RI TRANSPARENCY REPORT

2019

Dansk Vaekstkapital II

About this report

The PRI Reporting Framework is a key step in the journey towards building a common language and industry standard for reporting responsible investment (RI) activities. This RI Transparency Report is one of the key outputs of this Framework. Its primary objective is to enable signatory transparency on RI activities and facilitate dialogue between investors and their clients, beneficiaries and other stakeholders. A copy of this report will be publicly disclosed for all reporting signatories on the [PRI website](#), ensuring accountability of the PRI Initiative and its signatories.

This report is an export of the individual Signatory organisation's response to the PRI during the 2019 reporting cycle. It includes their responses to mandatory indicators, as well as responses to voluntary indicators the signatory has agreed to make public. The information is presented exactly as it was reported. Where an indicator offers a response option that is multiple-choice, all options that were available to the signatory to select are presented in this report. Presenting the information exactly as reported is a result of signatory feedback which suggested the PRI not summarise the information. As a result, the reports can be extensive. However, to help easily locate information, there is a **Principles index** which highlights where the information can be found and summarises the indicators that signatories complete and disclose.

Understanding the Principles Index

The Principles Index summarises the response status for the individual indicators and modules and shows how these relate to the six [Principles for Responsible Investment](#). It can be used by stakeholders as an 'at-a-glance' summary of reported information and to identify particular themes or areas of interest.

Indicators can refer to one or more Principles. Some indicators are not specific to any Principle. These are highlighted in the 'General' column. When multiple Principles are covered across numerous indicators, in order to avoid repetition, only the main Principle covered is highlighted.

All indicators within a module are presented below. The status of indicators is shown with the following symbols:

Symbol	Status
✓	The signatory has completed all mandatory parts of this indicator
☑	The signatory has completed some parts of this indicator
🔒	This indicator was not relevant for this signatory
-	The signatory did not complete any part of this indicator
⚠	The signatory has flagged this indicator for internal review

Within the table, indicators marked in blue are mandatory to complete. Indicators marked in grey are voluntary to complete.

SG 01.4

Describe your organisation's investment principles and overall investment strategy, interpretation of fiduciary (or equivalent) duties, and how they consider ESG factors and real economy impact.

Our legal foundation stipulates that ethical and environmental aspects must be considered when making our investment decisions. Our investment policies and strategies reflect this. As a part of our due diligence processes, we strive to identify possible ESG-issues and we instruct potential investee funds to give us their own account of their ESG profile both in regard to the negative impact as well as positive impact.

SG 01.5

Provide a brief description of the key elements, any variations or exceptions to your investment policy that covers your responsible investment approach. [Optional]

Our approach to ESG is based on internationally agreed principles for sustainable development, primarily UN Global Compact.

As a responsible investor, our approach to ESG-factors is focused on dialogue, information, and cooperation. We include ESG-questions in our due diligence and we require, that the funds we co-finance commit to handling ESG-issues based on UN principles. Even for well-prepared companies things can go wrong. If a negative impact-issue occur, we go into constructive dialogue with the fund and the company, to stop and avoid further negative impact.

At Dansk Vaekstkapital II we want to create growth and returns in an ethically and socially responsible manner. Therefore, we include environmental, social and governance considerations in our decision-making and in our daily procedures. We require the funds we invest in act responsibly - and ask them to commit themselves contractually to this - and we follow a number of established principles for responsible investment ourselves. Our point of reference for the responsible investment policy is the Principles for Responsible Investments (PRI) and the principles outlined in the UN Global Compact initiative. Furthermore, we follow the codes and guidelines established by the European Private Equity and Venture Capital Association (EVCA).
