RI TRANSPARENCY REPORT

2020

Mazi Asset Management (Pty) Ltd

About this report

The PRI Reporting Framework is a key step in the journey towards building a common language and industry standard for reporting responsible investment (RI) activities. This RI Transparency Report is one of the key outputs of this Framework. Its primary objective is to enable signatory transparency on RI activities and facilitate dialogue between investors and their clients, beneficiaries and other stakeholders. A copy of this report will be publicly disclosed for all reporting signatories on the [PRI website](#), ensuring accountability of the PRI Initiative and its signatories.

This report is an export of the individual Signatory organisation's response to the PRI during the 2020 reporting cycle. It includes their responses to mandatory indicators, as well as responses to voluntary indicators the signatory has agreed to make public. The information is presented exactly as it was reported. Where an indicator offers a response option that is multiple-choice, all options that were available to the signatory to select are presented in this report. Presenting the information exactly as reported is a result of signatory feedback which suggested the PRI not summarise the information. As a result, the reports can be extensive. However, to help easily locate information, there is a **Principles index** which highlights where the information can be found and summarises the indicators that signatories complete and disclose.

Understanding the Principles Index

The Principles Index summarises the response status for the individual indicators and modules and shows how these relate to the six [Principles for Responsible Investment](#). It can be used by stakeholders as an 'at-a-glance' summary of reported information and to identify particular themes or areas of interest.

Indicators can refer to one or more Principles. Some indicators are not specific to any Principle. These are highlighted in the 'General' column. When multiple Principles are covered across numerous indicators, in order to avoid repetition, only the main Principle covered is highlighted.

All indicators within a module are presented below. The status of indicators is shown with the following symbols:

Symbol	Status
✓	The signatory has completed all mandatory parts of this indicator
☑	The signatory has completed some parts of this indicator
🔒	This indicator was not relevant for this signatory
-	The signatory did not complete any part of this indicator
⚠	The signatory has flagged this indicator for internal review

Within the table, indicators marked in blue are mandatory to complete. Indicators marked in grey are voluntary to complete.

LEI 01.2	Describe your organisation's approach to ESG incorporation and the reasons for choosing the particular strategy/strategies.
----------	---

Our investment philosophy is set on 4 tenets:

Long term business sustainability

Sound corporate governance (management team and board of directors)

Strong and sustainable cash flows and balance sheet

ESG is therefore intricate in how we evaluate investment opportunities. The key question that analysts have to answer is "What could go wrong and how much money would be permanently lost ?"

Again ESG is at the centre of answering that question from a risk measurement perspective.

LEA 15.2 Indicate the reasons for raising your concerns with these companies ahead of voting.

- Vote(s) concerned selected markets
- Vote(s) concerned selected sectors
- Vote(s) concerned certain ESG issues
- Vote(s) concerned companies exposed to controversy on specific ESG issues
- Vote(s) concerned significant shareholdings
- Client request
- Other

Explain

We engage frequently with company management. If we have any concerns about any ESG issues we would not wait for a proxy voting opportunity to express our concerns. We would endeavour to address our concerns as soon as possible. Examples would be remuneration policies. If we feel that a published remuneration policy is not aligned with shareholder value we would address this concern with management. We would not just wait for the proxy voting opportunity to vote against the policy.
