social practices and performance
 Corporate governance

Description

Negative ESG screening outcomes occur when;

- The primary product for the company or project is thermal coal
- Sovereign risk to a key operating location is high and cannot be mitigated
- Social license has been ignored or lost and ongoing risk cannot be mitigated quickly enough to recover value
- There is no EITI coverage in a key jurisdiction and a transparency risk exists
- Extreme environmental risk, legacy risk, or closure risk will likely negatively affect value over medium and long term
- Poor governance and lack of transparency does not allow for adequate diligence processes

- Positive/best-in-class screening

Screened by

- Product
 Activity
 Sector
 Country/geographic region
 Environmental and social practices and performance
 Corporate governance

Description

We do not broadly apply positive screening outcomes but prefer to move from negative outcomes and into a detailed screening and diligence process focussing on corporations and projects.

Company/project specific Positive ESG screening outcomes occur when

- there are no significant ESG risks discovered during diligence
- our modelling shows that there is unrecognized value

Positive ESG screening outcomes but where issues are flagged for risk assessment and mitigation planning is where DGMP can create value using the DGMP business paradigm/value proposition and active management of our investment, i.e.;

- we are a team of professionals with operating and governance experience across the full range of sector risks and disciplines
- we can quantify ESG risk in this sector and develop mitigation strategies and programs
- this allows us to see and realize value that other investors don't see or cannot leverage

Norms-based screening

Screened by

- UN Global Compact Principles
- The UN Guiding Principles on Business and Human Rights
- International Labour Organization Conventions
- United Nations Convention Against Corruption
- OECD Guidelines for Multinational Enterprises
- Other, specify

As outlined below

Description

Minimum requirement is full compliance with:

- Local law, regulation, and direction by agencies and competent/legal authorities
- Permit conditions
- Relevant international, Canadian and US law (for example related to transparency and corruption)

We will require, as appropriate for the jurisdiction and circumstances, substantial compliance (or an agreed compliance timetable) by investee business with one or more internationally recognized standards or conduct codes such as

- The IFC performance standards
- ICMM codes and standards
- UN Global Compact
- PMI standards for governance of project management

We will require a best practice approach to the generally accepted definitions of social license, corporate citizenship, social responsibility, human rights, environmental stewardship and sustainability

We expect best practice governance systems and controls, corporate transparency, and properly organized hierarchical systems allowing controls to cascade into the management of the business or operation

LEI 04.2	Describe how you notify clients and/or beneficiaries when changes are made to your screening criteria.
-----------------	--

Any significant change would be outlined on our website.

LEI 05	Mandatory	Public	Core Assessed	PRI 1
---------------	------------------	---------------	----------------------	--------------

LEI 05.1	Indicate which processes your organisation uses to ensure ESG screening is based on robust analysis.
-----------------	--

- Comprehensive ESG research is undertaken or sourced to determine companies' activities and products.
- Companies are given the opportunity by you or your research provider to review ESG research on them and correct inaccuracies.
- External research and data used to identify companies to be excluded/included is subject to internal audit by ESG/RI staff, the internal audit function or similar.
- Third-party ESG ratings are updated regularly to ensure that portfolio holdings comply with fund policies.
- Trading platforms blocking / restricting flagged securities on the black list.
- A committee, body or similar with representatives independent of the individuals who conduct company research reviews some or all screening decisions.
- A periodic review of internal research is carried out.
- Review and evaluation of external research providers.
- Other; specify
- None of the above

LEI 05.2	Indicate the proportion of your actively managed listed equity portfolio that is subject to comprehensive ESG research as part your ESG screening strategy.
-----------------	---

- <10%
- 10-50%
- 51-90%
- >90%

(C) Implementation: Integration of ESG factors

LEI 08	Mandatory	Public	Core Assessed	PRI 1
---------------	------------------	---------------	----------------------	--------------

LEI 09	Mandatory	Public	Core Assessed	PRI 1
--------	-----------	--------	---------------	-------

LEI 09.1 Indicate which processes your organisation uses to ensure ESG integration is based on robust analysis.

