# RI TRANSPARENCY REPORT

## 2017

Antin Infrastructure Partners

## About this report

The PRI Reporting Framework is a key step in the journey towards building a common language and industry standard for reporting responsible investment (RI) activities. This RI Transparency Report is one of the key outputs of this Framework. Its primary objective is to enable signatory transparency on RI activities and facilitate dialogue between investors and their clients, beneficiaries and other stakeholders. A copy of this report will be publicly disclosed for all reporting signatories on the [PRI website](#), ensuring accountability of the PRI Initiative and its signatories.

This report is an export of the individual Signatory organisation's response to the PRI during the 2017 reporting cycle. It includes their responses to mandatory indicators, as well as responses to voluntary indicators the signatory has agreed to make public. The information is presented exactly as it was reported. Where an indicator offers a response option that is multiple-choice, all options that were available to the signatory to select are presented in this report. Presenting the information exactly as reported is a result of signatory feedback which suggested the PRI not summarise the information. As a result, the reports can be extensive. However, to help easily locate information, there is a **Principles index** which highlights where the information can be found and summarises the indicators that signatories complete and disclose.

## Understanding the Principles Index

The Principles Index summarises the response status for the individual indicators and modules and shows how these relate to the six [Principles for Responsible Investment](#). It can be used by stakeholders as an 'at-a-glance' summary of reported information and to identify particular themes or areas of interest.

Indicators can refer to one or more Principles. Some indicators are not specific to any Principle. These are highlighted in the 'General' column. When multiple Principles are covered across numerous indicators, in order to avoid repetition, only the main Principle covered is highlighted.

All indicators within a module are presented below. The status of indicators is shown with the following symbols:

Symbol	Status
✓	The signatory has completed all mandatory parts of this indicator
☑	The signatory has completed some parts of this indicator
🔒	This indicator was not relevant for this signatory
-	The signatory did not complete any part of this indicator
Ⓜ	The signatory has flagged this indicator for internal review

Within the table, indicators marked in blue are mandatory to complete. Indicators marked in grey are voluntary to complete.

<b>SG 03.2</b>	Describe your policy on managing potential conflicts of interest in the investment process.
----------------	---

Antin is entirely independent and 100% owned by its Partners. The independent governance of the Firm ensures there are no overriding decision-making obligations to a shareholder that may give rise to conflicts of interest, such as a bank, insurance company or asset manager.

The governance of all Antin-managed funds has been defined to mitigate the risk of conflicts of interest between funds and its investors. Should any conflict of interest arise, the conflict is first disclosed to the Chief Compliance Officer and the Managing Partners. If the conflict is not subsequently resolved, it is submitted for the Investors' Committee's ("IC") consideration. As of today, the Firm is not aware of any conflicts of interest among the Firm, any affiliates and external service providers.

ICs are constituted of a Fund's investor representatives who were invited by Antin to become members. The IC meets on a formal basis annually at an event organised by Antin. The IC has the authority to manage conflict of interest situations, asset valuation methodology amendments and other matters which are specifically cited in the funds' bylaws. Antin cannot carry out any transaction involving a conflict of interest unless the IC has approved the transaction.
