# RI TRANSPARENCY REPORT

## 2020

Atomico (UK) Partners LLP

## About this report

The PRI Reporting Framework is a key step in the journey towards building a common language and industry standard for reporting responsible investment (RI) activities. This RI Transparency Report is one of the key outputs of this Framework. Its primary objective is to enable signatory transparency on RI activities and facilitate dialogue between investors and their clients, beneficiaries and other stakeholders. A copy of this report will be publicly disclosed for all reporting signatories on the [PRI website](#), ensuring accountability of the PRI Initiative and its signatories.

This report is an export of the individual Signatory organisation's response to the PRI during the 2020 reporting cycle. It includes their responses to mandatory indicators, as well as responses to voluntary indicators the signatory has agreed to make public. The information is presented exactly as it was reported. Where an indicator offers a response option that is multiple-choice, all options that were available to the signatory to select are presented in this report. Presenting the information exactly as reported is a result of signatory feedback which suggested the PRI not summarise the information. As a result, the reports can be extensive. However, to help easily locate information, there is a **Principles index** which highlights where the information can be found and summarises the indicators that signatories complete and disclose.

## Understanding the Principles Index

The Principles Index summarises the response status for the individual indicators and modules and shows how these relate to the six [Principles for Responsible Investment](#). It can be used by stakeholders as an 'at-a-glance' summary of reported information and to identify particular themes or areas of interest.

Indicators can refer to one or more Principles. Some indicators are not specific to any Principle. These are highlighted in the 'General' column. When multiple Principles are covered across numerous indicators, in order to avoid repetition, only the main Principle covered is highlighted.

All indicators within a module are presented below. The status of indicators is shown with the following symbols:

Symbol	Status
✓	The signatory has completed all mandatory parts of this indicator
☑	The signatory has completed some parts of this indicator
🔒	This indicator was not relevant for this signatory
-	The signatory did not complete any part of this indicator
Ⓜ	The signatory has flagged this indicator for internal review

Within the table, indicators marked in blue are mandatory to complete. Indicators marked in grey are voluntary to complete.

Atomico invests in companies based on the following criteria:

1. Geography: Developed markets of Europe, and opportunistically in North America.
2. Stage: The core focus of investments is Series A and Series B. In addition, Atomico will seek to make later stage venture (Series C+) opportunities where Atomico can utilise our proprietary access and insights, and where there is still significant upside potential.
3. Sector: We invest across the technology industry.
4. Strong Founders with a Clear Mission
5. Potential Category Leaders: Atomico will seek to invest in companies with sustainable business models, long term vision, and the potential to become leaders in a category with defensible competitive advantages.
6. Companies with Responsible Principles: Atomico seeks to make investments in companies that have a neutral or positive impact on the environment, society and planet. Atomico also seeks to back founders and companies that embody ethical principles, sustainable and responsible growth, and that embrace diversity.

Atomico has also established a "Values Scorecard" that is integrated into the investment review process as part of our due diligence process. The Values scorecard seeks to review and analyse ESG-related factors for prospective investments.

We are involved in Level20, an organisation seeking to increase female representation in the alternatives industry. Atomico is a sponsor of Level20, with members of the team participating as both mentors and mentees to help promote diversity within the VC asset class. We also have senior team members who are members of Leadership Committees at Level20.

We have also partnered with SEO Alternative Investments to establish an internship-program focused on minority students for the Summer of 2019 and will repeat the program in 2020. We have also made it a requirement for investments that we lead to have a diversity policy in place, and have also established a number of internal initiatives to increase diversity within Atomico.

We have also launched a conscious scaling initiative to support our portfolio companies to consider the potential impact of their businesses on the environment and society as they scale. The initiative is described here: <https://www.atomico.com/introducing-conscious-scaling/>, with the framework provided here: <https://www.atomico.com/wp-content/uploads/2020/01/Conscious-Scaling-Template.pdf>

**PE 03.3** Describe how your organisation refers to responsible investment in fund placement documents (PPMs or similar). [Optional]

We refer to responsible investment in our investment strategy, where one of the key levers is to invest in Companies with Responsible Principles. Today, the most ambitious entrepreneurs are seeking to utilise technology to solve some of the biggest global challenges. One of the key challenges facing companies is accessing and retaining top talent and attracting customers. As people prioritise socially responsible and environmentally sustainable businesses, we believe that companies who emphasise the importance of these factors will have a competitive advantage. Atomico seeks to make investments in companies that have a neutral or positive impact on the environment, society and planet. Atomico also seeks to back founders and companies that embody ethical principles, sustainable and responsible growth, and that embrace diversity.

We also include an overview of our review into ESG-related factors:

Environmental, Ethical, Social and Governance: Atomico reviews potential investment opportunities in relation to environmental, ethical, social and governance factors. Atomico seeks to back founders and companies that embody ethical principles, sustainable and responsible growth, and that embrace diversity. Atomico analyses the potential impact of a company on these areas. Atomico also instigates ongoing monitoring and reporting to investors on these factors.

Atomico integrates ESG factors into its deal documentation and post-investment action plan. We require companies where we lead financing rounds to include a clause in their term sheet that they will have a diversity policy in place within 6-months of our investment. We also actively work with our companies post investment to support the implementation of best practices across Diversity and ESG-initiatives. We have developed a Diversity & Inclusion toolkit to support companies to integrate best practices on diversity.
