RI TRANSPARENCY REPORT

2018

Polaris Capital Group Co., Ltd.

About this report

The PRI Reporting Framework is a key step in the journey towards building a common language and industry standard for reporting responsible investment (RI) activities. This RI Transparency Report is one of the key outputs of this Framework. Its primary objective is to enable signatory transparency on RI activities and facilitate dialogue between investors and their clients, beneficiaries and other stakeholders. A copy of this report will be publicly disclosed for all reporting signatories on the [PRI website](#), ensuring accountability of the PRI Initiative and its signatories.

This report is an export of the individual Signatory organisation's response to the PRI during the 2018 reporting cycle. It includes their responses to mandatory indicators, as well as responses to voluntary indicators the signatory has agreed to make public. The information is presented exactly as it was reported. Where an indicator offers a response option that is multiple-choice, all options that were available to the signatory to select are presented in this report. Presenting the information exactly as reported is a result of signatory feedback which suggested the PRI not summarise the information. As a result, the reports can be extensive. However, to help easily locate information, there is a **Principles index** which highlights where the information can be found and summarises the indicators that signatories complete and disclose.

Understanding the Principles Index

The Principles Index summarises the response status for the individual indicators and modules and shows how these relate to the six [Principles for Responsible Investment](#). It can be used by stakeholders as an 'at-a-glance' summary of reported information and to identify particular themes or areas of interest.

Indicators can refer to one or more Principles. Some indicators are not specific to any Principle. These are highlighted in the 'General' column. When multiple Principles are covered across numerous indicators, in order to avoid repetition, only the main Principle covered is highlighted.

All indicators within a module are presented below. The status of indicators is shown with the following symbols:

Symbol	Status
✓	The signatory has completed all mandatory parts of this indicator
☑	The signatory has completed some parts of this indicator
🔒	This indicator was not relevant for this signatory
-	The signatory did not complete any part of this indicator
Ⓜ	The signatory has flagged this indicator for internal review

Within the table, indicators marked in blue are mandatory to complete. Indicators marked in grey are voluntary to complete.

Polaris Capital Group Co., Ltd. ("Polaris"), is a leading Japanese buyout firm focused on investments in Japanese mid-cap companies. Our typically approach is to take controlling positions which reduce risks and allows further value creation. Enterprise value of investments is typically in the range of USD100m to USD500m.

Investment targets are corporate carve-outs from large-cap companies and companies considering private equity investments in their succession strategy. This approach allows Polaris to work towards its mission of contributing to Japanese society through assisting Japanese companies to advance into the global market with their unique technologies and brands.

Polaris believes that companies with high environmental, social and governance standards ("ESG") are typically better run, have fewer business risks and ultimately deliver better value. We adopt an integrated approach to ESG, customised for each investment with the objective of mitigating risk and enhancing exit premiums.

Polaris is committed to managing its investments to achieve the best financial return for its investors whilst taking into consideration environmental, social and governance (ESG) issues. We take an integrated approach to incorporating ESG considerations into our investment decisions with the goals of mitigating risk and enhancing exit premiums. Polaris recognizes that the nature and scope of applicable ESG issues varies between investments which are reflected in our investment approach.

Polaris mission is to contribute to Japanese society through assisting Japanese companies to advance into the global market with their unique technologies and brands. Our investment strategy is focused on companies in the manufacturing / medical related and consumer sectors whose leading technology and brand recognition will support their growth, thereby contributing to growth in the real economy.

An ESG policy and procedures have been developed which outline our approach to integration of ESG issues in our investment activities. The policy is applicable to all of our investments.

Under Polaris ESG policy and procedures, ESG considerations are integrated into each phase of the investment cycle, including during due diligence, investment decision making / investment agreements, post-investment monitoring and exits.

PE 05.2

Describe your organisation's approach to incorporating ESG issues in private equity investment selection.

ESG issues are incorporated into the due diligence stage of investment selection following a standard process as defined in our ESG policy and procedures. Polaris has developed an ESG checklist which is used to identify potential risk and opportunities for investments being considered with third party specialists used, as appropriate, provide specialist advice. Information is collected through various methods including accessing public information and data provided by investment targets.

PE 06.2

Describe how this information is reported to, considered and documented by the Investment Committee or similar.

Under Polaris ESG policy and procedures, the Investment Committee is required to consider ESG issues relevant to an investment and implement the relevant actions e.g. risk mitigation measures to be included as part of documented action plans. The findings of the ESG assessment, as contained in the ESG Checklist, are included in the documentation submitted to the Investment Committee.

ESG issues considered by the Investment Committee follow those established in our ESG policy and procedures. These include environmental issues (e.g. air and water pollution, waste management etc.), social issues (e.g. avoidance of human rights abuses, prevention of labour discrimination etc.) and governance (e.g. anti-bribery and corruption, anti-competitive practices etc.)
