

CLIMATE TRANSPARENCY REPORT 2020

Montana Capital Partners AG

About the Climate-related Disclosure Indicators

Climate has been identified as a top priority for PRI signatories, with over 70% of asset owners reporting this as the most important long-term trend they are acting on.

The FSB Task Force's guidance on climate-related financial disclosure aim to create a single framework for disclosure on assessment and management of climate-related risk. The recommendations, supported by investors representing US\$22 trillion, identify four main disclosures, Governance, Strategy, Risk Management, Metrics and Targets, and include specific guidance for asset owners and managers.

As a result, the PRI introduced climate-related disclosure indicators that can be used to align with the TCFD recommendations in the 2020 PRI Reporting Framework.

About this report

This report is an export of only the climate-related indicators from the 2020 Reporting Framework response. The full Public Transparency Report is available here (<https://reporting.unpri.org/surveys/PRI-reporting-framework-2020/-DDCD19F6-FEEA-405B-84FA-D8053319F155/79894dbc337a40828d895f9402aa63de/html/2/?lang=en&a=1>). It shows the responses to all the completed climate indicators, even those you chose to keep private. It is designed for your internal review or – if you wish - to share with your stakeholders.

The PRI will not publish this report on its website if you have designated your 2020 climate reporting as “private”. Otherwise, you will be able to access the Climate Transparency Report of your organisation and that of other signatories on the [PRI website](#) and on the [Data Portal](#).

To easily locate information, there is a **Recommendation index** which summarises the indicators that signatories complete and disclose. The report presents information exactly as it was reported as per signatory preference. Where an indicator offers a response option that is multiple-choice, all options that were available to the signatory are presented in this report.

Investment policy

SG 01	Mandatory	Public	Core Assessed	General
-------	-----------	--------	---------------	---------

New selection options have been added to this indicator. Please review your prefilled responses carefully.

SG 01.1 Indicate if you have an investment policy that covers your responsible investment approach.

SG 01 CC	Mandatory to Report Voluntary to Disclose	Public	Descriptive	General
----------	---	--------	-------------	---------

SG 01.6 CC Indicate whether your organisation has identified transition and physical climate-related risks and opportunities and factored this into the investment strategies and products, within the organisation's investment time horizon.

Yes

Describe the identified transition and physical climate-related risks and opportunities and how they have been factored into the investment strategies/products.

mcp has very diversified holdings across hundreds of portfolio companies. In order to analyse and monitor ESG and specifically climate related risks, a proprietary sector level screening tool is used as the first step to identify opportunities and risks. Portfolio companies in industries identified as high risk, or very high risk, for greenhouse gas intensity are subject to further analysis in the due diligence phase and the monitoring processes.

mcp has exposures to portfolio companies operating in sectors such as energy/utilities, materials, manufacturing, transportation/infrastructure, and agriculture. These sectors often present risks and unique opportunities based on regulatory and market scenarios.

Additionally, physical climate-related risks are present in mcp's holdings, especially in the sectors of above that are capital intensive as well as in insurance, real estate, and travel/leisure.

No

SG 01.7 CC Indicate whether the organisation has assessed the likelihood and impact of these climate risks?

Yes

Describe the associated timescales linked to these risks and opportunities.

mcp's average holding period over all programs has been less than traditional private equity investments due to higher early liquidity of more mature investments.

Holding periods for transactions however varies and is estimated on a transaction by transaction basis.

No

**SG 01.8
CC**

Indicate whether the organisation publicly supports the TCFD?

- Yes
- No

**SG 01.9
CC**

Indicate whether there is an organisation-wide strategy in place to identify and manage material climate-related risks and opportunities.

- Yes

Describe

Climate related risk and opportunities are first screened at the initial investment due diligence stage. This is aided by a proprietary system, which flags ESG high risk industries/activities as well as ESG opportunities for deeper analysis. Opportunities covered by the exclusion policy are eliminated early. More elusive risks, or harder to detect company specific climate-related risks, are screened for during the deep due diligence phase.

The portfolio monitoring process includes a biannual review of ESG risks, including climate-related risks, based on our internal ESG KPIs. Monitoring includes the tracking and analysis of historically known risks, as well as review of new information and investments to identify potential new risks. We categorically track greenhouse gas risks within the portfolio based on portfolio company activities and known company specific risks that are potentially emissions intensive.

- No

**SG 1.10
CC**

Indicate the documents and/or communications the organisation uses to publish TCFD disclosures.

