RI TRANSPARENCY REPORT

2020

J O Hambro Capital Management Group

About this report

The PRI Reporting Framework is a key step in the journey towards building a common language and industry standard for reporting responsible investment (RI) activities. This RI Transparency Report is one of the key outputs of this Framework. Its primary objective is to enable signatory transparency on RI activities and facilitate dialogue between investors and their clients, beneficiaries and other stakeholders. A copy of this report will be publicly disclosed for all reporting signatories on the [PRI website](#), ensuring accountability of the PRI Initiative and its signatories.

This report is an export of the individual Signatory organisation's response to the PRI during the 2020 reporting cycle. It includes their responses to mandatory indicators, as well as responses to voluntary indicators the signatory has agreed to make public. The information is presented exactly as it was reported. Where an indicator offers a response option that is multiple-choice, all options that were available to the signatory to select are presented in this report. Presenting the information exactly as reported is a result of signatory feedback which suggested the PRI not summarise the information. As a result, the reports can be extensive. However, to help easily locate information, there is a **Principles index** which highlights where the information can be found and summarises the indicators that signatories complete and disclose.

Understanding the Principles Index

The Principles Index summarises the response status for the individual indicators and modules and shows how these relate to the six [Principles for Responsible Investment](#). It can be used by stakeholders as an 'at-a-glance' summary of reported information and to identify particular themes or areas of interest.

Indicators can refer to one or more Principles. Some indicators are not specific to any Principle. These are highlighted in the 'General' column. When multiple Principles are covered across numerous indicators, in order to avoid repetition, only the main Principle covered is highlighted.

All indicators within a module are presented below. The status of indicators is shown with the following symbols:

Symbol	Status
✓	The signatory has completed all mandatory parts of this indicator
☑	The signatory has completed some parts of this indicator
🔒	This indicator was not relevant for this signatory
-	The signatory did not complete any part of this indicator
Ⓜ	The signatory has flagged this indicator for internal review

Within the table, indicators marked in blue are mandatory to complete. Indicators marked in grey are voluntary to complete.

SG 01.4

Describe your organisation's investment principles and overall investment strategy, interpretation of fiduciary (or equivalent) duties, and how they consider ESG factors and real economy impact.

J O Hambro Capital Management (JOHCM) manages assets across a range of global and regional equity strategies and a multi-asset strategy. Each of our investment teams is small and has investment autonomy; there is no central approach. ESG factors are integrated into investment analysis and decision-making. This means that they are considered by fund managers in the same context as other risks and opportunities, all of which contribute to investment judgement. JOHCM's Investment Director and Risk team provide comprehensive oversight of the style factors, macro factor sensitivities, decision-making patterns, ESG characteristics and liquidity profile of each strategy.

Our fund managers believe in the value of meeting company management and see hundreds of companies each year. The principles of the FRC Stewardship Code are considered at this point; they are integrated in investment decision-making, rather than being devolved to a separate team. We believe that this results in better investment decisions for clients and allows our investment teams to incorporate all relevant factors in their conclusions. In some cases, this process leads to bilateral engagement on specific strategic and governance issues.

No

SG 01.6

Additional information [Optional].

Furthermore, many of our teams have stocks held for longer than 5 years and there has therefore been a long standing research approach to consider material, long term risks to business models. Stock risks and opportunities arise from climate change and are considered by the teams in their day-to-day due diligence.

Additional information. [Optional]

At present, JOHCM does not have a dedicated ESG/sustainable investing team. Pandal Group Limited, our parent company, owns Regnan which is an Australian based long standing provider of ESG research and consulting. We believe that clients are better served if issues such as ESG are incorporated into the fund management decision making process. Where expertise is needed on specific issues we can source this internally from Regnan, who are world leading ESG experts, or from external providers.

Upcoming ESG product launch

In December 2019, JOHCM announced the launch of a Global Equity Impact strategy through our socially responsible and impact investment affiliate Regnan, following the appointment of a Global Equity Impact investment team. The newly-hired four-person team will be based in JOHCM's London office. There will be dedicated ESG/sustainable hires on the back of this team and for future strategic growth of our responsible investing initiatives. The Global Equity Impact strategy is expected to launch in H2 2020. Further details are provided on the website:

Provide a brief commentary on the level of your organisation's involvement in the initiative. [Optional]

We are supportive of many of the initiatives central to the PRI. We aim to incorporate ESG issues into our investment analysis. We believe that well-managed companies will take ESG issues into account and will view failure to consider them as a long-term risk. For instance, we believe that companies with a comprehensive strategy to reduce energy intensity will be more competitive going forward. We encourage academic research into sustainability and governance issues. We do not insist on brokers' analysts integrating ESG factors into their research. We are keen to come to our own conclusions using our own understanding of the significance of ESG issues.

We exercise voting rights on our clients' holdings and, undertake specific engagement initiatives where we believe that the returns to our clients will be enhanced. As a smaller, performance-driven, investment manager, we need to make efficient use of our portfolio managers' time. We are less willing to get involved in time-consuming general discussions on policy and regulation unless the agenda is very clear.

Additional information [Optional].

In 2019, JOHCM's ultimate parent, Pental Group Limited, strengthened its responsible investment capability by taking full ownership of Regnan Governance Research & Engagement Pty Ltd. Regnan is a leading provider of ESG research, engagement and advisory services. Regnan's focus on environmental and social issues can be traced back to the late '90s. Regnan's experienced, multi-disciplinary research team has a deep understanding of ESG issues, especially those that are material to long term value. Where expertise is needed on specific issues JOHCM's investment teams can source this internally from Regnan.

