# RI TRANSPARENCY REPORT

## 2019

MBO Partenaires

## About this report

The PRI Reporting Framework is a key step in the journey towards building a common language and industry standard for reporting responsible investment (RI) activities. This RI Transparency Report is one of the key outputs of this Framework. Its primary objective is to enable signatory transparency on RI activities and facilitate dialogue between investors and their clients, beneficiaries and other stakeholders. A copy of this report will be publicly disclosed for all reporting signatories on the [PRI website](#), ensuring accountability of the PRI Initiative and its signatories.

This report is an export of the individual Signatory organisation's response to the PRI during the 2019 reporting cycle. It includes their responses to mandatory indicators, as well as responses to voluntary indicators the signatory has agreed to make public. The information is presented exactly as it was reported. Where an indicator offers a response option that is multiple-choice, all options that were available to the signatory to select are presented in this report. Presenting the information exactly as reported is a result of signatory feedback which suggested the PRI not summarise the information. As a result, the reports can be extensive. However, to help easily locate information, there is a **Principles index** which highlights where the information can be found and summarises the indicators that signatories complete and disclose.

## Understanding the Principles Index

The Principles Index summarises the response status for the individual indicators and modules and shows how these relate to the six [Principles for Responsible Investment](#). It can be used by stakeholders as an 'at-a-glance' summary of reported information and to identify particular themes or areas of interest.

Indicators can refer to one or more Principles. Some indicators are not specific to any Principle. These are highlighted in the 'General' column. When multiple Principles are covered across numerous indicators, in order to avoid repetition, only the main Principle covered is highlighted.

All indicators within a module are presented below. The status of indicators is shown with the following symbols:

Symbol	Status
✓	The signatory has completed all mandatory parts of this indicator
☑	The signatory has completed some parts of this indicator
🔒	This indicator was not relevant for this signatory
-	The signatory did not complete any part of this indicator
Ⓜ	The signatory has flagged this indicator for internal review

Within the table, indicators marked in blue are mandatory to complete. Indicators marked in grey are voluntary to complete.

The ESG team is composed of three members (1 partner, 1 investment director and 1 associate), appointed within the investment team. Its role is to sensitize the entire workforce to the ESG issues and to deliver in-house training throughout the investment process:

- Before investment: the ESG team suggests several issues to consider, related to the target's characteristics, which are classified in a document accessible to the whole team. The risks and opportunities are subsequently addressed within the investment committee report ;
- During the investment: By generating debate on ESG issues during Supervisory Board meetings: the investment team can measure the progress made by the companies and work on possible action plans thanks to an annual ESG reporting completed by each company of our portfolio;
- By supporting or taking part in joint initiatives with them.

Moreover, the ESG team asks, each year, the portfolio companies to fulfil the ESG report which is a set of ESG KPIs. Through this data collection, the ESG and deals team can measure progresses that have been made by portfolio companies.

The ESG team organize also one to two internal training sessions per year. These sessions are focused on MBO Partenaires' objectives in term of ESG (good practices...). Moreover, ESG specific issues (and way to solve them) can be discussed during internal committee, every two weeks.

In 2018, PwC (external service providers) managed a training session for the whole team and assists the ESG team in 2019 in the compliance of its ESG policy and the creation of a roadmap for the next years.

**PE 02.1** Indicate whether your organisation's investment activities are guided by a responsible investment policy / follow responsible investment guidelines.

- Our investment activities are guided by a responsible investment policy

**PE 02.2** Describe how your organisation outlines expectations on staff and portfolio companies' approach towards ESG issues in investment activities.

In 2013, MBO Partenaires signed the UNPRI and the AFIC charter.

Each year, we follow up several ESG criteria for each portfolio company of MBO Capital 2, 3 & 4. Conclusions are written in an ESG annual report which is sent to investors. Moreover, we include an ESG part in MBO Capital 4 quarterly reports.

Since January 2017, in order to anticipate the identification of ESG factors from the precommittee stage, the ESG team suggests several issues to consider, related to the target's characteristics.

Questions are listed inside a single file, accessible to the whole team.

In 2018, in the dynamic of a continuous progress and in a context of regular legal changes, the ESG team has called upon PwC to assist it in the compliance of its ESG policy and the creation of a roadmap for the next years.

Moreover, we are testing on one of our MBO Capital 4 portfolio companies a dedicated post-deal ESG review led by an external third party (diagnosis and action plan with the Management team and MBO Partenaires).

- Our investment activities are not guided by a responsible investment policy
- We do not have a responsible investment policy