- Public PRI Climate Transparency Report
- Annual financial filings
- Regular client reporting
- Member communications
- Other
- We currently do not publish TCFD disclosures

Governance and human resources

SG 07 CC

Mandatory to Report Voluntary to Disclose

Public

Descriptive

General

**SG 07.5
CC**

Indicate the roles in the organisation that have oversight, accountability and/or management responsibilities for climate-related issues.

Board members or trustees

- Oversight/accountability for climate-related issues
- Assessment and management of climate-related issues
- No responsibility for climate-related issues

Chief Executive Officer (CEO), Chief Investment Officer (CIO), Chief Risk Officer (CRO), Investment Committee

- Oversight/accountability for climate-related issues
- Assessment and management of climate-related issues
- No responsibility for climate-related issues

Other Chief-level staff or heads of departments

- Oversight/accountability for climate-related issues
- Assessment and management of climate-related issues
- No responsibility for climate-related issues

Portfolio managers

- Oversight/accountability for climate-related issues
- Assessment and management of climate-related issues
- No responsibility for climate-related issues

Investment analysts

- Oversight/accountability for climate-related issues
- Assessment and management of climate-related issues
- No responsibility for climate-related issues

External managers or service providers

- Oversight/accountability for climate-related issues
- Assessment and management of climate-related issues
- No responsibility for climate-related issues

SG 07.6
CC

For board-level roles that have climate-related issue oversight/accountability or implementation responsibilities, indicate how these responsibilities are executed.

Senior management is generally responsible for implementation of the ESG framework, including climate-related issues, with oversight from the Board of Directors.

SG 07.7
CC

For management-level roles that assess and manage climate-related issues, provide further information on the structure and processes involved.

Managers are responsible for reviewing the ESG section of the investment memorandum to assess the climate related risks. For very diverse fund of funds deals, this entails a sector and geographic level analysis and a review of how well key risks are mitigated. For single asset deals, such as co-investments and direct company investments, company specific factors are reviewed in more detail. The investment decisions by the investment committee and management weight the risk level and mitigants as well as the scenarios of cases presented in the analysis.

**SG 07.8
CC**

Indicate how your organisation engages external investment managers and/or service providers on the TCFD recommendations and their implementation.

- Request that external managers and/or service providers incorporate TCFD into mainstream financial filings (annual financial reports, other regulatory reporting or similar)
- Request incorporation of TCFD into regular client reporting
- Request that external managers complete PRI climate indicator reporting
- Request responses to TCFD Fund Manager questions in the PRI Asset Owner Guide
- Other

Specify

Request climate-related disclosures for private equity direct/co-investments only

- We do not engage with external managers and/or service providers on the TCFD recommendations and their implementation

ESG issues in asset allocation

SG 13

Mandatory

Public

Descriptive

PRI 1

SG 13.1

Indicate whether the organisation carries out scenario analysis and/or modelling, and if it does, provide a description of the scenario analysis (by asset class, sector, strategic asset allocation, etc.).

- Yes, in order to assess future ESG factors

Describe

mcp applies risk discounts or premiums for opportunities to upside and downside scenario analysis for material factors. For diversified portfolio investments, this is normally done on the industry level and for co/direct investments this done on the company level.

- Yes, in order to assess future climate-related risks and opportunities

Describe

mcp applies risk discounts or premiums for opportunities to upside and downside scenario analysis for material factors. For diversified portfolio investments, this is normally done on the industry level and for co/direct investments this done on the company level.

- No, our organisation does not currently carry out scenario analysis and/or modelling

SG 13.2

Indicate if your organisation considers ESG issues in strategic asset allocation and/or allocation of assets between sectors or geographic markets.

We do the following

- Allocation between asset classes
- Determining fixed income duration
- Allocation of assets between geographic markets
- Sector weightings
- Other, specify

Investment manager ESG track records

We do not consider ESG issues in strategic asset allocation

SG 13 CC	Mandatory to Report Voluntary to Disclose	Public	Descriptive	General
----------	---	--------	-------------	---------

SG 13.4 CC	Describe how your organisation is using scenario analysis to manage climate-related risks and opportunities, including how the analysis has been interpreted, its results, and any future plans.
------------	--

Initial assessment

Describe

mcp has developed a tool to help identify carbon intensive investments by using specific industry codes. It is planned to further refine this automated approach in the future to assist in the early analysis and to understand if an additional risk discount is required.

Incorporation into investment analysis

Describe

mcp is continually focused on improving ESG analysis in the investment analysis building upon its sector and company specific approaches

Inform active ownership

Other

SG 13.5 CC	Indicate who uses this analysis.
------------	----------------------------------

Board members, trustees, C-level roles, Investment Committee

Portfolio managers

Dedicated responsible investment staff

External managers

Investment consultants/actuaries

Other

SG 13.6 CC	Indicate whether your organisation has evaluated the potential impact of climate-related risks, beyond the investment time horizon, on its investment strategy.
------------	---

Yes

No

Please explain the rationale

mcp currently does not perform analysis beyond its investment horizon

SG 13.7
CC

Indicate whether a range of climate scenarios is used.

