# RI TRANSPARENCY REPORT

## 2020

Munro Partners

## About this report

The PRI Reporting Framework is a key step in the journey towards building a common language and industry standard for reporting responsible investment (RI) activities. This RI Transparency Report is one of the key outputs of this Framework. Its primary objective is to enable signatory transparency on RI activities and facilitate dialogue between investors and their clients, beneficiaries and other stakeholders. A copy of this report will be publicly disclosed for all reporting signatories on the [PRI website](#), ensuring accountability of the PRI Initiative and its signatories.

This report is an export of the individual Signatory organisation's response to the PRI during the 2020 reporting cycle. It includes their responses to mandatory indicators, as well as responses to voluntary indicators the signatory has agreed to make public. The information is presented exactly as it was reported. Where an indicator offers a response option that is multiple-choice, all options that were available to the signatory to select are presented in this report. Presenting the information exactly as reported is a result of signatory feedback which suggested the PRI not summarise the information. As a result, the reports can be extensive. However, to help easily locate information, there is a **Principles index** which highlights where the information can be found and summarises the indicators that signatories complete and disclose.

## Understanding the Principles Index

The Principles Index summarises the response status for the individual indicators and modules and shows how these relate to the six [Principles for Responsible Investment](#). It can be used by stakeholders as an 'at-a-glance' summary of reported information and to identify particular themes or areas of interest.

Indicators can refer to one or more Principles. Some indicators are not specific to any Principle. These are highlighted in the 'General' column. When multiple Principles are covered across numerous indicators, in order to avoid repetition, only the main Principle covered is highlighted.

All indicators within a module are presented below. The status of indicators is shown with the following symbols:

Symbol	Status
✓	The signatory has completed all mandatory parts of this indicator
☑	The signatory has completed some parts of this indicator
🔒	This indicator was not relevant for this signatory
-	The signatory did not complete any part of this indicator
Ⓜ	The signatory has flagged this indicator for internal review

Within the table, indicators marked in blue are mandatory to complete. Indicators marked in grey are voluntary to complete.

Research process is identifies thematic views (Areas of Interest) which are categories where we identify structural growth. Individual companies are assessed and included / excluded from the investment universe based on five qualitative criteria (includes ESG considerations). Companies that pass these tests to be included in the universe are then required to be assessed on our quantitaive measures, where we look for earnings upside/downside, price multiple upside / downside and catalysts in order to be included in the portfolio.

**ESG - Investment Approach: -**

- Munro's Investment Approach considers environmental, social and governance issues as part of its due diligence in its portfolio of equity investments.
- Munro's proprietary investment process includes qualitative factor assessments encompassing sustainability and customer perception as two key parts of its five company characteristics.
- Companies that are focused on short term financial goals at the expense of long term sustainability and customer perception are excluded from our investment universe of stocks of interest.
- Environmental, social or governance issues that are contradictory to best practice will inevitably lead to lower financial performance, reduced earnings sustainability and lower customer perception levels

**SG 01.5**

Provide a brief description of the key elements, any variations or exceptions to your investment policy that covers your responsible investment approach. [Optional]

The Trading Policy and Procedures (the "Policy") covers trading activities conducted by Munro. In particular, the Policy addresses procedures for trade order entry, allocations among Investment Products, other trading related issues, and the reporting and settlement process.

In order that portfolio management personnel satisfy the expectations of their clients and the fiduciary duties imposed upon them by securities legislation, portfolio management personnel are expected to:

- Deal fairly, honestly and in good faith with the Investment Products and, at all times, place the interests of the investors and clients of Munro and its subsidiaries and affiliates above personal interests;
- Ensure fairness in the allocation of investment opportunities among Investment Products;
- Comply with all laws and regulation applicable to the management of the Investment Products' portfolios. Each portfolio management employee has a duty to know, understand and comply with such laws and regulation;
- Practice and encourage others to practice in a professional and ethical manner that will reflect the high standard of care and integrity outlined in Munro's Personal Trading Policy.
- Strive to maintain and improve their competence; and
- Use reasonable care and exercise independent professional judgment where appropriate.

Munro became a signatory to UNPRI in January 2020.

In 2019 we requested access to the UNPRI reporting tool and completed a trial report. We have met up with UNPRI's relationship manager (Sheela Veerappan) and had an opportunity to discuss and gain better understanding on the submitted questionnaire. We did this to gain a good understanding of the process, where we needed to make improvements and how we compared to similar sized organisations.

**LEI 01.2**

Describe your organisation's approach to ESG incorporation and the reasons for choosing the particular strategy/strategies.

Munro Partners' Responsible Investment approach, in order of importance, is to:

1. Assess and integrate ESG risks into our investment process;
2. Observe negative screening advice from firms where we provide investment management services; and
3. Where material ESG risks are identified, to act responsibly through direct engagement, proxy voting and/or divesting in such companies.

We have chosen the approach and our order of priority for the following reasons:

- Our investment process is a fundamental, bottom up process, stock selection is based on key qualitative and quantitative measures (explained in detail below).
- Munro's portfolios are concentrated portfolios (max 60 stock portfolios).

- Munro is index and sector unaware, unlike passive managers / index managers our flexible mandates mean we do not have to hold positions simply because they are in an index or because we have to hold a certain portfolio weight across sectors.
- We observe exclusions (negative screens) provided by clients, which ensures that they have delegated their choice of approach; and
- While we recognise the importance of engagement as a stakeholder, we understand that our ability to directly influence behaviour is proportionate to our size and the portion of each companies' equity that we hold. We do hundreds of meetings annually with companies and use these as an opportunity to express any issues or concerns on ESG issues. We view our decision to buy or sell a company as the most effective signal to the market and management.

## (A) Implementation: Screening

Munro is an active manager; however we are not activists. We use divestment as the primary course of action when engagements are unsuccessful.

Our investment process is focused on management alignment and control. As such, if a company forms part of our investment portfolio we have taken a positive view on management, their capability and alignment. In this context our general approach to Proxy Voting is to vote in accordance with management recommendations.

**Approach**

- We use our own research or voting team and make voting decisions without the use of service providers.

**Based on**

- Our own voting policy
- Our clients` requests or policies
- Other (explain)
- We hire service providers who make voting recommendations and/or provide research that we use to guide our voting decisions.
- We hire service providers who make voting decisions on our behalf, except in some pre-defined scenarios where we review and make voting decisions.
- We hire service providers who make voting decisions on our behalf.

**LEA 12.2** Provide an overview of how you ensure that your agreed-upon voting policy is adhered to, giving details of your approach when exceptions to the policy are made.

Voting Policy is published on our compliance and risk system and is available to all staff. Policy is reviewed at least annually to ensure that it is up to date.
