RI TRANSPARENCY REPORT

2017

Berkeley Partners LLP

About this report

The PRI Reporting Framework is a key step in the journey towards building a common language and industry standard for reporting responsible investment (RI) activities. This RI Transparency Report is one of the key outputs of this Framework. Its primary objective is to enable signatory transparency on RI activities and facilitate dialogue between investors and their clients, beneficiaries and other stakeholders. A copy of this report will be publicly disclosed for all reporting signatories on the [PRI website](#), ensuring accountability of the PRI Initiative and its signatories.

This report is an export of the individual Signatory organisation's response to the PRI during the 2017 reporting cycle. It includes their responses to mandatory indicators, as well as responses to voluntary indicators the signatory has agreed to make public. The information is presented exactly as it was reported. Where an indicator offers a response option that is multiple-choice, all options that were available to the signatory to select are presented in this report. Presenting the information exactly as reported is a result of signatory feedback which suggested the PRI not summarise the information. As a result, the reports can be extensive. However, to help easily locate information, there is a **Principles index** which highlights where the information can be found and summarises the indicators that signatories complete and disclose.

Understanding the Principles Index

The Principles Index summarises the response status for the individual indicators and modules and shows how these relate to the six [Principles for Responsible Investment](#). It can be used by stakeholders as an 'at-a-glance' summary of reported information and to identify particular themes or areas of interest.

Indicators can refer to one or more Principles. Some indicators are not specific to any Principle. These are highlighted in the 'General' column. When multiple Principles are covered across numerous indicators, in order to avoid repetition, only the main Principle covered is highlighted.

All indicators within a module are presented below. The status of indicators is shown with the following symbols:

Symbol	Status
✓	The signatory has completed all mandatory parts of this indicator
☑	The signatory has completed some parts of this indicator
🔒	This indicator was not relevant for this signatory
-	The signatory did not complete any part of this indicator
Ⓜ	The signatory has flagged this indicator for internal review

Within the table, indicators marked in blue are mandatory to complete. Indicators marked in grey are voluntary to complete.

The Fund

The fund investment team has a shared responsibility for RI, however, the E&S Manager has the main oversight regarding E&S matters while our General Counsel has main oversight for Corporate Governance matters.

(i) the fund manager of our Asia funds (Renewable Energy Asia Fund, L.P and Renewable Energy Asia Fund II, L.P) is authorised and regulated by the Financial Conduct Authority ("FCA") of the United Kingdom and accordingly, a Money Laundering Reporting Officer ("MLRO") and FCA Compliance Officer has been appointed. The MLRO and FCA Compliance Officer is supported by (a) our General Counsel for the fund who has overall responsibility for corporate governance matters and overseeing all anti-corruption, anti-bribery and anti-money laundering policies and procedures and reporting back to the MLRO and FCA Compliance Officer and (b) external specialist compliance and regulatory consultants, Bovill Ltd who provide ad hoc advice and monitoring. Our General Counsel also engages external legal, tax and other professional advisers to assist on specific investment matters as necessary. Dedicated corporate secretaries are employed by each investment portfolio company to ensure good corporate governance and compliance at local level and reporting back to General Counsel. Our African fund (Africa Renewable Energy Fund, L.P.) is regulated by the Mauritian Financial Services Commission ('FSC') and hence is subject to Mauritian compliance requirements and legislation on anti-money laundering. All funds, whether regulated by the FCA or the FSC; adopt the highest bar standard between the two regulators. In Mauritius we are assisted in our compliance by a third party administrator, AXIS, who works with our General Counsel and Chief Compliance Officer to perform KYC and ensure compliance with legislation.

(ii) our Environmental and Social Manager has responsibility for ensuring strict E&S standards are implemented and adhered to across our investments on a day-to-day basis, which includes developing and updating procedures and documents and evaluating E&S risks at portfolio and investment level. On an investment level, the Environmental and Social Manager: assists in assessing E&S risks, developing appropriate mitigation measures and ensuring the investment and project teams include adequate E&S information in the investment papers; instructs third party due diligence as necessary; monitors E&S progress; ensures adequate reporting on an investment level; ensures that E&S clauses are incorporated in legal agreements for each investment; and is responsible for reporting on E&S on a Fund level;

(iii) the investment committee (on which sits an independent chairman) at investment screening and approval level, which considers legal and ESG related investment due diligence, categorisation, risk weighting and related investment decisions;

(iv) our project directors and managers at investment company level are on the ground at projects to highlight any concerns or deal with any governance or ESG related practical issues as they may arise and report back to our Environmental and Social Manager, General Counsel, Investment Committee and the wider team; and

(v) the investment advisory committee, a committee comprising representatives of certain investors of the fund which does not comprise any employee or executive of the fund. The investment advisory committee meets at least annually and must be consulted by the fund on, amongst other matters, any questions of interpretation of the fund's Limited Partnership Agreement, general policies, guidelines and conflicts of interest on all matters, including ESG.

KYC and Due Diligence Full KYC checks and due diligence are carried out on each investment and on co-investors, partners, stakeholders, shareholders, directors and officers throughout the three stage investment process (as detailed in the firm's ESMS) and on an ongoing basis from time to time as required, through which risks are identified and reviewed before approvals are given. Where necessary, enhanced due diligence and reputational due diligence is also undertaken. Local in-country legal, tax, accounting, E&S and other professional advisers are engaged to provide local advice, carry out independent due diligence reports and to suggest mitigating measures in respect of any issues identified and they are retained to keep us updated with local legislative and regulatory developments from time to time.

Training and Development All employees are made fully aware of our legal compliance, corporate governance and ethical, social, environmental and governance standards. All employees receive a copy of the Berkeley Energy Handbook and Internal Control Manual which applies to all of our funds and which sets out in detail our policies and procedures in relation to the same and each employee is required to confirm in writing that they have read and agree to adhere to the terms of the Berkeley Energy Handbook. Annual training sessions are held on legal compliance (including Anti-Bribery and Anti-Money Laundering) and environmental and social policies. Our most recent sessions were held in October 2015 for all employees of the firm. All new staff members are provided with such training and additional training is given if there are changes to policy, laws or regulations. Where possible, such training sessions are also given to portfolio investment company staff and portfolio investment companies are encouraged to develop and implement their own good corporate governance policies and procedures.

1. All investments are screened against our Prohibited Investment Activity List which includes (but is not limited to) no forced or child labour, no activities that impinge on land owned by Indigenous Peoples without full documented consent and no destruction of critical habitat.
2. All investment must be categorized (A, B and C) based on Environmental and Social (E&S) aspects. High risk projects (A and B) must follow stringent requirements listed in points below.
3. All high risk project must develop an appropriate Environmental and Social Impact Assessment Report, developed by a third independent party.
4. All projects must go through an E&S due diligence process which may include an independent, third party review.
5. All high risk investments must adhere to IFC Performance Standards, national laws, ILO core labour standards and if investments do not meet these elements, an Environmental and Social Action Plan will be developed so the investments will, in a time bound fashion, meet these standards.

Our E&S Manager, reporting to the Partners, has overall responsibility for ensuring all investment staff follows the investment guidelines relating to E&S and provides all relevant information to the Investment Committee as part of the investment process.
