RI TRANSPARENCY REPORT

2020

Beechbrook Capital LLP

About this report

The PRI Reporting Framework is a key step in the journey towards building a common language and industry standard for reporting responsible investment (RI) activities. This RI Transparency Report is one of the key outputs of this Framework. Its primary objective is to enable signatory transparency on RI activities and facilitate dialogue between investors and their clients, beneficiaries and other stakeholders. A copy of this report will be publicly disclosed for all reporting signatories on the [PRI website](#), ensuring accountability of the PRI Initiative and its signatories.

This report is an export of the individual Signatory organisation's response to the PRI during the 2020 reporting cycle. It includes their responses to mandatory indicators, as well as responses to voluntary indicators the signatory has agreed to make public. The information is presented exactly as it was reported. Where an indicator offers a response option that is multiple-choice, all options that were available to the signatory to select are presented in this report. Presenting the information exactly as reported is a result of signatory feedback which suggested the PRI not summarise the information. As a result, the reports can be extensive. However, to help easily locate information, there is a **Principles index** which highlights where the information can be found and summarises the indicators that signatories complete and disclose.

Understanding the Principles Index

The Principles Index summarises the response status for the individual indicators and modules and shows how these relate to the six [Principles for Responsible Investment](#). It can be used by stakeholders as an 'at-a-glance' summary of reported information and to identify particular themes or areas of interest.

Indicators can refer to one or more Principles. Some indicators are not specific to any Principle. These are highlighted in the 'General' column. When multiple Principles are covered across numerous indicators, in order to avoid repetition, only the main Principle covered is highlighted.

All indicators within a module are presented below. The status of indicators is shown with the following symbols:

Symbol	Status
✓	The signatory has completed all mandatory parts of this indicator
☑	The signatory has completed some parts of this indicator
🔒	This indicator was not relevant for this signatory
-	The signatory did not complete any part of this indicator
⚠	The signatory has flagged this indicator for internal review

Within the table, indicators marked in blue are mandatory to complete. Indicators marked in grey are voluntary to complete.

Beechbrook Capital ("Beechbrook") is a specialist provider of either debt, or debt and minority equity capital to northern European businesses in the lower mid-market. The firm provides capital to both private equity backed and sponsorless companies and aims to help companies to grow and increase general employment levels, as well as improve the benefits that the business has on the environment, wider society and governance (its own and of its supply chain where relevant).

When reviewing investments, the investment team assesses ESG-related issues and opportunities at the borrower, industry, fund and Beechbrook-wide levels.

- Borrower: from a credit risk perspective, what are the ESG risk exposures on a company by company level?
- Industry: what are common ESG risks/opportunities prevalent across the borrower's industry and how are participants actively approaching this?
- Fund: assesses the existing and potential ESG risks/opportunities across the wider fund portfolio.
- Across Beechbrook: review of ESG risks/opportunities across all Beechbrook's investment strategies and business activities.

SG 01.5

Provide a brief description of the key elements, any variations or exceptions to your investment policy that covers your responsible investment approach. [Optional]

The investment professionals incorporate the following ESG factors amongst others, where relevant, when analysing an initial investment as well as throughout the monitoring and exit planning of said investment.

- Workplace: to assess risks around equal opportunities, diversity and inclusion, staff retention and development, legacy, welfare and working conditions, health and safety, minimum wage, data breaches, litigation and reputational risks etc.
- To ensure appropriate corporate governance to oversee that stakeholder interests are protected and ethical business decisions are conducted.
- To ensure relevant committees are developed to warrant independence and promote effective internal control systems.
- To ensure there is appropriate board/senior level responsibility and accountability.
- Environmental factors: to assess risks around global warming, hazardous materials, pollution and land/sea contamination, waste management / recycling, energy usage (water, emissions), biodiversity and natural resources.
- Market environment: fair and responsible marketing of products and services, supply chain factors etc.
- Social factors: including human rights, labour standards, gender issues and local community relationships etc.
- General business ethics and conduct: to ensure ethical business practices taking into account all stakeholders, strict restriction around anti-bribery and corruption financing.

It is worth noting that expectations of the effectiveness of such ESG-related actions should be made in recognition that as a mainly debt provider, Beechbrook's funds are not owners of businesses and thus our influence on decision makers / management can be limited. We continue to develop the ESG investment policy as we learn from experience and best practice.