ESG incorporation in actively managed listed equities

Implementation processes

LEI 01	Mandatory	Public	Gateway	PRI 1
--------	-----------	--------	---------	-------

LEI 01.1

Indicate which ESG incorporation strategy and/or combination of strategies you apply to your actively managed listed equities; and the breakdown of your actively managed listed equities by strategy or combination of strategies.

ESG incorporation strategy (select all that apply)

- Screening alone (i.e., not combined with any other strategies)

---	--

- Screening and thematic strategies
- All three strategies combined
- We do not apply incorporation strategies

Total actively managed listed equities

100%

LEI 01.2

Describe your organisation's approach to ESG incorporation and the reasons for choosing the particular strategy/strategies.

Each of JOHCM's investment strategies is autonomous. There is no central approach to investment or to ESG issues. Some of our strategies adopt a thematic approach and exclude, for instance, all tobacco, alcohol, armaments, gambling and pornography companies. Others adopt an integrated approach, addressing the specifics of the companies in which they invest, across all sectors.

We have a firm wide restriction on investment in cluster munitions.

We believe this is the best way to achieve an outcome which is to our clients' material benefit.

(A) Implementation: Screening

LEI 04	Mandatory	Public	Descriptive	PRI 1
--------	-----------	--------	-------------	-------

LEI 04.1 Indicate and describe the type of screening you apply to your internally managed active listed equities.

Type of screening

- Negative/exclusionary screening

Screened by

- Product
 Activity
 Sector
 Country/geographic region
 Environmental and social practices and performance
 Corporate governance

Description

We implemented a general exclusion policy that puts a block list in to our order management system (Bloomberg AIM) forbidding any JOHCM funds from investing in companies involved in the manufacture of cluster bombs. The exclusion list is based on the MSCI ESG Ratings screening tool.

Some of our strategies adopt a thematic approach and exclude, for instance, all tobacco, alcohol, armaments, fossil fuels, gambling and pornography companies. Others adopt an integrated approach, addressing the specifics of the companies in which they invest, across all sectors.

- Positive/best-in-class screening
 Norms-based screening

LEI 04.2 Describe how you notify clients and/or beneficiaries when changes are made to your screening criteria.

Our Client Services team has direct access to the investment teams and update our client base, on a regular basis, with key news and information from the investment teams.

LEI 05	Mandatory	Public	Core Assessed	PRI 1
--------	-----------	--------	---------------	-------

LEI 05.1

Indicate which processes your organisation uses to ensure ESG screening is based on robust analysis.

- Comprehensive ESG research is undertaken or sourced to determine companies' activities and products.
- Companies are given the opportunity by you or your research provider to review ESG research on them and correct inaccuracies.
- External research and data used to identify companies to be excluded/included is subject to internal audit by ESG/RI staff, the internal audit function or similar.
- Third-party ESG ratings are updated regularly to ensure that portfolio holdings comply with fund policies.
- Trading platforms blocking / restricting flagged securities on the black list.
- A committee, body or similar with representatives independent of the individuals who conduct company research reviews some or all screening decisions.
- A periodic review of internal research is carried out.
- Review and evaluation of external research providers.
- Other; specify
- None of the above

LEI 05.3

Indicate how frequently third party ESG ratings are updated for screening purposes.

- Quarterly or more frequently
- Bi-Annually
- Annually
- Less frequently than annually

LEI 05.5

Additional information. [Optional]

ESG analysis is integrated in investment analysis. In addition, the fund managers and the Investment Director use ISS ESG research to assist in the proxy voting process and use MSCI ESG Ratings research to monitor ESG issues.

(B) Implementation: Thematic

LEI 07**Mandatory****Public****Descriptive****PRI 1****LEI 07.1**

Indicate the type of sustainability thematic funds or mandates your organisation manages.

- Environmentally themed funds
- Socially themed funds
- Combination of themes

LEI 07.2

Describe your organisation's processes relating to sustainability themed funds. [Optional]

We do not run any sustainability themed funds.

ESG factors are integrated into investment analysis and decision-making. This means that they are considered by fund managers in the same context as other risks and opportunities, all of which contribute to investment judgement.

(C) Implementation: Integration of ESG factors

LEI 08	Mandatory	Public	Core Assessed	PRI 1
--------	-----------	--------	---------------	-------

LEI 08.1 Indicate the proportion of actively managed listed equity portfolios where E, S and G factors are systematically researched as part of your investment analysis.

LEI 09	Mandatory	Public	Core Assessed	PRI 1
--------	-----------	--------	---------------	-------

LEI 09.1

Indicate which processes your organisation uses to ensure ESG integration is based on robust analysis.

- Comprehensive ESG research is undertaken or sourced to determine companies' activities and products
- Companies are given the opportunity by you or your research provider to review ESG research on them and correct inaccuracies
- Third-party ESG ratings are updated regularly
- A periodic review of the internal research is carried out
- Structured, regular ESG specific meetings between responsible investment staff and the fund manager or within the investments team
- ESG risk profile of a portfolio against benchmark
- Analysis of the impact of ESG factors on investment risk and return performance
- Other; specify
Engagement initiatives are discussed with the Investment Director.
- None of the above

LEI 09.3

Indicate how frequently third party ESG ratings that inform your ESG integration strategy are updated.

- Quarterly or more frequently
- Bi-Annually
- Annually
- Less frequently than annually

LEI 09.5

Describe how ESG information is held and used by your portfolio managers.

- ESG information is held within centralised databases or tools, and it is accessible by all relevant staff
- ESG information or analysis is a standard section or aspect of all company research notes or industry/sector analysis generated by investment staff
- Systematic records are kept that capture how ESG information and research were incorporated into investment decisions
- Other; specify
- None of the above

LEI 09.6

Additional information. [Optional]

ESG information is held within centralised databases managed by the Risk team.
