# RI TRANSPARENCY REPORT

## 2020

Advantage Partners

## About this report

The PRI Reporting Framework is a key step in the journey towards building a common language and industry standard for reporting responsible investment (RI) activities. This RI Transparency Report is one of the key outputs of this Framework. Its primary objective is to enable signatory transparency on RI activities and facilitate dialogue between investors and their clients, beneficiaries and other stakeholders. A copy of this report will be publicly disclosed for all reporting signatories on the [PRI website](#), ensuring accountability of the PRI Initiative and its signatories.

This report is an export of the individual Signatory organisation's response to the PRI during the 2020 reporting cycle. It includes their responses to mandatory indicators, as well as responses to voluntary indicators the signatory has agreed to make public. The information is presented exactly as it was reported. Where an indicator offers a response option that is multiple-choice, all options that were available to the signatory to select are presented in this report. Presenting the information exactly as reported is a result of signatory feedback which suggested the PRI not summarise the information. As a result, the reports can be extensive. However, to help easily locate information, there is a **Principles index** which highlights where the information can be found and summarises the indicators that signatories complete and disclose.

## Understanding the Principles Index

The Principles Index summarises the response status for the individual indicators and modules and shows how these relate to the six [Principles for Responsible Investment](#). It can be used by stakeholders as an 'at-a-glance' summary of reported information and to identify particular themes or areas of interest.

Indicators can refer to one or more Principles. Some indicators are not specific to any Principle. These are highlighted in the 'General' column. When multiple Principles are covered across numerous indicators, in order to avoid repetition, only the main Principle covered is highlighted.

All indicators within a module are presented below. The status of indicators is shown with the following symbols:

Symbol	Status
✓	The signatory has completed all mandatory parts of this indicator
☑	The signatory has completed some parts of this indicator
🔒	This indicator was not relevant for this signatory
-	The signatory did not complete any part of this indicator
Ⓜ	The signatory has flagged this indicator for internal review

Within the table, indicators marked in blue are mandatory to complete. Indicators marked in grey are voluntary to complete.

Describe your organisation's investment principles and overall investment strategy, interpretation of fiduciary (or equivalent) duties, and how they consider ESG factors and real economy impact.

We implement our private equity investments and support the subsequent management process in order to nurture our portfolio companies into entities that remain sufficiently competitive and sustainable even after they have left our funds, and to provide value not only to our funds and the investors thereto but also to other shareholders, employees, business partners and financial institutions.

To identify and manage ESG factors which may affect those stakeholders' interests, we integrated the framework for ESG consideration into our investment cycle.

Before undertaking investment, we conduct ESG screening and assess risks and value creation opportunities associated with ESG factors through our due diligence process.

Where there are any material ESG issues identified during investment process, we develop and implement adequate action plan to address those issues in collaboration with portfolio companies.

Asset Class	Describe what processes are in place and the outputs or outcomes achieved
Listed equities - ESG incorporation	Before undertaking investment in listed equities, we conduct ESG screening and risk assessment by having internal experts conduct due diligence primarily through communication with target company and publicly available information.
Listed equities - engagement	<p>Since most of our investments in listed equities are minority investments, we have limited ability to conduct ESG due diligence or to influence the decision of portfolio company on ESG issues.</p> <p>On this basis, we are in the process of incorporating ESG screening into the investment decision-making process and increasing channel for communications with the management team of portfolio companies on ESG issues to the extent practically possible.</p>
Listed equity - (proxy) voting	Although we do not have a voting policy specifically addressing ESG factors, we cast a vote based on consideration of various ESG issues surrounding our portfolio companies.

**PE 05.1** During due-diligence indicate if your organisation typically incorporates ESG issues when selecting private equity investments.

- Yes

PE 05.2

Describe your organisation's approach to incorporating ESG issues in private equity investment selection.

We conduct ESG screening in our deal due diligence process based on our comprehensive ESG checklist. When there are material issues identified during the due diligence process, we may decide not to make the investment. If identified ESG issues are considered to be manageable, we include the management of these issues in a 100-day post-investment plan presented to the investment committee prior to investment and monitor ongoing progress on ESG issues, as applicable after closing.

PE 06.2

Describe how this information is reported to, considered and documented by the Investment Committee or similar.

Before undertaking any investment, we complete comprehensive due diligence which includes material ESG issues identified for each investment by having both internal and external subject matter experts who possess relevant competence conduct assessments of risks and value creation considered from the initial due diligence stage to the final Investment Committee process. All Investment Committee members attend a firm-wide weekly meeting to discuss new investment opportunities and the status of current portfolio companies. The members of ESG Committee also attend those meetings and provide opinions from the perspectives of not only any applicable laws but also a variety of ESG assessment framework. ESG-related issues that are discovered during the due diligence process are discussed throughout the investment process from the initial weekly meeting through the Investment Committee meeting. ESG issues considered, findings, and next steps if any, are documented for internal use.
