

# CLIMATE TRANSPARENCY REPORT 2020

International Asset Management Limited

# About the Climate-related Disclosure Indicators

Climate has been identified as a top priority for PRI signatories, with over 70% of asset owners reporting this as the most important long-term trend they are acting on.

The FSB Task Force's guidance on climate-related financial disclosure aim to create a single framework for disclosure on assessment and management of climate-related risk. The recommendations, supported by investors representing US\$22 trillion, identify four main disclosures, Governance, Strategy, Risk Management, Metrics and Targets, and include specific guidance for asset owners and managers.

As a result, the PRI introduced climate-related disclosure indicators that can be used to align with the TCFD recommendations in the 2020 PRI Reporting Framework.

## About this report

This report is an export of only the climate-related indicators from the 2020 Reporting Framework response. The full Public Transparency Report is available here (<https://reporting.unpri.org/surveys/PRI-reporting-framework-2020/-FA63918F-35D7-4F7A-B52E-D5932FD5BE39/79894dbc337a40828d895f9402aa63de/html/2/?lang=en&a=1>). It shows the responses to all the completed climate indicators, even those you chose to keep private. It is designed for your internal review or – if you wish - to share with your stakeholders.

The PRI will not publish this report on its website if you have designated your 2020 climate reporting as “private”. Otherwise, you will be able to access the Climate Transparency Report of your organisation and that of other signatories on the [PRI website](#) and on the [Data Portal](#).

To easily locate information, there is a **Recommendation index** which summarises the indicators that signatories complete and disclose. The report presents information exactly as it was reported as per signatory preference. Where an indicator offers a response option that is multiple-choice, all options that were available to the signatory are presented in this report.

# TCFD Recommendations Index

Strategy and Governance - CC			TCFD Recommendation

## Reported Information

### Public version

### Strategy and Governance

## PRI disclaimer

This document presents information reported directly by signatories. This information has not been audited by the PRI Secretariat or any other party acting on their behalf. While this information is believed to be reliable, no representations or warranties are made as to the accuracy of the information presented, and no responsibility or liability can be accepted for any error or omission.

## Investment policy

SG 01	Mandatory	Public	Core Assessed	General
-------	-----------	--------	---------------	---------

**New selection options have been added to this indicator. Please review your prefilled responses carefully.**

**SG 01.1** Indicate if you have an investment policy that covers your responsible investment approach.

SG 01 CC	Mandatory to Report Voluntary to Disclose	Public	Descriptive	General
----------	-------------------------------------------	--------	-------------	---------

**SG 01.6 CC** Indicate whether your organisation has identified transition and physical climate-related risks and opportunities and factored this into the investment strategies and products, within the organisation's investment time horizon.

Yes

Describe the identified transition and physical climate-related risks and opportunities and how they have been factored into the investment strategies/products.

IAM's investment policy incorporates both short-term and long-term views on climate change risks and opportunities.

As the world begins to transition from fossil fuels, we focus on the impact of that change on the investment portfolio.

IAM has updated its investment strategy when allocating the client assets to the external managers of the pooled hedge funds to take into account the short-term impact on oil companies as well as the long-term move into renewables, where such change meets the client risk-return objective.

IAM has recently implemented the screening of the portfolios of the UCITS sub-funds on IAM Investments Alternative ICAV Platform for the exposure to certain industries including Oil and Gas.

No

**SG 01.7 CC** Indicate whether the organisation has assessed the likelihood and impact of these climate risks?

Yes

Describe the associated timescales linked to these risks and opportunities.

As part of its asset allocation policy, IAM continues to identify the external managers of the pooled hedge funds that deploy investment strategies that would allow our clients to benefit from the de-carbonisation trend over medium to long term.

No

**SG 01.8 CC** Indicate whether the organisation publicly supports the TCFD?

Yes

No

**SG 01.9  
CC**

Indicate whether there is an organisation-wide strategy in place to identify and manage material climate-related risks and opportunities.

Yes

Describe

IAM's main focus remains on the opportunities created by the de-carbonisation trend and moving way from carbon fuels. We continue to identify the external managers of teh pooled hedge funds that deploy investment strategies that would allow our clients to benefit from this trend over medium to long term.

No

**SG 1.10  
CC**

Indicate the documents and/or communications the organisation uses to publish TCFD disclosures.