SG 03.1	Indicate if your organisation has a policy on managing potential conflicts of interest in the investment process.
---------	---

Yes

SG 03.2	Describe your policy on managing potential conflicts of interest in the investment process.
---------	---

Beechbrook has three fund strategies: Private Debt; UK SME Credit; and Ireland SME. Beechbrook has appropriate measures to identify potential or actual conflicts of interest. Relevant remedies are actioned if/when appropriate:

- conflicts relating to or between the firm, employees and representatives or any person directly or indirectly linked to them by control, and a fund or its underlying investors
- conflicts between different funds managed by Beechbrook
- conflicts between the investors of funds managed by Beechbrook

The UK SME Funds focus on the UK and solely on non-PE backed businesses. The Private Debt Funds only invest in sponsor-backed transactions. The Ireland SME Fund focuses solely on the Republic of Ireland. The funds have non-conflicting investment strategies. The investment teams for the funds are separate, although there is some shared junior, originations and administration resource.

Each team is incentivised on the performance of its fund, with appropriate incentives to pass referrals to each other to maximise origination capacity. Each of the funds have investor-populated Advisory Committees and all potential conflicts of interest are referred to these committees for advice. Beechbrook has also appointed a senior Advisory Board to advise the manager, inter alia, on potential conflicts of interest that may arise.

ESG incorporation in actively managed fixed income

Implementation processes

FI 01	Mandatory	Public	Gateway	PRI 1
-------	-----------	--------	---------	-------

FI 01.1	Indicate (1) Which ESG incorporation strategy and/or combination of strategies you apply to your actively managed fixed income investments; and (2) The proportion (+/- 5%) of your total actively managed fixed income investments each strategy applies to.
----------------	---

Corporate (non-financial)	Screening alone	0
	Thematic alone	0
	Integration alone	0
	Screening + integration strategies	100
	Thematic + integration strategies	0
	Screening + thematic strategies	0
	All three strategies combined	0
	No incorporation strategies applied	0
	100%	

FI 01.2	Describe your reasons for choosing a particular ESG incorporation strategy and how combinations of strategies are used.
----------------	---

We focus our ESG approach towards a Screening & Integration strategy. As outlined in our ESG Policy, we have a stringent screening process for any new investment opportunity. In addition to early on excluding / best in class screening, we have integrated a stringent bottom-up and top-down credit analysis for every opportunity.

ESG is a key metric in each analysis and risks and opportunity will be assessed in parallel with conventional credit considerations.

The scale of the screening and integration differs from opportunity to opportunity and will be tailored to each unique case. For further information, please refer to our ESG policy:

FI 03	Mandatory	Public	Additional Assessed	PRI 1
--------------	------------------	---------------	----------------------------	--------------

FI 03.1	Indicate how you ensure that your ESG research process is robust:
----------------	---

- Comprehensive ESG research is undertaken internally to determine companies' activities; and products and/or services
- Issuers are given the opportunity by you or your research provider to review ESG research on them and correct inaccuracies
- Issuer information and/or ESG ratings are updated regularly to ensure ESG research is accurate
- Internal audits and regular reviews of ESG research are undertaken in a systematic way.
- A materiality/sustainability framework is created and regularly updated that includes all the key ESG risks and opportunities for each sector/country.
- Other, specify
- None of the above

FI 03.2	Describe how your ESG information or analysis is shared among your investment team.
----------------	---

- ESG information is held within a centralised database and is accessible to all investment staff
- ESG information is displayed on front office research platforms
- ESG information is a standard item on all individual issuer summaries, research notes, 'tear sheets', or similar documents
- Investment staff are required to discuss ESG information on issuers as a standard item during investment committee meetings
- Records capture how ESG information and research was incorporated into investment decisions
- Other, specify
- None of the above

FI 04.2 Describe your approach to screening for internally managed active fixed income

We exclude companies from our considerations based on sector, products or services or certain behaviour that we and our investors deem undesirable for moral reasons. This includes e.g. arms manufacturing, illegal economic activity, gambling, etc.

In addition, we encourage transactions that score well on ESG metrics with the objective of generating positive financial, environmental or social outcomes.

(C) Implementation: Integration

FI 10	Mandatory	Public	Descriptive	PRI 1
-------	-----------	--------	-------------	-------

FI 10.1	Describe your approach to integrating ESG into traditional financial analysis.
---------	--

We believe ESG factors are a crucial consideration in investment analysis. In addition, recent academic research suggests that ESG focused investments tend to outperform the overall market.

We perform thorough analysis throughout the investment process. As such, ESG factors are fully integrated into the decision making. Each potential transaction will be assessed based on fundamental bottom-up analysis. This analysis includes qualitative and quantitative analysis on a macro as well as micro economic level.

The investment professionals assess ESG-related issues and opportunities at the borrower, industry, fund and Beechbrook-wide levels.

1. Borrower: from a credit risk perspective, what are the ESG risk/opportunity exposures on a company by company level?
2. Industry: what are common ESG risks/opportunities prevalent across the borrower's industry and how are participants actively approaching this?
3. Fund: assess the existing and potential ESG risks/opportunities across the wider fund portfolio.
4. Across Beechbrook: review of ESG risks across all Beechbrook's investment strategies and business activities.
