RI TRANSPARENCY REPORT

2020

Landsbankinn hf.

About this report

The PRI Reporting Framework is a key step in the journey towards building a common language and industry standard for reporting responsible investment (RI) activities. This RI Transparency Report is one of the key outputs of this Framework. Its primary objective is to enable signatory transparency on RI activities and facilitate dialogue between investors and their clients, beneficiaries and other stakeholders. A copy of this report will be publicly disclosed for all reporting signatories on the [PRI website](#), ensuring accountability of the PRI Initiative and its signatories.

This report is an export of the individual Signatory organisation's response to the PRI during the 2020 reporting cycle. It includes their responses to mandatory indicators, as well as responses to voluntary indicators the signatory has agreed to make public. The information is presented exactly as it was reported. Where an indicator offers a response option that is multiple-choice, all options that were available to the signatory to select are presented in this report. Presenting the information exactly as reported is a result of signatory feedback which suggested the PRI not summarise the information. As a result, the reports can be extensive. However, to help easily locate information, there is a **Principles index** which highlights where the information can be found and summarises the indicators that signatories complete and disclose.

Understanding the Principles Index

The Principles Index summarises the response status for the individual indicators and modules and shows how these relate to the six [Principles for Responsible Investment](#). It can be used by stakeholders as an 'at-a-glance' summary of reported information and to identify particular themes or areas of interest.

Indicators can refer to one or more Principles. Some indicators are not specific to any Principle. These are highlighted in the 'General' column. When multiple Principles are covered across numerous indicators, in order to avoid repetition, only the main Principle covered is highlighted.

All indicators within a module are presented below. The status of indicators is shown with the following symbols:

Symbol	Status
✓	The signatory has completed all mandatory parts of this indicator
☑	The signatory has completed some parts of this indicator
🔒	This indicator was not relevant for this signatory
-	The signatory did not complete any part of this indicator
Ⓜ	The signatory has flagged this indicator for internal review

Within the table, indicators marked in blue are mandatory to complete. Indicators marked in grey are voluntary to complete.

- » OECD Guidelines for Multinational Companies
- » OECD Corporate Governance
- » Guidelines on Corporate Governance published by the Iceland Chamber of Commerce, NASDAQ OMX Iceland hf. and the Confederation of Icelandic Employers, as well as the Guidelines on Corporate Social Responsibility published by NASDAQ OMX Iceland.

SG 01.5

Provide a brief description of the key elements, any variations or exceptions to your investment policy that covers your responsible investment approach. [Optional]

Landsbankinn's Policy on Responsible Investment is based on the United Nations' Principles on Responsible Investment, of which Landsbankinn is a member. The policy reflects Landsbankinn's rules on, inter alia, risk appetite, large exposures and maximum aggregate risk, operational risk, reputational risk, liquidity risk and good corporate governance.

Landsbankinn aims to be a leader in responsible investment in Iceland, as a strategy of responsible investment positively impacts return on investment in the long term and reduces operational risk.

The Policy is intended to serve as a framework that enables the Bank to integrate corporate social responsibility in investment decisions.

The Policy applies to Landsbankinn and the Bank emphasises the need for its subsidiaries to set comparable policies.

The Policy applies first and foremost to investment in listed and unlisted equities on the Bank's own behalf or its customers:

Responsible investment involves:

- » That Landsbankinn complies with current laws and regulations on individual markets.
- » That investment always seeks to minimise the negative effects of and promotes the positive impact of investment on the environment, employees and other stakeholders.

- » That Landsbankinn obliges itself to promote on-going improvements in matters relating to environmental, social and governance affairs.
- » That Landsbankinn carries out risk assessment designed to evaluate the ESG aspects of companies under consideration for investment.

No