- Analysis based on a 2°C or lower scenario
- Analysis based on an abrupt transition, consistent with the Inevitable Policy Response
- Analysis based on a 4°C or higher scenario
- No, a range is not used

SG 13.8
CC

Indicate the climate scenarios your organisation uses.

Provider	Scenario used	
IEA	<input type="checkbox"/> Beyond 2 Degrees Scenario (B2DS)	
IEA	<input type="checkbox"/> Energy Technology Perspectives (ETP) 2 Degrees scenario	
IEA	<input type="checkbox"/> Sustainable Development Scenario (SDS)	
IEA	<input type="checkbox"/> New Policy Scenario (NPS)

IRENA	<input type="checkbox"/> RE Map	
Greenpeace	<input type="checkbox"/> Advanced Energy [R]evolution	
Institute for Sustainable Development	<input type="checkbox"/> Deep Decarbonisation Pathway Project (DDPP)	
Bloomberg	<input type="checkbox"/> BNEF reference scenario	
IPCC	<input type="checkbox"/> Representative Concentration Pathway (RCP) 8.5	
IPCC	<input type="checkbox"/> RPC 6	
IPCC	<input type="checkbox"/> RPC 4.5	
IPCC	<input type="checkbox"/> RPC 2.6	
Other	<input checked="" type="checkbox"/> Other (1)	<div style="background-color: #0070C0; color: white; padding: 2px;">Other (1) please specify:</div> Simplified adjustments in base/upside
Other	<input type="checkbox"/> Other (2)	
Other	<input type="checkbox"/> Other (3)	

SG 14	Mandatory to Report Voluntary to Disclose	Public	Additional Assessed	PRI 1
-------	---	--------	---------------------	-------

SG 14.1

Some investment risks and opportunities arise as a result of long term trends. Indicate which of the following are considered.

- Changing demographics
- Climate change
- Resource scarcity
- Technological developments
- Other, specify(1)
- Other, specify(2)
- None of the above

SG 14.2

Indicate which of the following activities you have undertaken to respond to climate change risk and opportunity

- Established a climate change sensitive or climate change integrated asset allocation strategy
- Targeted low carbon or climate resilient investments
- Phase out your investments in your fossil fuel holdings
- Reduced portfolio exposure to emissions intensive or fossil fuel holdings
- Used emissions data or analysis to inform investment decision making
- Sought climate change integration by companies
- Sought climate supportive policy from governments
- Other, specify
- None of the above

SG 14.3

Indicate which of the following tools the organisation uses to manage climate-related risks and opportunities.

- Scenario analysis
- Disclosures on emissions risks to clients/trustees/management/beneficiaries
- Climate-related targets
- Encouraging internal and/or external portfolio managers to monitor emissions risks
- Emissions-risk monitoring and reporting are formalised into contracts when appointing managers
- Weighted average carbon intensity
- Carbon footprint (scope 1 and 2)
- Portfolio carbon footprint
- Total carbon emissions
- Carbon intensity
- Exposure to carbon-related assets
- Other emissions metrics
- Other, specify
- None of the above

SG 14 CC**Voluntary****Public****General****SG 14.6
CC**

Provide further details on the key metric(s) used to assess climate-related risks and opportunities.

Metric Type	Coverage	Purpose	Metric Unit	Metric Methodology
Carbon footprint (scope 1 and 2)	<input type="checkbox"/> All assets <input type="checkbox"/> Majority of assets <input checked="" type="checkbox"/> Minority of assets	Company carbon footprint	CO2e	questionnaire
Exposure to carbon-related assets	<input checked="" type="checkbox"/> All assets <input type="checkbox"/> Majority of assets <input type="checkbox"/> Minority of assets	Industry/activity based	FMV	FMV exposure

SG 14.8 CC Indicate whether climate-related risks are integrated into overall risk management and explain the risk management processes used for identifying, assessing and managing climate-related risks.

- Processes for climate-related risks are integrated into overall risk management

Please describe

ESG monitoring, including climate risks, is an exposure calculated quarterly in monitoring files

- Processes for climate-related risks are not integrated into overall risk management

SG 15	Mandatory to Report Voluntary to Disclose	Public	Descriptive	PRI 1
--------------	--	---------------	--------------------	--------------

SG 15.1 Indicate if your organisation allocates assets to, or manages, funds based on specific environmental and social themed areas.

- Yes
- No
