

# CLIMATE TRANSPARENCY REPORT 2020

Aktia Bank p.l.c.

# About the Climate-related Disclosure Indicators

Climate has been identified as a top priority for PRI signatories, with over 70% of asset owners reporting this as the most important long-term trend they are acting on.

The FSB Task Force's guidance on climate-related financial disclosure aim to create a single framework for disclosure on assessment and management of climate-related risk. The recommendations, supported by investors representing US\$22 trillion, identify four main disclosures, Governance, Strategy, Risk Management, Metrics and Targets, and include specific guidance for asset owners and managers.

As a result, the PRI introduced climate-related disclosure indicators that can be used to align with the TCFD recommendations in the 2020 PRI Reporting Framework.

## About this report

This report is an export of only the climate-related indicators from the 2020 Reporting Framework response. The full Public Transparency Report is available here (<https://reporting.unpri.org/surveys/PRI-reporting-framework-2020/-A639F1B8-2831-4BEA-83A0-140C356E8D0E/79894dbc337a40828d895f9402aa63de/html/2/?lang=en&a=1>). It shows the responses to all the completed climate indicators, even those you chose to keep private. It is designed for your internal review or – if you wish - to share with your stakeholders.

The PRI will not publish this report on its website if you have designated your 2020 climate reporting as “private”. Otherwise, you will be able to access the Climate Transparency Report of your organisation and that of other signatories on the [PRI website](#) and on the [Data Portal](#).

To easily locate information, there is a **Recommendation index** which summarises the indicators that signatories complete and disclose. The report presents information exactly as it was reported as per signatory preference. Where an indicator offers a response option that is multiple-choice, all options that were available to the signatory are presented in this report.

# TCFD Recommendations Index

Strategy and Governance - CC			TCFD Recommendation

## PRI disclaimer

This document presents information reported directly by signatories. This information has not been audited by the PRI Secretariat or any other party acting on their behalf. While this information is believed to be reliable, no representations or warranties are made as to the accuracy of the information presented, and no responsibility or liability can be accepted for any error or omission.

## Investment policy

SG 01

Mandatory

Public

Core Assessed

General

**New selection options have been added to this indicator. Please review your prefilled responses carefully.**

SG 01.1

Indicate if you have an investment policy that covers your responsible investment approach.

SG 01 CC

Mandatory to Report Voluntary to Disclose

Public

Descriptive

General

SG 01.6  
CC

Indicate whether your organisation has identified transition and physical climate-related risks and opportunities and factored this into the investment strategies and products, within the organisation's investment time horizon.

Yes

Describe the identified transition and physical climate-related risks and opportunities and how they have been factored into the investment strategies/products.

We perform climate change scenario analysis for our equity and corporate bond funds. We have e.g. identified higher transition risk for the oil service sector and held a strategic underweight for a longer time already. We also identify e.g. the reinsurance sector as more prone to climate change related physical risks. On a group level Aktia has performed 2019 a climate risk analysis of our operations.

No

SG 01.7  
CC

Indicate whether the organisation has assessed the likelihood and impact of these climate risks?

Yes

Describe the associated timescales linked to these risks and opportunities.

The positive opportunities that leading companies can benefit from are partly dependent on regulation that enforces stricter requirements for climate emissions related business activities. This is already happening in some sectors and can strengthen in the near term. Technologies that can benefit in the near term do already exist and can already be improved and developed further by companies.

The risks to high emissions companies relating to rising costs for carbon emissions are likewise dependent on the timing of regulation, costs are already becoming more meaningful, and things may change in this field in a matter of the next few years.

The risks relating to physical effects will rise over time, in our view the majority of companies may still not be materially affected by physical risks during the next 5 years.

No

SG 01.8  
CC

Indicate whether the organisation publicly supports the TCFD?

Yes

No

**SG 01.9  
CC**

Indicate whether there is an organisation-wide strategy in place to identify and manage material climate-related risks and opportunities.

Yes

Describe

On a group level Aktia has performed 2019 a climate risk analysis of our operations. We also put in place in 2019 a group wide climate policy as part of the sustainability program of Aktia.

No

**SG 1.10  
CC**

Indicate the documents and/or communications the organisation uses to publish TCFD disclosures.

- Public PRI Climate Transparency Report
- Annual financial filings
- Regular client reporting
- Member communications
- Other

specify

Carbon footprints and carbon intensity are disclosed in our monthly fund reports and our biannual Responsible Investments review.

- We currently do not publish TCFD disclosures

## Governance and human resources

**SG 07 CC**

**Mandatory to Report Voluntary to Disclose**

**Public**

**Descriptive**

**General**

**SG 07.5  
CC**

Indicate the roles in the organisation that have oversight, accountability and/or management responsibilities for climate-related issues.