- Comprehensive ESG research is undertaken or sourced to determine companies' activities and products
- Companies are given the opportunity by you or your research provider to review ESG research on them and correct inaccuracies
- Third-party ESG ratings are updated regularly
- A periodic review of the internal research is carried out
- Structured, regular ESG specific meetings between responsible investment staff and the fund manager or within the investments team
- ESG risk profile of a portfolio against benchmark
- Analysis of the impact of ESG factors on investment risk and return performance
- Other; specify
- None of the above

LEI 09.2

Indicate the proportion of your actively managed listed equity portfolio that is subject to comprehensive ESG research as part your integration strategy.

- <10%
- 10-50%
- 51-90%
- >90%

LEI 09.3

Indicate how frequently third party ESG ratings that inform your ESG integration strategy are updated.

- Quarterly or more frequently
- Bi-Annually
- Annually
- Less frequently than annually

LEI 09.5

Describe how ESG information is held and used by your portfolio managers.

- ESG information is held within centralised databases or tools, and it is accessible by all relevant staff
- ESG information or analysis is a standard section or aspect of all company research notes or industry/sector analysis generated by investment staff
- Systematic records are kept that capture how ESG information and research were incorporated into investment decisions
- Other; specify
diligence and management reporting includes assessment of ESG factors
- None of the above

Overview

PE 02	Mandatory	Public	Core Assessed	PRI 2
-------	-----------	--------	---------------	-------

PE 02.1 Indicate whether your organisation's investment activities are guided by a responsible investment policy / follow responsible investment guidelines.

- Our investment activities are guided by a responsible investment policy

PE 02.2 Describe how your organisation outlines expectations on staff and portfolio companies' approach towards ESG issues in investment activities.

The Dundee Brand and team, over a 3-decade history, have maintained a highly respected industry track record of success. This success is attributed to the creation, advancement, development and active management of mining companies worldwide. It is our belief that ESG incorporation has been an essential driver of our success, and as such, is woven deeply into our investment process.

Our management team considers ESG incorporation a "must have", and these standards are upheld in all areas of the business and at all levels. Our unique de-risking process explicitly includes local community engagement, safety, environmental protection and the communication of all potential stakeholder concerns.

From the portfolio company perspective, an investment is only made if our team believes that all globally recognized ESG standards are met. Countries that we feel lack adequate rule of law and/or have safety concerns are not even considered.

Our process of working with management to develop an independent board further enables governance best practices. Our team has developed positive relationships with government officials and maintains that through research and education on responsible mining, our entire team is equipped with the knowledge and framework that supports everyone's cooperation and goal alignment.

- Our investment activities are not guided by a responsible investment policy
- We do not have a responsible investment policy

Fundraising of private equity funds

PE 03	Mandatory	Public	Core Assessed	PRI 1,4,6
-------	-----------	--------	---------------	-----------

PE 03.1 Indicate if your most recent fund placement documents (private placement memorandums (PPM) or similar) refer to responsible investment.

- Yes
- No
- Not applicable as our organisation does not fundraise

PE 03.4 Explain why your organisation does not fund-raise.

Incorporation of ESG issues have been formally written into our growth plans with regards to fundraising, and will be publicly disclosed in the aforementioned documents as part of our overall analysis and risk management process.

Pre-investment (selection)

PE 05	Mandatory	Public	Gateway	PRI 1
-------	-----------	--------	---------	-------

PE 05.1

During due-diligence indicate if your organisation typically incorporates ESG issues when selecting private equity investments.

Yes

PE 05.2

Describe your organisation's approach to incorporating ESG issues in private equity investment selection.

