

# CLIMATE TRANSPARENCY REPORT 2020

SBI Funds Management Private Limited

# About the Climate-related Disclosure Indicators

Climate has been identified as a top priority for PRI signatories, with over 70% of asset owners reporting this as the most important long-term trend they are acting on.

The FSB Task Force's guidance on climate-related financial disclosure aim to create a single framework for disclosure on assessment and management of climate-related risk. The recommendations, supported by investors representing US\$22 trillion, identify four main disclosures, Governance, Strategy, Risk Management, Metrics and Targets, and include specific guidance for asset owners and managers.

As a result, the PRI introduced climate-related disclosure indicators that can be used to align with the TCFD recommendations in the 2020 PRI Reporting Framework.

## About this report

This report is an export of only the climate-related indicators from the 2020 Reporting Framework response. The full Public Transparency Report is available here (<https://reporting.unpri.org/surveys/PRI-reporting-framework-2020/-4FF8C8A8-D8A7-418A-9A62-5CBB561B5B8F/79894dbc337a40828d895f9402aa63de/html/2/?lang=en&a=1>). It shows the responses to all the completed climate indicators, even those you chose to keep private. It is designed for your internal review or – if you wish - to share with your stakeholders.

The PRI will not publish this report on its website if you have designated your 2020 climate reporting as “private”. Otherwise, you will be able to access the Climate Transparency Report of your organisation and that of other signatories on the [PRI website](#) and on the [Data Portal](#).

To easily locate information, there is a **Recommendation index** which summarises the indicators that signatories complete and disclose. The report presents information exactly as it was reported as per signatory preference. Where an indicator offers a response option that is multiple-choice, all options that were available to the signatory are presented in this report.

## Investment policy

SG 01	Mandatory	Public	Core Assessed	General
-------	-----------	--------	---------------	---------

**New selection options have been added to this indicator. Please review your prefilled responses carefully.**

**SG 01.1** Indicate if you have an investment policy that covers your responsible investment approach.

**SG 01.6** Additional information [Optional].

At SBIFMPL, we do not have a separate screenings/exclusion policy, however, our Responsible Investment policy mentions that we use exclusions of sectors for our thematic ESG based Fund.

## Governance and human resources

SG 07 CC	Mandatory to Report Voluntary to Disclose	Public	Descriptive	General
----------	---	--------	-------------	---------

**SG 07.5 CC** Indicate the roles in the organisation that have oversight, accountability and/or management responsibilities for climate-related issues.

**SG 07.7 CC** For management-level roles that assess and manage climate-related issues, provide further information on the structure and processes involved.

This year, we are in the process of integrating TCFD based factors into our strategy and reporting. For climate-related issues, the Chief Investment Officer will have the oversight over TCFD based reporting, carbon emission-based analyses of our ESG Fund, Climate Risk analyses of the fund house and internalization of climate change factors in our ESG based assessments. The structure of these studies is still evolving and will be communicated in the next report.