Board members or trustees

- Oversight/accountability for climate-related issues
- Assessment and management of climate-related issues
- No responsibility for climate-related issues

Chief Executive Officer (CEO), Chief Investment Officer (CIO), Chief Risk Officer (CRO), Investment Committee

- Oversight/accountability for climate-related issues
- Assessment and management of climate-related issues
- No responsibility for climate-related issues

**Portfolio managers**

- Oversight/accountability for climate-related issues
- Assessment and management of climate-related issues
- No responsibility for climate-related issues

**Investment analysts**

- Oversight/accountability for climate-related issues
- Assessment and management of climate-related issues
- No responsibility for climate-related issues

**Dedicated responsible investment staff**

- Oversight/accountability for climate-related issues
- Assessment and management of climate-related issues
- No responsibility for climate-related issues

**External managers or service providers**

- Oversight/accountability for climate-related issues
- Assessment and management of climate-related issues
- No responsibility for climate-related issues

**SG 07.6 CC** For board-level roles that have climate-related issue oversight/accountability or implementation responsibilities, indicate how these responsibilities are executed.

The group board has approved the group wide climate policy, climate risk assesment and sustainability program.

**SG 07.8 CC** Indicate how your organisation engages external investment managers and/or service providers on the TCFD recommendations and their implementation.

- Request that external managers and/or service providers incorporate TCFD into mainstream financial filings (annual financial reports, other regulatory reporting or similar)
- Request incorporation of TCFD into regular client reporting
- Request that external managers complete PRI climate indicator reporting
- Request responses to TCFD Fund Manager questions in the PRI Asset Owner Guide
- Other
- We do not engage with external managers and/or service providers on the TCFD recommendations and their implementation

**ESG issues in asset allocation**

<b>SG 13</b>	<b>Mandatory</b>	<b>Public</b>	<b>Descriptive</b>	<b>PRI 1</b>
--------------	------------------	---------------	--------------------	--------------

<b>SG 13.1</b>	Indicate whether the organisation carries out scenario analysis and/or modelling, and if it does, provide a description of the scenario analysis (by asset class, sector, strategic asset allocation, etc.).
----------------	--

- Yes, in order to assess future ESG factors
- Yes, in order to assess future climate-related risks and opportunities

Describe
----------

We perform climate scenario analysis of our direct equity and corporate bond portfolios using the PACTA tool.

- No, our organisation does not currently carry out scenario analysis and/or modelling

<b>SG 13.2</b>	Indicate if your organisation considers ESG issues in strategic asset allocation and/or allocation of assets between sectors or geographic markets.
----------------	---

We do the following
---------------------

- Allocation between asset classes
- Determining fixed income duration
- Allocation of assets between geographic markets
- Sector weightings
- Other, specify
- We do not consider ESG issues in strategic asset allocation

<b>SG 13 CC</b>	<b>Mandatory to Report Voluntary to Disclose</b>	<b>Public</b>	<b>Descriptive</b>	<b>General</b>
-----------------	--	---------------	--------------------	----------------

<b>SG 13.4 CC</b>	Describe how your organisation is using scenario analysis to manage climate-related risks and opportunities, including how the analysis has been interpreted, its results, and any future plans.
-------------------	--

- Initial assessment
- Incorporation into investment analysis

Describe
----------

We have conducted scenario analysis with the Pacta tool, in order to assess portfolio exposures to economic activities affected by the transition to a low carbon economy, and to inform our view on expected changes to alignment with the transition for portfolio companies.

- Inform active ownership
- Other

**SG 13.5**  
**CC**

Indicate who uses this analysis.

- Board members, trustees, C-level roles, Investment Committee
- Portfolio managers
- Dedicated responsible investment staff
- External managers
- Investment consultants/actuaries
- Other

**SG 13.6**  
**CC**

Indicate whether your organisation has evaluated the potential impact of climate-related risks, beyond the investment time horizon, on its investment strategy.

- Yes

Describe

We are long term investors and the holding period for a large part of the unit-holders (share holders) in our funds is very long, tens of years. The long term approach reached beyond the typical holding period of any single investment in the portfolio. Therefore it is natural for us to aim to understand the long term trends affecting the strategies we manage. Some climate-related impacts on a portfolio has already started to materialize while others will be seen in practice within 5, 10 or 15 years time. We need to understand them now in order to make the best possible decisions today.

- No

**SG 13.7**  
**CC**

Indicate whether a range of climate scenarios is used.

- Analysis based on a 2°C or lower scenario
- Analysis based on an abrupt transition, consistent with the Inevitable Policy Response
- Analysis based on a 4°C or higher scenario
- No, a range is not used

**SG 13.8**  
**CC**

Indicate the climate scenarios your organisation uses.

Provider	Scenario used
IEA	<input checked="" type="checkbox"/> Beyond 2 Degrees Scenario (B2DS)
IEA	<input type="checkbox"/> Energy Technology Perspectives (ETP) 2 Degrees scenario
IEA	<input checked="" type="checkbox"/> Sustainable Development Scenario (SDS)
IEA	<input checked="" type="checkbox"/> New Policy Scenario (NPS)
IEA	<input checked="" type="checkbox"/> Current Policy Scenario (CPS)
IRENA	<input type="checkbox"/> RE Map
Greenpeace	<input type="checkbox"/> Advanced Energy [R]evolution
Institute for Sustainable Development	<input type="checkbox"/> Deep Decarbonisation Pathway Project (DDPP)
Bloomberg	<input type="checkbox"/> BNEF reference scenario
IPCC	<input type="checkbox"/> Representative Concentration Pathway (RCP) 8.5
IPCC	<input type="checkbox"/> RPC 6
IPCC	<input type="checkbox"/> RPC 4.5
IPCC	<input type="checkbox"/> RPC 2.6
Other	<input type="checkbox"/> Other (1)
Other	<input type="checkbox"/> Other (2)
Other	<input type="checkbox"/> Other (3)

SG 14	Mandatory to Report Voluntary to Disclose	Public	Additional Assessed	PRI 1
-------	---	--------	---------------------	-------

**SG 14.1**

Some investment risks and opportunities arise as a result of long term trends. Indicate which of the following are considered.

