

CLIMATE TRANSPARENCY REPORT 2020

Boston Partners Global Investors, Inc.

About the Climate-related Disclosure Indicators

Climate has been identified as a top priority for PRI signatories, with over 70% of asset owners reporting this as the most important long-term trend they are acting on.

The FSB Task Force's guidance on climate-related financial disclosure aim to create a single framework for disclosure on assessment and management of climate-related risk. The recommendations, supported by investors representing US\$22 trillion, identify four main disclosures, Governance, Strategy, Risk Management, Metrics and Targets, and include specific guidance for asset owners and managers.

As a result, the PRI introduced climate-related disclosure indicators that can be used to align with the TCFD recommendations in the 2020 PRI Reporting Framework.

About this report

This report is an export of only the climate-related indicators from the 2020 Reporting Framework response. The full Public Transparency Report is available here (<https://reporting.unpri.org/surveys/PRI-reporting-framework-2020/-EC0C4780-9064-4F3C-BC9B-D58D62CB7247/79894dbc337a40828d895f9402aa63de/html/2/?lang=en&a=1>). It shows the responses to all the completed climate indicators, even those you chose to keep private. It is designed for your internal review or – if you wish - to share with your stakeholders.

The PRI will not publish this report on its website if you have designated your 2020 climate reporting as “private”. Otherwise, you will be able to access the Climate Transparency Report of your organisation and that of other signatories on the [PRI website](#) and on the [Data Portal](#).

To easily locate information, there is a **Recommendation index** which summarises the indicators that signatories complete and disclose. The report presents information exactly as it was reported as per signatory preference. Where an indicator offers a response option that is multiple-choice, all options that were available to the signatory are presented in this report.

Investment policy

SG 01	Mandatory	Public	Core Assessed	General
-------	-----------	--------	---------------	---------

New selection options have been added to this indicator. Please review your prefilled responses carefully.

SG 01.1 Indicate if you have an investment policy that covers your responsible investment approach.

SG 01 CC	Mandatory to Report Voluntary to Disclose	Public	Descriptive	General
----------	---	--------	-------------	---------

SG 01.6 CC Indicate whether your organisation has identified transition and physical climate-related risks and opportunities and factored this into the investment strategies and products, within the organisation's investment time horizon.

Yes

Describe the identified transition and physical climate-related risks and opportunities and how they have been factored into the investment strategies/products.

Climate change risks and opportunities are industry/issuer specific and are considered as part of the sustainability research provided by the Sustainability Team to the fundamental analyst team and independently by the analysts directly when those risks are material to an investment decision.

No

SG 01.7 CC Indicate whether the organisation has assessed the likelihood and impact of these climate risks?

Yes

Describe the associated timescales linked to these risks and opportunities.

these timescales are industry/issuer specific. Climate change risks are typically expected to affect investments long after the projected holding period of an issuer by Boston Partners except for insurance which is dealing with changing weather patterns currently and fossil fuel producers and dependents such as airlines and car manufactureres which are affected by regulatory changes which may be current. .

No

SG 01.8 CC Indicate whether the organisation publicly supports the TCFD?

Yes

No

SG 01.9 CC Indicate whether there is an organisation-wide strategy in place to identify and manage material climate-related risks and opportunities.

Yes

	Describe
--	----------

As of year-end 2019, we conduct a quarterly Climate Impact Assessment through ISS ESG for each investment product/strategy. On an ongoing basis, the Sustainability and Engagement Team considers climate-related risks as part of its analysis of an issuer, including the way and the extent that the issuer is incorporating climate change into its operations/products/outlook.

No

SG 1.10 CC	Indicate the documents and/or communications the organisation uses to publish TCFD disclosures.
-----------------------	---

- Public PRI Climate Transparency Report
- Annual financial filings
- Regular client reporting
- Member communications
- Other
- We currently do not publish TCFD disclosures

Governance and human resources

SG 07 CC	Mandatory to Report Voluntary to Disclose	Public	Descriptive	General
-----------------	--	---------------	--------------------	----------------

SG 07.5 CC	Indicate the roles in the organisation that have oversight, accountability and/or management responsibilities for climate-related issues.
-----------------------	---

	Board members or trustees
--	---------------------------

- Oversight/accountability for climate-related issues
- Assessment and management of climate-related issues
- No responsibility for climate-related issues

	Chief Executive Officer (CEO), Chief Investment Officer (CIO), Chief Risk Officer (CRO), Investment Committee
--	---

- Oversight/accountability for climate-related issues
- Assessment and management of climate-related issues
- No responsibility for climate-related issues

	Investment analysts
--	---------------------

- Oversight/accountability for climate-related issues
- Assessment and management of climate-related issues
- No responsibility for climate-related issues

Dedicated responsible investment staff

- Oversight/accountability for climate-related issues
- Assessment and management of climate-related issues
- No responsibility for climate-related issues

SG 07.7 CC For management-level roles that assess and manage climate-related issues, provide further information on the structure and processes involved.

