# RI TRANSPARENCY REPORT

## 2018

Taurus Funds Management Pty Limited

## About this report

The PRI Reporting Framework is a key step in the journey towards building a common language and industry standard for reporting responsible investment (RI) activities. This RI Transparency Report is one of the key outputs of this Framework. Its primary objective is to enable signatory transparency on RI activities and facilitate dialogue between investors and their clients, beneficiaries and other stakeholders. A copy of this report will be publicly disclosed for all reporting signatories on the [PRI website](#), ensuring accountability of the PRI Initiative and its signatories.

This report is an export of the individual Signatory organisation's response to the PRI during the 2018 reporting cycle. It includes their responses to mandatory indicators, as well as responses to voluntary indicators the signatory has agreed to make public. The information is presented exactly as it was reported. Where an indicator offers a response option that is multiple-choice, all options that were available to the signatory to select are presented in this report. Presenting the information exactly as reported is a result of signatory feedback which suggested the PRI not summarise the information. As a result, the reports can be extensive. However, to help easily locate information, there is a **Principles index** which highlights where the information can be found and summarises the indicators that signatories complete and disclose.

## Understanding the Principles Index

The Principles Index summarises the response status for the individual indicators and modules and shows how these relate to the six [Principles for Responsible Investment](#). It can be used by stakeholders as an 'at-a-glance' summary of reported information and to identify particular themes or areas of interest.

Indicators can refer to one or more Principles. Some indicators are not specific to any Principle. These are highlighted in the 'General' column. When multiple Principles are covered across numerous indicators, in order to avoid repetition, only the main Principle covered is highlighted.

All indicators within a module are presented below. The status of indicators is shown with the following symbols:

Symbol	Status
✓	The signatory has completed all mandatory parts of this indicator
☑	The signatory has completed some parts of this indicator
🔒	This indicator was not relevant for this signatory
-	The signatory did not complete any part of this indicator
Ⓜ	The signatory has flagged this indicator for internal review

Within the table, indicators marked in blue are mandatory to complete. Indicators marked in grey are voluntary to complete.

Taurus is a responsible investor which seeks to generate superior risk-adjusted returns by investing in mining companies and projects globally.

As a responsible investor in the mining sector, Taurus supports the UN Global Compact, the Universal Declaration of Human Rights and the International Labour Organization's core labour principles and is a signatory to the UN Principles for Responsible Investment.

Accordingly, Taurus will only invest in companies or projects which do, or will in Taurus' belief, undertake environmental, social, and corporate governance practices which are consistent with these documents and principles. In addition, in our private equity business, Taurus will:

- Actively engage with management of current and future investee companies and work with these people to obtain an appropriate level of disclosure of ESG-related issues,
- Actively promote the International Council for Mining and Metals principles and processes in investee companies, and,
- Implement and report on ESG progress to Taurus' investors

As a responsible investor in the mining sector, Taurus supports the UN Global Compact, the Universal Declaration of Human Rights and the International Labour Organisation's core labour principles and is a signatory to the UN Principles for Responsible Investment.

	Description
--	-------------

At an annual meeting of investors we covered the issue of “Social Licence to Operate” in our presentation of our due diligence procedures. We outlined the importance of it to successful project development, and discussed a specific example, describing the rigorous process by which we investigated the Environmental and Social risks on the project.

One attendee questioned why this was important, and we explained that there had been multiple cases where investments had been written off due to the failure of companies to gain the support of their communities. There was then some further constructive input from attendees and Taurus representatives.

Describe how responsible investment is incorporated

ESG factors have always been a key consideration in our investment decision-making and day to day management. Taurus consultants know from experience with us that accurately identifying ESG risks and having confidence that ESG matters will be responsibly managed are important factors in successfully investing in projects and securing funding from financiers.

LEI 01.1

Indicate (1) which ESG incorporation strategy and/or combination of strategies you apply to your actively managed listed equities and (2) the breakdown of your actively managed listed equities by strategy or combination of strategies (+/- 5%)

#### ESG incorporation strategy (select all that apply)

- Screening alone (i.e. not combined with any other strategies)
- Thematic alone (i.e. not combined with any other strategies)
- Integration alone (i.e. not combined with any other strategies)
- Screening and integration strategies

---	---

- Thematic and integration strategies
- Screening and thematic strategies
- All three strategies combined
- We do not apply incorporation strategies

Total actively managed listed equities

100%

LEI 01.2

Describe your organisation's approach to incorporation and the reasons for choosing the particular ESG incorporation strategy/strategies.

We invest in companies that are developing mining projects, often in remote locations in emerging market nations, and so we must carefully assess, monitor and manage the impact on local communities and environments and ensure that these projects are developed in accordance with responsible investment principles.

Screening and integration is therefore the appropriate ESG incorporation strategy.

**Screening:** Taurus screens for those projects that can be developed responsibly while carefully managing ESG issues and will reject opportunities where it feels that ESG matters would not be adequately handled regardless of investment returns - ESG is a threshold issue for us. Where we identify fatal flaws in an investment opportunity resulting from ESG issues then we will decline to invest even if the investment returns appear promising.

**Integration:** We then integrate ESG matters into our investment by investing at multiple stages through project development, and actively engaging with the Board and senior executives in these companies to ensure ESG matters are addressed thoroughly.

Description
-------------

We seek to invest in mining and metals companies developing projects around the world. We exclude certain commodity groups and countries where we feel political risks are unacceptable. We also exclude opportunities where we feel the management of ESG matters would not be adequately addressed.

Undertaken responsibly, mining investment can contribute to poverty reduction and sustainable development at the community level. Mining can be a positive influence, providing employment and infrastructure and supporting community development such as education and healthcare programs.

We invest in companies that are developing mining projects, often in remote locations in emerging market nations, and so we must carefully assess, monitor and manage the impact on local communities and environments and ensure that these projects are developed in accordance with responsible investment principles. Where we identify fatal flaws in an investment opportunity resulting from ESG issues then we will decline to invest even if the investment returns appear promising. It is critical to incorporate an analysis of such factors into our investment selection approach.

- Positive/best-in-class screening
- Norms-based screening

LEI 04.2	Describe how the screening criteria are established, how often the criteria are reviewed and how you notify clients and/or beneficiaries when changes are made.
----------	---

Screening criteria are generally disclosed in detail in fund documentation. Changes to these require supermajority investor approval. In addition, we apply our Board-approved ESG policy to the screening of opportunities.

LEI 05	Mandatory	Public	Core Assessed	PRI 1
--------	-----------	--------	---------------	-------

LEI 05.1	Indicate which processes your organisation uses to ensure screening is based on robust analysis.
----------	--

- Comprehensive ESG research is undertaken or sourced to determine companies' activities and products.
- Companies are given the opportunity by you or your research provider to review ESG research on them and correct inaccuracies
- External research and data used to identify companies to be excluded/included is subject to internal audit by ESG/RI staff, the internal audit function or similar
- Third-party ESG ratings are updated regularly to ensure that portfolio holdings comply with fund policies.
- A committee or body with representatives independent of the individuals who conduct company research reviews some or all screening decisions
- A periodic review of the quality of the research undertaken or provided is carried out
- Review and evaluation of external research providers
- Other, specify
- None of the above

**LEI 05.2**

Indicate the proportion of your actively managed listed equity portfolio that is subject to comprehensive ESG research as part your ESG screening strategy.

- <10%
- 10-50%
- 51-90%