- Public PRI Climate Transparency Report
- Annual financial filings
- Regular client reporting
- Member communications
- Other
- We currently do not publish TCFD disclosures

## Governance and human resources

**SG 07 CC**

**Mandatory to Report Voluntary to Disclose**

**Public**

**Descriptive**

**General**

**SG 07.5  
CC**

Indicate the roles in the organisation that have oversight, accountability and/or management responsibilities for climate-related issues.

Board members or trustees

- Oversight/accountability for climate-related issues
- Assessment and management of climate-related issues
- No responsibility for climate-related issues

Chief Executive Officer (CEO), Chief Investment Officer (CIO), Chief Risk Officer (CRO), Investment Committee

- Oversight/accountability for climate-related issues
- Assessment and management of climate-related issues
- No responsibility for climate-related issues

Other Chief-level staff or heads of departments

- Oversight/accountability for climate-related issues
- Assessment and management of climate-related issues
- No responsibility for climate-related issues

**External managers or service providers**

- Oversight/accountability for climate-related issues
- Assessment and management of climate-related issues
- No responsibility for climate-related issues

**SG 07.6  
CC** For board-level roles that have climate-related issue oversight/accountability or implementation responsibilities, indicate how these responsibilities are executed.

The board of IAM has been involved in the development of the ESG policy which incorporates our response to the climate change. The board has approved the ESG policy prior to it being implemented.

As part of the investment process, the board is involved in the assessment of risk and opportunities involved in the climate change and the continuing de-carbonisation of the world economy.

**SG 07.7  
CC** For management-level roles that assess and manage climate-related issues, provide further information on the structure and processes involved.

The investment analysts identify and evaluate risks and opportunities evolving as a result of the climate change. The Investment Committee regularly discusses the current trends and the outlook, the suggested implementation into the investment strategy is reported to the board of directors on a regular basis.

**SG 07.8  
CC** Indicate how your organisation engages external investment managers and/or service providers on the TCFD recommendations and their implementation.

- Request that external managers and/or service providers incorporate TCFD into mainstream financial filings (annual financial reports, other regulatory reporting or similar)
- Request incorporation of TCFD into regular client reporting
- Request that external managers complete PRI climate indicator reporting
- Request responses to TCFD Fund Manager questions in the PRI Asset Owner Guide
- Other
- We do not engage with external managers and/or service providers on the TCFD recommendations and their implementation

**ESG issues in asset allocation**

<b>SG 13</b>	<b>Mandatory</b>	<b>Public</b>	<b>Descriptive</b>	<b>PRI 1</b>
--------------	------------------	---------------	--------------------	--------------

**SG 13.1** Indicate whether the organisation carries out scenario analysis and/or modelling, and if it does, provide a description of the scenario analysis (by asset class, sector, strategic asset allocation, etc.).

- Yes, in order to assess future ESG factors
- Yes, in order to assess future climate-related risks and opportunities
- No, our organisation does not currently carry out scenario analysis and/or modelling

<b>SG 14</b>	<b>Mandatory to Report Voluntary to Disclose</b>	<b>Public</b>	<b>Additional Assessed</b>	<b>PRI 1</b>
--------------	--------------------------------------------------	---------------	----------------------------	--------------

**SG 14.1**

Some investment risks and opportunities arise as a result of long term trends. Indicate which of the following are considered.

- Changing demographics
- Climate change
- Resource scarcity
- Technological developments
- Other, specify(1)
- Other, specify(2)
- None of the above

**SG 14.2**

Indicate which of the following activities you have undertaken to respond to climate change risk and opportunity

- Established a climate change sensitive or climate change integrated asset allocation strategy
- Targeted low carbon or climate resilient investments
- Phase out your investments in your fossil fuel holdings
- Reduced portfolio exposure to emissions intensive or fossil fuel holdings
- Used emissions data or analysis to inform investment decision making
- Sought climate change integration by companies
- Sought climate supportive policy from governments
- Other, specify
- None of the above

**SG 14.3**

Indicate which of the following tools the organisation uses to manage climate-related risks and opportunities.

- Scenario analysis
- Disclosures on emissions risks to clients/trustees/management/beneficiaries
- Climate-related targets
- Encouraging internal and/or external portfolio managers to monitor emissions risks
- Emissions-risk monitoring and reporting are formalised into contracts when appointing managers
- Weighted average carbon intensity
- Carbon footprint (scope 1 and 2)
- Portfolio carbon footprint
- Total carbon emissions
- Carbon intensity
- Exposure to carbon-related assets
- Other emissions metrics
- Other, specify
- None of the above