The CEO and Chief Investment Officer and the Director of Fundamental Research are informed regularly of the results of sustainability research regarding issuers held for client portfolios and participate in investment discussions regarding those issues with ultimate oversight of the climate and other sustainability risks and opportunities in the portfolios.

ESG issues in asset allocation

SG 13	Mandatory	Public	Descriptive	PRI 1
--------------	------------------	---------------	--------------------	--------------

SG 13.1 Indicate whether the organisation carries out scenario analysis and/or modelling, and if it does, provide a description of the scenario analysis (by asset class, sector, strategic asset allocation, etc.).

- Yes, in order to assess future ESG factors
- Yes, in order to assess future climate-related risks and opportunities

Describe

As of year-end 2019, we conduct a quarterly Climate Impact Assessment through ISS ESG for each investment product/strategy.

- No, our organisation does not currently carry out scenario analysis and/or modelling

SG 13.2 Indicate if your organisation considers ESG issues in strategic asset allocation and/or allocation of assets between sectors or geographic markets.

We do the following

- Allocation between asset classes
- Determining fixed income duration
- Allocation of assets between geographic markets
- Sector weightings
- Other, specify

Asset allocation is a function of issuer selection and issuer selection incorporates ESG issues. ESG issues may also affect sector opinions.

- We do not consider ESG issues in strategic asset allocation

SG 13 CC	Mandatory to Report Voluntary to Disclose	Public	Descriptive	General
-----------------	--	---------------	--------------------	----------------

SG 13.4
CC

Describe how your organisation is using scenario analysis to manage climate-related risks and opportunities, including how the analysis has been interpreted, its results, and any future plans.

- Initial assessment
- Incorporation into investment analysis
- Inform active ownership

Describe

Each portfolio manager receives a quarterly Climate Impact Assessment for the product he/she manages to take into consideration.

- Other

SG 13.5
CC

Indicate who uses this analysis.

- Board members, trustees, C-level roles, Investment Committee
- Portfolio managers
- Dedicated responsible investment staff
- External managers
- Investment consultants/actuaries
- Other

specify

Clients who inquire about climate-related matters may receive a Climate Impact Assessment report.

SG 13.6
CC

Indicate whether your organisation has evaluated the potential impact of climate-related risks, beyond the investment time horizon, on its investment strategy.

- Yes
- No

Please explain the rationale

The firm is in the early stages of assessing and considering climate-related risks. The Sustainability and Engagement Team considers climate-related risks as part of its analysis of an issuer, including the way and the extent that the issuer is incorporating climate change into its operations/products/outlook.

SG 13.7
CC

Indicate whether a range of climate scenarios is used.

- Analysis based on a 2°C or lower scenario
- Analysis based on an abrupt transition, consistent with the Inevitable Policy Response
- Analysis based on a 4°C or higher scenario
- No, a range is not used

Provider	Scenario used
IEA	<input type="checkbox"/> Beyond 2 Degrees Scenario (B2DS)
IEA	<input checked="" type="checkbox"/> Energy Technology Perspectives (ETP) 2 Degrees scenario
IEA	<input type="checkbox"/> Sustainable Development Scenario (SDS)
IEA	<input type="checkbox"/> New Policy Scenario (NPS)
IEA	<input type="checkbox"/> Current Policy Scenario (CPS)
IRENA	<input type="checkbox"/> RE Map
Greenpeace	<input type="checkbox"/> Advanced Energy [R]evolution
Institute for Sustainable Development	<input type="checkbox"/> Deep Decarbonisation Pathway Project (DDPP)
Bloomberg	<input type="checkbox"/> BNEF reference scenario
IPCC	<input type="checkbox"/> Representative Concentration Pathway (RCP) 8.5
IPCC	<input type="checkbox"/> RPC 6
IPCC	<input type="checkbox"/> RPC 4.5
IPCC	<input type="checkbox"/> RPC 2.6
Other	<input type="checkbox"/> Other (1)
Other	<input type="checkbox"/> Other (2)
Other	<input type="checkbox"/> Other (3)

SG 14

Mandatory to Report Voluntary to Disclose

Public

Additional Assessed

PRI 1

SG 14.1

Some investment risks and opportunities arise as a result of long term trends. Indicate which of the following are considered.

