

CLIMATE TRANSPARENCY REPORT 2020

Alder Capital Investment Management

About the Climate-related Disclosure Indicators

Climate has been identified as a top priority for PRI signatories, with over 70% of asset owners reporting this as the most important long-term trend they are acting on.

The FSB Task Force's guidance on climate-related financial disclosure aim to create a single framework for disclosure on assessment and management of climate-related risk. The recommendations, supported by investors representing US\$22 trillion, identify four main disclosures, Governance, Strategy, Risk Management, Metrics and Targets, and include specific guidance for asset owners and managers.

As a result, the PRI introduced climate-related disclosure indicators that can be used to align with the TCFD recommendations in the 2020 PRI Reporting Framework.

About this report

This report is an export of only the climate-related indicators from the 2020 Reporting Framework response. The full Public Transparency Report is available here (<https://reporting.unpri.org/surveys/PRI-reporting-framework-2020/-A9809A46-4EC2-4D07-A5B2-6C55A9474061/79894dbc337a40828d895f9402aa63de/html/2/?lang=en&a=1>). It shows the responses to all the completed climate indicators, even those you chose to keep private. It is designed for your internal review or – if you wish - to share with your stakeholders.

The PRI will not publish this report on its website if you have designated your 2020 climate reporting as “private”. Otherwise, you will be able to access the Climate Transparency Report of your organisation and that of other signatories on the [PRI website](#) and on the [Data Portal](#).

To easily locate information, there is a **Recommendation index** which summarises the indicators that signatories complete and disclose. The report presents information exactly as it was reported as per signatory preference. Where an indicator offers a response option that is multiple-choice, all options that were available to the signatory are presented in this report.

Investment policy

SG 01	Mandatory	Public	Core Assessed	General
-------	-----------	--------	---------------	---------

New selection options have been added to this indicator. Please review your prefilled responses carefully.

SG 01.1 Indicate if you have an investment policy that covers your responsible investment approach.

SG 01 CC	Mandatory to Report Voluntary to Disclose	Public	Descriptive	General
----------	---	--------	-------------	---------

SG 01.6 CC Indicate whether your organisation has identified transition and physical climate-related risks and opportunities and factored this into the investment strategies and products, within the organisation's investment time horizon.

- Yes
 No

Describe why your organisation has not yet gone through a process to identify transition and physical climate-related risks and opportunities.

We have reviewed the range of climate related ESG products that are available and spoken to the ICE Exchange in London to see if there is a liquid futures contract that we can trade. Currently the market is not there but we watch for ESG futures contracts that have enough liquidity for our programs.

SG 01.8 CC Indicate whether the organisation publicly supports the TCFD?

- Yes
 No

Explain the rationale

It is something we do support but have yet to implemented this as a policy. We welcome the ideas behind TCFD and intend publically supporting.

SG 01.9 CC Indicate whether there is an organisation-wide strategy in place to identify and manage material climate-related risks and opportunities.

- Yes
 No

Describe how and over what time frame the organisation will implement an organisation-wide strategy that manages climate-related risks and opportunities.

Following on from last year's submission to UNPRI, Alder Capital engaged on a Cloud Migration project to reduce our energy consumption and decided to minimise the reliance on our inhouse servers to be able to work more efficiently in a cloud based environment. This has resulted in less energy consumption and more efficient ways of working.

However, due to the nature of Alder Capital's business being primarily a Currency Manager, we have no

way of implementing climate-related risk and opportunities directly that affect our investment strategies. We continue to engage on our office energy savings policies, promote recycling and actively discourage wastage in our day to day work. We have looked at potentially trading in indices where climate related indices feature, however this a new market and not something we can do something with at the moment.

SG 1.10 CC Indicate the documents and/or communications the organisation uses to publish TCFD disclosures.

- Public PRI Climate Transparency Report
- Annual financial filings
- Regular client reporting
- Member communications
- Other
- We currently do not publish TCFD disclosures

Governance and human resources

SG 07 CC	Mandatory to Report Voluntary to Disclose	Public	Descriptive	General
-----------------	--	---------------	--------------------	----------------

SG 07.5 CC Indicate the roles in the organisation that have oversight, accountability and/or management responsibilities for climate-related issues.

