RI TRANSPARENCY REPORT

2020

Cape Ann Asset Management Limited

About this report

The PRI Reporting Framework is a key step in the journey towards building a common language and industry standard for reporting responsible investment (RI) activities. This RI Transparency Report is one of the key outputs of this Framework. Its primary objective is to enable signatory transparency on RI activities and facilitate dialogue between investors and their clients, beneficiaries and other stakeholders. A copy of this report will be publicly disclosed for all reporting signatories on the [PRI website](#), ensuring accountability of the PRI Initiative and its signatories.

This report is an export of the individual Signatory organisation's response to the PRI during the 2020 reporting cycle. It includes their responses to mandatory indicators, as well as responses to voluntary indicators the signatory has agreed to make public. The information is presented exactly as it was reported. Where an indicator offers a response option that is multiple-choice, all options that were available to the signatory to select are presented in this report. Presenting the information exactly as reported is a result of signatory feedback which suggested the PRI not summarise the information. As a result, the reports can be extensive. However, to help easily locate information, there is a **Principles index** which highlights where the information can be found and summarises the indicators that signatories complete and disclose.

Understanding the Principles Index

The Principles Index summarises the response status for the individual indicators and modules and shows how these relate to the six [Principles for Responsible Investment](#). It can be used by stakeholders as an 'at-a-glance' summary of reported information and to identify particular themes or areas of interest.

Indicators can refer to one or more Principles. Some indicators are not specific to any Principle. These are highlighted in the 'General' column. When multiple Principles are covered across numerous indicators, in order to avoid repetition, only the main Principle covered is highlighted.

All indicators within a module are presented below. The status of indicators is shown with the following symbols:

Symbol	Status
✓	The signatory has completed all mandatory parts of this indicator
☑	The signatory has completed some parts of this indicator
🔒	This indicator was not relevant for this signatory
-	The signatory did not complete any part of this indicator
Ⓜ	The signatory has flagged this indicator for internal review

Within the table, indicators marked in blue are mandatory to complete. Indicators marked in grey are voluntary to complete.

SG 01.4

Describe your organisation's investment principles and overall investment strategy, interpretation of fiduciary (or equivalent) duties, and how they consider ESG factors and real economy impact.

Cape Ann is a long only, value investor in developing market equities. Cape Ann's investment team employs a bottom-up fundamental approach to stock picking using an assessment of intrinsic value. Cape Ann defines value as the discount of a security price to the underlying economic value of the business. The objective is to maximise the intrinsic value of the portfolio over time through a disciplined investment process. Investment managers identify inexpensive stocks through the screening process and then conduct fundamental research to assess the quality of the underlying company. The investment team generally seeks to avoid companies with danger of severe capital loss due to excessive leverage or poor corporate governance.

SG 01.5

Provide a brief description of the key elements, any variations or exceptions to your investment policy that covers your responsible investment approach. [Optional]

Cape Ann considers responsible investment and environmental, social and governance ("ESG") related issues to be an integral part of its broader qualitative research process and its investment team has developed an ESG Policy to outline its approach. Cape Ann also has a Proxy Voting Policy in place.

LEI 01.2

Describe your organisation's approach to ESG incorporation and the reasons for choosing the particular strategy/strategies.

Cape Ann considers responsible investment and environmental, social and governance ("ESG") related issues to be an integral part of its broader qualitative research process and its investment team has developed an ESG Policy to outline its approach which is available on the firm's website. Cape Ann's investment process consists of a four stage iterative approach. The first two stages comprise the research process including idea generation through value screens and fundamental analysis. The last two stages encompass portfolio implementation and monitoring. The incorporation of ESG issues into the wider investment process typically takes place at the Quality Assessment stage and then subsequent engagement with portfolio companies, including proxy voting, forms part of Monitoring.

LEI 09.5

Describe how ESG information is held and used by your portfolio managers.

- ESG information is held within centralised databases or tools, and it is accessible by all relevant staff
- ESG information or analysis is a standard section or aspect of all company research notes or industry/sector analysis generated by investment staff
- Systematic records are kept that capture how ESG information and research were incorporated into investment decisions
- Other; specify
- None of the above

Cape Ann uses multiple sources for its ESG data, including MSCI carbon emissions metrics, ESG ratings and five factor screening tools. The data from these various platforms is made available to all investment managers conducting research via an internal database onto which all stock specific data points are held. This information can be recalled at any time during the initial research phase, implementation or monitoring (if the security is selected for the portfolio).

LEA 12	Mandatory	Public	Descriptive	PRI 2
--------	-----------	--------	-------------	-------

LEA 12.1 Indicate how you typically make your (proxy) voting decisions.

Approach

- We use our own research or voting team and make voting decisions without the use of service providers.
- We hire service providers who make voting recommendations and/or provide research that we use to guide our voting decisions.

Based on

- The service-provider voting policy we sign off on
- Our own voting policy
- Our clients` requests or policies
- Other (explain)
- We hire service providers who make voting decisions on our behalf, except in some pre-defined scenarios where we review and make voting decisions.
- We hire service providers who make voting decisions on our behalf.

LEA 12.2 Provide an overview of how you ensure that your agreed-upon voting policy is adhered to, giving details of your approach when exceptions to the policy are made.

Cape Ann's custodian holds all securities for the benefit of the Unitholders in Cape Ann's various commingled funds. Cape Ann has directed Northern Trust to outsource certain of its proxy processing responsibilities to ISS, a leading provider of proxy voting. ISS provides Cape Ann with meeting notification and ballot delivery services, agenda summaries, detailed agenda content including original source documents, translation services, recordkeeping and custom reports and vote instruction processing services. Meeting notifications are provided according to an agreement in place between the Cape Ann and ISS. **Cape Ann does not outsource any part of its proxy voting decision making process to ISS or Northern Trust.** Separate arrangements may be in place for the custodians appointed by any permanent separately managed account relationships.

Following receipt of proxy voting materials from ISS, Cape Ann's administration group prepares a "Proxy Voting Summary Form". The form includes the details of the number of shares held by a Client and a deadline for the response. If only standard issues are included on the proxy, one authorised person will decide on how to vote the proxy and sign the proxy voting summary form. If material issues are included, enhanced procedures apply. The issue will be discussed with two or more authorised personnel and they will assess the potential impact that the issues may have on the portfolio company, and decide on how to vote the proxy in question. The proxy voting summary form will then be approved and the proxy vote processed.

Cape Ann's proxy voting process is also subject to periodic internal risk monitoring review conducted by the compliance.