- Changing demographics
- Climate change
- Resource scarcity
- Technological developments
- Other, specify(1)
- Other, specify(2)
- None of the above

SG 14.2

Indicate which of the following activities you have undertaken to respond to climate change risk and opportunity

- Established a climate change sensitive or climate change integrated asset allocation strategy
- Targeted low carbon or climate resilient investments

Specify the AUM invested in low carbon and climate resilient portfolios, funds, strategies or asset classes.

	trillions	billions	millions	thousands	hundreds
Total AUM			1	691	846
Currency	USD				
Assets in USD			1	691	846

Specify the framework or taxonomy used.

Boston Partners launched a Dynamic Sustainability Product in 2019. The Product seeks growth of capital by investing in companies in global developed markets that have good financial and environmental, social and governance ("ESG") attributes. The ESG Team will assess each issuer in the Investible Universe based upon the criteria set forth in the Boston Partners' Sustainability and Engagement Policy, including, in particular, products or services of such issuer which are inherently beneficial such as increasing agricultural productivity, reducing greenhouse gases or similar emissions, or improving lives with better health solutions.

- Phase out your investments in your fossil fuel holdings
- Reduced portfolio exposure to emissions intensive or fossil fuel holdings
- Used emissions data or analysis to inform investment decision making
- Sought climate change integration by companies
- Sought climate supportive policy from governments
- Other, specify
- None of the above

SG 14.3

Indicate which of the following tools the organisation uses to manage climate-related risks and opportunities.

- Scenario analysis
- Disclosures on emissions risks to clients/trustees/management/beneficiaries
- Climate-related targets
- Encouraging internal and/or external portfolio managers to monitor emissions risks
- Emissions-risk monitoring and reporting are formalised into contracts when appointing managers
- Weighted average carbon intensity
- Carbon footprint (scope 1 and 2)
- Portfolio carbon footprint
- Total carbon emissions
- Carbon intensity
- Exposure to carbon-related assets
- Other emissions metrics
- Other, specify
- None of the above

SG 14 CC	Voluntary	Public		General
-----------------	-----------	--------	--	---------

SG 14.6 CC	Provide further details on the key metric(s) used to assess climate-related risks and opportunities.
-------------------	--

Metric Type	Coverage	Purpose	Metric Unit	Metric Methodology
Carbon footprint (scope 1 and 2)	<input type="checkbox"/> All assets <input type="checkbox"/> Majority of assets <input checked="" type="checkbox"/> Minority of assets	inform/monitor investments	tCO2e	ISS ESG Climate Impact Assessment
Portfolio carbon footprint	<input type="checkbox"/> All assets <input checked="" type="checkbox"/> Majority of assets <input type="checkbox"/> Minority of assets	inform/monitor investments	tCO2e	ISS ESG Climate Impact Assessment
Carbon intensity	<input type="checkbox"/> All assets <input type="checkbox"/> Majority of assets <input checked="" type="checkbox"/> Minority of assets	inform/monitor investments	tCO ₂ e/Mio USD Revenue	ISS ESG Climate Impact Assessment

SG 14.8 CC	Indicate whether climate-related risks are integrated into overall risk management and explain the risk management processes used for identifying, assessing and managing climate-related risks.
-------------------	--

- Processes for climate-related risks are integrated into overall risk management

Please describe

Climate-related risk is issuer specific and is considered along with all other issuer risks in both security selection and in sector limits and allocations.

- Processes for climate-related risks are not integrated into overall risk management

**SG 14.9
CC** Indicate whether your organisation, and/or external investment manager or service providers acting on your behalf, undertake active ownership activities to encourage TCFD adoption.

- Yes

Please describe

Through engagement letters, calls, and meetings, we encourage issuers to adopt TCFD.

- No, we do not undertake active ownership activities.
- No, we do not undertake active ownership activities to encourage TCFD adoption.

SG 15	Mandatory to Report Voluntary to Disclose	Public	Descriptive	PRI 1
--------------	--	---------------	--------------------	--------------

SG 15.1 Indicate if your organisation allocates assets to, or manages, funds based on specific environmental and social themed areas.

- Yes
- No