- Changing demographics
- Climate change
- Resource scarcity
- Technological developments
- Other, specify(1)
- Other, specify(2)
- None of the above

**SG 14.2**

Indicate which of the following activities you have undertaken to respond to climate change risk and opportunity

- Established a climate change sensitive or climate change integrated asset allocation strategy
- Targeted low carbon or climate resilient investments
- Phase out your investments in your fossil fuel holdings
- Reduced portfolio exposure to emissions intensive or fossil fuel holdings
- Used emissions data or analysis to inform investment decision making
- Sought climate change integration by companies
- Sought climate supportive policy from governments
- Other, specify

other description

We calculate and report carbon footprint and carbon intensity for our Equity portfolios and our Corporate Bond mutual fund through top down analysis.

- None of the above

**SG 14.3**

Indicate which of the following tools the organisation uses to manage climate-related risks and opportunities.

- Scenario analysis
- Disclosures on emissions risks to clients/trustees/management/beneficiaries
- Climate-related targets
- Encouraging internal and/or external portfolio managers to monitor emissions risks
- Emissions-risk monitoring and reporting are formalised into contracts when appointing managers
- Weighted average carbon intensity
- Carbon footprint (scope 1 and 2)
- Portfolio carbon footprint
- Total carbon emissions
- Carbon intensity
- Exposure to carbon-related assets
- Other emissions metrics
- Other, specify
- None of the above

**SG 14 CC**

Voluntary

Public

General

**SG 14.6  
CC**

Provide further details on the key metric(s) used to assess climate-related risks and opportunities.

Metric Type	Coverage	Purpose	Metric Unit	Metric Methodology
<b>Climate-related targets</b>	<input type="checkbox"/> All assets <input type="checkbox"/> Majority of assets <input checked="" type="checkbox"/> Minority of assets	Lower CO2 footprint than the comparable market on average over the longer term.	Ton co2 per meur invested	Scope 1 and 2 GHG emissions are allocated based on Equity + Total Debt
<b>Weighted average carbon intensity</b>	<input type="checkbox"/> All assets <input type="checkbox"/> Majority of assets <input checked="" type="checkbox"/> Minority of assets	The purpose is to assess the carbon intensity.	Ton co2 per meur revenue	Methodology in line with TCFD recommendation
<b>Carbon footprint (scope 1 and 2)</b>	<input type="checkbox"/> All assets <input type="checkbox"/> Majority of assets <input checked="" type="checkbox"/> Minority of assets	The purpose is to assess the carbon footprint.	Ton co2 per meur invested	Scope 1 and 2 GHG emissions are allocated based on Equity + Total Debt

**SG 14.7  
CC**

Describe in further detail the key targets.

Target type	Baseline year	Target year	Description	Attachments
<input type="checkbox"/> Absolute target <input type="checkbox"/> Intensity target				
<input type="checkbox"/> Absolute target <input type="checkbox"/> Intensity target				
<input type="checkbox"/> Absolute target <input type="checkbox"/> Intensity target				
<input type="checkbox"/> Absolute target <input type="checkbox"/> Intensity target				
<input type="checkbox"/> Absolute target <input type="checkbox"/> Intensity target				

**SG 14.8  
CC**

Indicate whether climate-related risks are integrated into overall risk management and explain the risk management processes used for identifying, assessing and managing climate-related risks.

- Ⓞ Processes for climate-related risks are integrated into overall risk management

Please describe

From an overall risk management point of view, we have assessed portfolio exposures to companies affected by the transition to a low carbon economy through scenario analysis for our equity portfolios. We also calculate and report carbon footprints and carbon intensities for our equity and corporate bond mutual funds.

Processes for climate-related risks are not integrated into overall risk management

**SG 14.9  
CC** Indicate whether your organisation, and/or external investment manager or service providers acting on your behalf, undertake active ownership activities to encourage TCFD adoption.

Yes

Please describe

We encourage TCFD adoption in companies through the Climate Action 100+ initiative and in line with our active ownership policy.

No, we do not undertake active ownership activities.

No, we do not undertake active ownership activities to encourage TCFD adoption.

<b>SG 15</b>	<b>Mandatory to Report Voluntary to Disclose</b>	<b>Public</b>	<b>Descriptive</b>	<b>PRI 1</b>
--------------	--	---------------	--------------------	--------------

**SG 15.1** Indicate if your organisation allocates assets to, or manages, funds based on specific environmental and social themed areas.

Yes

No