Our investment selection is strictly based on our ability to implement the following tenets of our investment strategy:

- 1) Alignment - success is dependent on the alignment of interests - not just financially, but socially and culturally
- 2) Patient Capital - a long term investment requires a long-term outlook, and as such must address the potential challenges of a changing environment and the careful examination of innovation and opportunities for growth in the mining sector for decades to come.
- 3) Relationships - strong relationship developed over 30+ years
- 4) De-Risking - Our unique, socially responsible and holistic view of de-risking is central to our strategy to unlock the true value of an asset.
- 5) Management - by working with, and re-engineering (if necessary) management teams we can easily influence positive leadership practices, independent board representation, corporate culture and strategy.
- 6) Shared Vision - our experience provides a deep understanding of the entire picture of a resource project, ensuring a shared vision is upheld.
- 7) Active Advisory Role - by maintaining an active advisory role, we maintain involvement in all processes.
- 8) Importance of a Social License - the management of ESG issues is critical to maintaining a social license to operate, which in our view is essential when seeking superior long-term returns.
- 9) Project budgeting - our team only employs reputable, quality engineers and financiers.
- 10) Credibility - we are known and respected in the industry and as such only choose to partner with those that hold equal standards. Such standards further bring credibility to businesses we choose to partner with.

No

PE 06	Mandatory	Public	Core Assessed	PRI 1,3
-------	-----------	--------	---------------	---------

PE 06.1

Indicate what type of ESG information your organisation typically considers during your private equity investment selection process.

- Raw data from target company
- Benchmarks against other companies
- Sector level data/benchmarks
- Country level data/benchmarks
- Reporting standards, industry codes and certifications
- International initiatives, declarations or standards
- Engagements with stakeholders (e.g. customers and suppliers)
- Advice from external resources
- Other, specify
- We do not track this information

PE 06.2

Describe how this information is reported to, considered and documented by the Investment Committee or similar.

We rely on our internal due-diligence process and the technical expertise of our team. On a broader level, we invest only in countries that uphold the strictest ESG regulations.

We are currently developing formal internal standards.

Post-investment (monitoring)

PE 09

Confidence building measures

PRI disclaimer

This document presents information reported directly by signatories. This information has not been audited by the PRI Secretariat or any other party acting on their behalf. While this information is believed to be reliable, no representations or warranties are made as to the accuracy of the information presented, and no responsibility or liability can be accepted for any error or omission.

Confidence building measures

CM1 01	Mandatory	Public	Additional Assessed	General
--------	-----------	--------	---------------------	---------

CM1 01.1 Indicate whether the reported information you have provided for your PRI Transparency Report this year has undergone:

- Third party assurance over selected responses from this year's PRI Transparency Report
- Third party assurance over data points from other sources that have subsequently been used in your PRI responses this year
- Third party assurance or audit of the correct implementation of RI processes (that have been reported to the PRI this year)
- Internal audit of the correct implementation of RI processes and/or accuracy of RI data (that have been reported to the PRI this year)
- Internal verification of responses before submission to the PRI (e.g. by the CEO or the board)
- Other, specify
- None of the above

CM1 02	Mandatory	Public	Descriptive	General
--------	-----------	--------	-------------	---------

CM1 02.1 We undertook third party assurance on last year's PRI Transparency Report

- Whole PRI Transparency Report was assured last year
- Selected data was assured in last year's PRI Transparency Report
- We did not assure last year's PRI Transparency report
- None of the above, we were in our preparation year and did not report last year.

CM1 02.3 Additional information [OPTIONAL]

We are currently in our preparation year and participating in the voluntary disclosure.

CM1 03	Mandatory	Public	Descriptive	General
--------	-----------	--------	-------------	---------

CM1 03.1 We undertake confidence building measures that are unspecific to the data contained in our PRI Transparency Report:

- We adhere to an RI certification or labelling scheme
- We carry out independent/third party assurance over a whole public report (such as a sustainability report) extracts of which are included in this year's PRI Transparency Report
- ESG audit of holdings
- Other, specify
- None of the above

CM1 04	Mandatory	Public	Descriptive	General
--------	-----------	--------	-------------	---------

CM1 04.1

Do you plan to conduct third party assurance of this year's PRI Transparency report?

- Whole PRI Transparency Report will be assured
- Selected data will be assured
- We do not plan to assure this year's PRI Transparency report

CM1 04.3

Additional information [OPTIONAL]

We are currently in our preparation year and participating in the voluntary disclosure.
