# RI TRANSPARENCY REPORT

## 2020

Coeli

## About this report

The PRI Reporting Framework is a key step in the journey towards building a common language and industry standard for reporting responsible investment (RI) activities. This RI Transparency Report is one of the key outputs of this Framework. Its primary objective is to enable signatory transparency on RI activities and facilitate dialogue between investors and their clients, beneficiaries and other stakeholders. A copy of this report will be publicly disclosed for all reporting signatories on the [PRI website](#), ensuring accountability of the PRI Initiative and its signatories.

This report is an export of the individual Signatory organisation's response to the PRI during the 2020 reporting cycle. It includes their responses to mandatory indicators, as well as responses to voluntary indicators the signatory has agreed to make public. The information is presented exactly as it was reported. Where an indicator offers a response option that is multiple-choice, all options that were available to the signatory to select are presented in this report. Presenting the information exactly as reported is a result of signatory feedback which suggested the PRI not summarise the information. As a result, the reports can be extensive. However, to help easily locate information, there is a **Principles index** which highlights where the information can be found and summarises the indicators that signatories complete and disclose.

## Understanding the Principles Index

The Principles Index summarises the response status for the individual indicators and modules and shows how these relate to the six [Principles for Responsible Investment](#). It can be used by stakeholders as an 'at-a-glance' summary of reported information and to identify particular themes or areas of interest.

Indicators can refer to one or more Principles. Some indicators are not specific to any Principle. These are highlighted in the 'General' column. When multiple Principles are covered across numerous indicators, in order to avoid repetition, only the main Principle covered is highlighted.

All indicators within a module are presented below. The status of indicators is shown with the following symbols:

Symbol	Status
✓	The signatory has completed all mandatory parts of this indicator
☑	The signatory has completed some parts of this indicator
🔒	This indicator was not relevant for this signatory
-	The signatory did not complete any part of this indicator
⚠	The signatory has flagged this indicator for internal review

Within the table, indicators marked in blue are mandatory to complete. Indicators marked in grey are voluntary to complete.

Coeli Group is an independent Swedish investment management boutique, established in 1994 with its origins in private wealth management. In 2001 Coeli started assets management, focusing primarily on discretionary mandates / fund-of-funds, hedge funds and selected long-only equity strategies. In order to improve the international marketability of existing and new funds, several open-end funds- including a Luxembourg domiciled UCITS SICAV structure - were established in 2013. Coeli also offer several Sweden domiciled closed-end alternative investment funds with real estate and private equity strategies.

OO 10.3 Indicate why you do not cast your votes

- ⦿ Indicate why you do not cast your votes
For Coeli's funds, Coeli does not seek to take on an ownership role because the investments are not of such a size that the funds in the typical case become among the largest shareholders. Coeli has also made the assessment that in most cases it is not justified or possible based on the size of the holdings to participate in nomination committees and board work. Normally, these funds will also not be represented at general meetings.
The background to this position is that it would make effective management of the funds more difficult to actively participate in so-called ownership issues. Given that Coeli's Board of Directors considers that it is in the interests of the unit-holders, the Company may, in exceptional cases, deviate from the said basic principle. When deviations are made, the ownership role shall be exercised exclusively in the common interests of the unit holders. This means that other interests from the Company or related companies when exercising ownership always have to give way to any conflicts of interest.
○ We do not cast our votes but provide substantive research and voting recommendations to our clients.

**SG 01.4**

Describe your organisation's investment principles and overall investment strategy, interpretation of fiduciary (or equivalent) duties, and how they consider ESG factors and real economy impact.

Coeli's investment philosophy is to generate positive return for our customers using a long-term perspective. Our fund managers use a high conviction approach, hence we only invest in what we truly believe in. This way, we aim to exceed market index and create value in our customers' investment portfolios.

Responsible investments play an important role in the investment process and we encourage companies to be a signatory of UN Global Compact and follow OECD's guidelines for multinational companies.

**SG 01.5**

Provide a brief description of the key elements, any variations or exceptions to your investment policy that covers your responsible investment approach. [Optional]

Our ambition is to invest in companies that are proactive in the environmental, social and governance issues. This means that we do not invest in companies that are violating the international norms and where a dialogue has not lead to the desired result. Coeli does under no circumstances invest in companies that are involved in production or sales of illegal weapons, such as cluster munitions and anti-personal mines, or nuclear weapons. We expect that the companies we invest in apply to international norms and conventions. If a company violates these norms and conventions Coeli initiates a dialogue with the concerned company to achieve changes in management and behaviour. If a dialogue does not lead to desired impact Coeli will sell its holding in the company.

SG 03.2	Describe your policy on managing potential conflicts of interest in the investment process.
---------	---

Coeli's management team must work actively to continuously identify, monitor and manage any conflicts of interest that may arise in the business.

Employees shall immediately inform their immediate superior or the Compliance function of situations where any conflicts of interest have been identified or may arise.

Identified existing and potential conflicts of interest should be documented in a special log that is administered by the Compliance function. The documentation must contain information on how the conflict of interest is handled.

In particular, Coeli shall assess the existence of any conflicts of interest associated with the following situations:

- When developing new or substantially changing products and services
- When entering into new contract agreements
- When entering into agreements with new counterparties for portfolio transactions in the funds
- In case of other material changes to the business, such as acquisitions or mergers of companies, recruitment of board members, etc.

The above situations should always be considered in connection with the annual audit of the guidelines.

	All three strategies combined	0
	No incorporation strategies applied	0
	100%	

<b>FI 01.2</b>	Describe your reasons for choosing a particular ESG incorporation strategy and how combinations of strategies are used.
----------------	---

Coeli's investment philosophy is to generate positive return for our customers using a long-term perspective. Our fund managers use a high conviction approach, hence we only invest in what we truly believe in. Responsible investments play an important role in the investment process and it is our belief that ESG-issues are important for the companies long-term success. We also exclude sectors such as oil & gas and weapons sectors/companies etc.

<b>FI 03</b>	<b>Mandatory</b>	<b>Public</b>	<b>Additional Assessed</b>	<b>PRI 1</b>
--------------	------------------	---------------	----------------------------	--------------

<b>FI 03.1</b>	Indicate how you ensure that your ESG research process is robust:
----------------	---

- Comprehensive ESG research is undertaken internally to determine companies' activities; and products and/or services
- Issuers are given the opportunity by you or your research provider to review ESG research on them and correct inaccuracies
- Issuer information and/or ESG ratings are updated regularly to ensure ESG research is accurate
- Internal audits and regular reviews of ESG research are undertaken in a systematic way.
- A materiality/sustainability framework is created and regularly updated that includes all the key ESG risks and opportunities for each sector/country.
- Other, specify
- None of the above

<b>FI 03.2</b>	Describe how your ESG information or analysis is shared among your investment team.
----------------	---

- ESG information is held within a centralised database and is accessible to all investment staff
- ESG information is displayed on front office research platforms
- ESG information is a standard item on all individual issuer summaries, research notes, 'tear sheets', or similar documents
- Investment staff are required to discuss ESG information on issuers as a standard item during investment committee meetings
- Records capture how ESG information and research was incorporated into investment decisions
- Other, specify
- None of the above
