RI TRANSPARENCY REPORT

2020

Poste Vita S.p.A.

About this report

The PRI Reporting Framework is a key step in the journey towards building a common language and industry standard for reporting responsible investment (RI) activities. This RI Transparency Report is one of the key outputs of this Framework. Its primary objective is to enable signatory transparency on RI activities and facilitate dialogue between investors and their clients, beneficiaries and other stakeholders. A copy of this report will be publicly disclosed for all reporting signatories on the [PRI website](#), ensuring accountability of the PRI Initiative and its signatories.

This report is an export of the individual Signatory organisation's response to the PRI during the 2020 reporting cycle. It includes their responses to mandatory indicators, as well as responses to voluntary indicators the signatory has agreed to make public. The information is presented exactly as it was reported. Where an indicator offers a response option that is multiple-choice, all options that were available to the signatory to select are presented in this report. Presenting the information exactly as reported is a result of signatory feedback which suggested the PRI not summarise the information. As a result, the reports can be extensive. However, to help easily locate information, there is a **Principles index** which highlights where the information can be found and summarises the indicators that signatories complete and disclose.

Understanding the Principles Index

The Principles Index summarises the response status for the individual indicators and modules and shows how these relate to the six [Principles for Responsible Investment](#). It can be used by stakeholders as an 'at-a-glance' summary of reported information and to identify particular themes or areas of interest.

Indicators can refer to one or more Principles. Some indicators are not specific to any Principle. These are highlighted in the 'General' column. When multiple Principles are covered across numerous indicators, in order to avoid repetition, only the main Principle covered is highlighted.

All indicators within a module are presented below. The status of indicators is shown with the following symbols:

Symbol	Status
✓	The signatory has completed all mandatory parts of this indicator
☑	The signatory has completed some parts of this indicator
🔒	This indicator was not relevant for this signatory
-	The signatory did not complete any part of this indicator
⚠	The signatory has flagged this indicator for internal review

Within the table, indicators marked in blue are mandatory to complete. Indicators marked in grey are voluntary to complete.

OO 11.3b | If your organisation does not integrate ESG factors into investment decisions on your externally managed assets, explain why not.

For cash and money market instruments management - that is delegated to external managers - ESG incorporation is not strictly required as each of these asset classes accounts for less than 1% of Poste Vita's total AUM.

OO 11.4 | Provide a brief description of how your organisation includes responsible investment considerations in your investment manager selection, appointment and monitoring processes.

Poste Vita's ESG approach for external managers relies on the scrutiny of their own approach. Poste Vita's RI policy is conveyed to external managers who can adopt it or inspire their own from it. Relating to engagement and voting policy, Poste Vita allows external managers to follow their guidelines only after examining them. ESG are considered throughout the whole process, from the external managers' selection to the monitoring: during the holding period, Poste Vita requires external managers to incorporate ESG in their investment management.

SG 01.4

Describe your organisation's investment principles and overall investment strategy, interpretation of fiduciary (or equivalent) duties, and how they consider ESG factors and real economy impact.

Poste Vita's Responsible Investment (RI) policy reflects Gruppo Poste Italiane's Sustainability Plan by incorporating ESG considerations in the scope of insurance and financial activities. The RI policy aims to deliver positive economic, environmental and social impacts, to establish a sound communication with the Company's stakeholders and to adhere to international principles and guidelines. Poste Vita's RI policy is conveyed to external managers who are required to observe at least the main guidelines. Poste Vita's incorporation of ESG starts with the ESG assessment of issuers both governmental and corporate in the Company's portfolio, which is built by reflecting also an exclusion criteria. The Investment Committee is responsible for ESG assessments, which pair internal analysis with externally provided information. The process continues with regular monitoring of the issuer's ESG profile. The Company's RI policy provides also with guidelines for engagement and proxy voting and guidelines for specific sensitive sectors.

SG 01.5

Provide a brief description of the key elements, any variations or exceptions to your investment policy that covers your responsible investment approach. [Optional]

Poste Vita's investment policy has adjusted in accordance with the introduction of RI objectives and strives to carry out the investment activities and to pursue the traditional financial objectives incorporating ESG. On the one hand, this overarching goal is witnessed by one remarkable achievement that Poste Vita obtained for the reporting year: it was awarded by Capital Finance International as "Best Pension Fund Governance" for combining ESG principles with the performance required by investors. On the other, Poste Vita is committed to enhance the RI approach in managing its portfolio: this goal reflects on an investment strategy that aims to improve the ESG profile of the portfolio, considering the ESG score of all the included assets. At the end of this reporting year, Poste Vita managed to strengthen the ESG score of its portfolio: the weighted average score of the portfolios assessed was 51/100 in relation to the assets managed by the Poste Vita for corporate issuers and 75/100 in relation to governmental issuers. This result was higher than the ESG score of a benchmark of Ishares MSCI World ETF that was 39/100 at the same date.
