RI TRANSPARENCY REPORT

2020

VietNam Holding Limited

About this report

The PRI Reporting Framework is a key step in the journey towards building a common language and industry standard for reporting responsible investment (RI) activities. This RI Transparency Report is one of the key outputs of this Framework. Its primary objective is to enable signatory transparency on RI activities and facilitate dialogue between investors and their clients, beneficiaries and other stakeholders. A copy of this report will be publicly disclosed for all reporting signatories on the [PRI website](#), ensuring accountability of the PRI Initiative and its signatories.

This report is an export of the individual Signatory organisation's response to the PRI during the 2020 reporting cycle. It includes their responses to mandatory indicators, as well as responses to voluntary indicators the signatory has agreed to make public. The information is presented exactly as it was reported. Where an indicator offers a response option that is multiple-choice, all options that were available to the signatory to select are presented in this report. Presenting the information exactly as reported is a result of signatory feedback which suggested the PRI not summarise the information. As a result, the reports can be extensive. However, to help easily locate information, there is a **Principles index** which highlights where the information can be found and summarises the indicators that signatories complete and disclose.

Understanding the Principles Index

The Principles Index summarises the response status for the individual indicators and modules and shows how these relate to the six [Principles for Responsible Investment](#). It can be used by stakeholders as an 'at-a-glance' summary of reported information and to identify particular themes or areas of interest.

Indicators can refer to one or more Principles. Some indicators are not specific to any Principle. These are highlighted in the 'General' column. When multiple Principles are covered across numerous indicators, in order to avoid repetition, only the main Principle covered is highlighted.

All indicators within a module are presented below. The status of indicators is shown with the following symbols:

Symbol	Status
✓	The signatory has completed all mandatory parts of this indicator
☑	The signatory has completed some parts of this indicator
🔒	This indicator was not relevant for this signatory
-	The signatory did not complete any part of this indicator
⚠	The signatory has flagged this indicator for internal review

Within the table, indicators marked in blue are mandatory to complete. Indicators marked in grey are voluntary to complete.

OO 11.4 Provide a brief description of how your organisation includes responsible investment considerations in your investment manager selection, appointment and monitoring processes.

ESG is incorporated in all parts of our investment process. These include initial screening, due diligence, investment decision, acquisition structuring, investment agreements and documentation, regular monitoring, and exit.

- During the initial screening phase, all shortlisted companies are examined for controversial products and practices. Controversial products include those related to nuclear, defense, tobacco, gambling, and distilled alcohol. VNH does not invest in such businesses. Furthermore, VNH refuses to invest in companies that do not commit to comply with relevant legislation. The outcome is a Pipeline with a shorter list of companies slated for further research and due diligence.
- During a due diligence phase, ESG risks and opportunities are carefully examined based on sound national and international standards, mainly those of the IFC/ World Bank; and
- During the investment phase, ESG risk/opportunity analysis is continuously conducted through regular monitoring to review and assess the true ESG status of the portfolio. Company visits and management interviews are integral to the team's engagement activities and an important part of the ESG due diligence and investment phase. ESG exit shall be conducted in case of controversial businesses and major violations.

SG 03.1 Indicate if your organisation has a policy on managing potential conflicts of interest in the investment process.

Yes

SG 03.2 Describe your policy on managing potential conflicts of interest in the investment process.

The Investment Manager and its officers and employees may from time to time act for other clients or manage other funds or mandates that may have similar investment objectives and policies to that of VNH. This may result in potential conflicts of interest arising between the Investment Manager and VNH. In particular, circumstances may arise where investment opportunities will be available to VNH which are also suitable for one or more of such clients of the Investment Manager or such other funds or mandates. VNH has satisfied that the Investment Manager has procedures in place to address potential conflicts of interest and that, where a conflict arises, the Investment Manager will seek to resolve that conflict in accordance with the Investment Management Agreement and applicable law and regulation. In particular, the Directors note that VNH is subject to the RCIS Rules relating to managing conflicts of interest, including any conflicts of interest involving the Investment Manager, and the Investment Manager is subject to the Licensees (Conduct of Business) Rule 2016 relating to managing conflicts of interest.

Add Example 1

Topic or issue	Corporate Governance in Thien Long Group (TLG)
Conducted by	<input checked="" type="checkbox"/> Internal staff
Asset class	<input type="checkbox"/> All asset classes <input checked="" type="checkbox"/> Listed Equity
Scope and process	At the end of 2018, Mr.Tho directly owned 6.45% of total TLG shares. Besides, he is the representation of Thien Long An Think Corp, which owned 51.66% of total TLG shares. This concentrated ownership in Thien Long Group could lead to some of corporate governance issues such as solid power in the company. Moreover, tthe percentage of independent Directors in BOD is not more than 1/3 of a total member of BOD as the recommendation of Corporate Law.
Outcomes	After several meetings through Company Engagement Program, VNH and Investment Manager worked with BOD of TLG to find the solution for some corporate governance issues. First, TLG agrees to clarify the role and contribution of BOD members, especially independent BOD members. Second, the key members of TLG could joint corporate governance training course at VIOD to improve their knowledge and apply in TLG for further. Thirdly, Mr. Tho - Chairman has a plan to reduce his ownership of company.

Add Example 2

Topic or issue	Corporate Governance in Sai Gon Cargo (SCS)
Conducted by	<input checked="" type="checkbox"/> Internal staff
Asset class	<input type="checkbox"/> All asset classes <input checked="" type="checkbox"/> Listed Equity
Scope and process	<ul style="list-style-type: none"> - ESOP policy: SCS plans to issue 2% in 3 years, equivalent to 0.67% each year, from 2019 to 2021. However, this policy is applied for only BOM and top managers. - Poor Investor Relation activities quality. - Poor annual report quality
Outcomes	<p>After several meetings through Company Engagement Program, VNH and Investment Manager worked with BOD of SCS to find the solution for some corporate governance issues. Firstly, we suggested for SCS to expand their ESOP plan for both top managers and middle managers with a suitable block-up period. Secondly, we suggested some Investor Relations activities for SCS, including holding quarterly analyst meetings, issuing quarterly IR letters... which could attract more attention of both institutional investors and retail investors. Thirdly, we suggested SCS improving the quality of the annual report and provide more information about BOD members.</p>

Add Example 3

Topic or issue	ESG issues in ABA
Conducted by	<input checked="" type="checkbox"/> Internal staff
Asset class	<input checked="" type="checkbox"/> All asset classes <input type="checkbox"/> Listed Equity
Scope and process	We were working with ABA for several times to solve some of ESG issues in the company. Some of issues are: - High electricity consumption in ABA's warehouses. - Social issues related to staffs in company - Poor BOD structure.
Outcomes	- The company currently has a monthly monitoring report for electricity and water consumption. In 2019, ABA also targets to reduce electricity consumption by 10% versus that of 2018. - ABA has insurance policies for all employees, especially for truck drivers. ABA has implemented a Benefit Policy for all company staff in Q32019. In which, employees who work on holiday would receive a higher salary. For example, truck drivers would receive VND 500,000/driver/day more when to work during the holiday. The company also has KPI systems and bonus systems for departments. - The Company improves BOD structure by increasing the number of independent Directors in BOD and segregation between CEO and Chairman.