Board members or trustees

- Oversight/accountability for climate-related issues
- Assessment and management of climate-related issues
- No responsibility for climate-related issues

Investor relations

- Oversight/accountability for climate-related issues
- Assessment and management of climate-related issues
- No responsibility for climate-related issues

SG 07.6 CC For board-level roles that have climate-related issue oversight/accountability or implementation responsibilities, indicate how these responsibilities are executed.

Climate related issues are not easily adapted due to the nature of our business, however we are aware of this and have included it on our agenda. By lowering our energy consumption as a company we believe we have reduced our carbon footprint.

ESG issues in asset allocation

SG 13	Mandatory	Public	Descriptive	PRI 1
--------------	------------------	---------------	--------------------	--------------

SG 13.1

Indicate whether the organisation carries out scenario analysis and/or modelling, and if it does, provide a description of the scenario analysis (by asset class, sector, strategic asset allocation, etc.).

- Yes, in order to assess future ESG factors
- Yes, in order to assess future climate-related risks and opportunities
- No, our organisation does not currently carry out scenario analysis and/or modelling

SG 13.3

Additional information. [OPTIONAL]

This is currently not a consideration, however this survey has prompted it to be included on the agenda of the investment committee meetings where deemed necessary.

SG 14

Mandatory to Report Voluntary to Disclose

Public

Additional Assessed

PRI 1

SG 14.1

Some investment risks and opportunities arise as a result of long term trends. Indicate which of the following are considered.

- Changing demographics
- Climate change
- Resource scarcity
- Technological developments
- Other, specify(1)

other description (1)

Resource scarcity and climate change have an impact of commodities and the commodity currencies that we trade.

- Other, specify(2)
- None of the above

SG 14.2

Indicate which of the following activities you have undertaken to respond to climate change risk and opportunity

- Established a climate change sensitive or climate change integrated asset allocation strategy
- Targeted low carbon or climate resilient investments
- Phase out your investments in your fossil fuel holdings
- Reduced portfolio exposure to emissions intensive or fossil fuel holdings
- Used emissions data or analysis to inform investment decision making
- Sought climate change integration by companies
- Sought climate supportive policy from governments
- Other, specify

other description

Monitoring movements in the commodity market and the impact this has on the commodity currencies like AUD ,CAD and Swedish Kroner

- None of the above

SG 14.3

Indicate which of the following tools the organisation uses to manage climate-related risks and opportunities.

- Scenario analysis
- Disclosures on emissions risks to clients/trustees/management/beneficiaries
- Climate-related targets
- Encouraging internal and/or external portfolio managers to monitor emissions risks
- Emissions-risk monitoring and reporting are formalised into contracts when appointing managers
- Weighted average carbon intensity
- Carbon footprint (scope 1 and 2)
- Portfolio carbon footprint
- Total carbon emissions
- Carbon intensity
- Exposure to carbon-related assets
- Other emissions metrics
- Other, specify
- None of the above

Please explain why not

We are not active in markets where we can apply these measures.

SG 14.5

Additional information [Optional]

Our Currency Program is (and has been) uncorrelated to equities for the last 19 +years. Long term downward trends in equities have historically resulted in strong returns for our Currency Program. Our Program can help reduce risk in a portfolio and improve returns. So we consider climate-related trends and the impact on market risk . As yet we have not built a model for measuring climate related risks specifically.

SG 14 CC

Voluntary

Public

General

SG 14.8 CC

Indicate whether climate-related risks are integrated into overall risk management and explain the risk management processes used for identifying, assessing and managing climate-related risks.

- Processes for climate-related risks are integrated into overall risk management
- Processes for climate-related risks are not integrated into overall risk management

Please describe

Alder Capital currently have not intergrated climate related risks into the overall risk management of our Programs.

**SG 14.9
CC**

Indicate whether your organisation, and/or external investment manager or service providers acting on your behalf, undertake active ownership activities to encourage TCFD adoption.

- Yes
- No, we do not undertake active ownership activities.
- No, we do not undertake active ownership activities to encourage TCFD adoption.

SG 15

Mandatory to Report Voluntary to Disclose

Public

Descriptive

PRI 1

SG 15.1

Indicate if your organisation allocates assets to, or manages, funds based on specific environmental and social themed areas.

- Yes
- No
