RI TRANSPARENCY REPORT

2020

Energy Industries Superannuation Scheme (EISS)

About this report

The PRI Reporting Framework is a key step in the journey towards building a common language and industry standard for reporting responsible investment (RI) activities. This RI Transparency Report is one of the key outputs of this Framework. Its primary objective is to enable signatory transparency on RI activities and facilitate dialogue between investors and their clients, beneficiaries and other stakeholders. A copy of this report will be publicly disclosed for all reporting signatories on the [PRI website](#), ensuring accountability of the PRI Initiative and its signatories.

This report is an export of the individual Signatory organisation's response to the PRI during the 2020 reporting cycle. It includes their responses to mandatory indicators, as well as responses to voluntary indicators the signatory has agreed to make public. The information is presented exactly as it was reported. Where an indicator offers a response option that is multiple-choice, all options that were available to the signatory to select are presented in this report. Presenting the information exactly as reported is a result of signatory feedback which suggested the PRI not summarise the information. As a result, the reports can be extensive. However, to help easily locate information, there is a **Principles index** which highlights where the information can be found and summarises the indicators that signatories complete and disclose.

Understanding the Principles Index

The Principles Index summarises the response status for the individual indicators and modules and shows how these relate to the six [Principles for Responsible Investment](#). It can be used by stakeholders as an 'at-a-glance' summary of reported information and to identify particular themes or areas of interest.

Indicators can refer to one or more Principles. Some indicators are not specific to any Principle. These are highlighted in the 'General' column. When multiple Principles are covered across numerous indicators, in order to avoid repetition, only the main Principle covered is highlighted.

All indicators within a module are presented below. The status of indicators is shown with the following symbols:

Symbol	Status
✓	The signatory has completed all mandatory parts of this indicator
☑	The signatory has completed some parts of this indicator
🔒	This indicator was not relevant for this signatory
-	The signatory did not complete any part of this indicator
Ⓜ	The signatory has flagged this indicator for internal review

Within the table, indicators marked in blue are mandatory to complete. Indicators marked in grey are voluntary to complete.

OO 11.4

Provide a brief description of how your organisation includes responsible investment considerations in your investment manager selection, appointment and monitoring processes.

EISS recognises that responsible investing is an important factor for long term investment outcomes. Factors including environmental, social and governance (ESG) should be considered when assessing investments. These factors are critical and should be assessed as part of the risks and opportunities for potential investments. Where external investment managers are used, EISS will ensure that those managers have appropriate policies as it relates to responsible investing and those policies are complied with.

SG 01.4

Describe your organisation's investment principles and overall investment strategy, interpretation of fiduciary (or equivalent) duties, and how they consider ESG factors and real economy impact.

EISS views superannuation as a long term investment. It professionally manages the assets of the Scheme with the aim of preserving capital for members to achieve their desired retirement outcome.

Each of the defined contribution strategies targets a CPI 'plus' return benchmark, with the intention of meeting these return targets over suitable time frames from 3 to 10 years based on the risk profile of the option.

The primary investment aim for the Employer Reserve is to ensure that the plan has sufficient assets to meet its liabilities to members as they fall due.

The strategy of each investment option comprises of well-diversified portfolios of assets tailored to the various risk profiles while being cognisant of EISS's lower propensity for risk. The overall aim being to provide outcomes that meet member objectives and ensuring that actuarial targets are met for the Employer Reserve.

SG 01.5

Provide a brief description of the key elements, any variations or exceptions to your investment policy that covers your responsible investment approach. [Optional]

EISS does not use the six principles as a screening tool but rather as an aspirational objective designed to enhance the long-term benefits to the fund and members. The Principles provide tools for ESG engagement and monitoring.

SG 03.2 Describe your policy on managing potential conflicts of interest in the investment process.

EISS will take all reasonably practical steps to ensure that any real, perceived or potential conflicts are managed upon consideration of whether:

1. the conflict can be managed in a manner that does not impact on the performance of the Responsible Person's or employee's duties
2. the conflict can be managed by the Responsible Person not taking part in Board or Committee discussions or decisions involving the conflicted subject matter
3. the Responsible Person or employee should consider divesting himself or herself of the relevant interest or relevant duty, or take such other action as is considered appropriate under the circumstances; or
4. the conflict may require the Director who is a Responsible Person, to resign from the Board or Committee, or other Responsible Person or employee to resign from the EISS appointed position.

5. The Conflicts of Interest Procedures contains further detail on the management of conflicts.

In all cases, the Chief Risk Officer will monitor the effectiveness with which conflicts are managed, and may recommend alternative actions and steps as required to ensure that conflicts continue to be managed in accordance with the requirements of Section 52 of the SIS Act.
