RI TRANSPARENCY REPORT

2017

Advanced Capital

About this report

The PRI Reporting Framework is a key step in the journey towards building a common language and industry standard for reporting responsible investment (RI) activities. This RI Transparency Report is one of the key outputs of this Framework. Its primary objective is to enable signatory transparency on RI activities and facilitate dialogue between investors and their clients, beneficiaries and other stakeholders. A copy of this report will be publicly disclosed for all reporting signatories on the [PRI website](#), ensuring accountability of the PRI Initiative and its signatories.

This report is an export of the individual Signatory organisation's response to the PRI during the 2017 reporting cycle. It includes their responses to mandatory indicators, as well as responses to voluntary indicators the signatory has agreed to make public. The information is presented exactly as it was reported. Where an indicator offers a response option that is multiple-choice, all options that were available to the signatory to select are presented in this report. Presenting the information exactly as reported is a result of signatory feedback which suggested the PRI not summarise the information. As a result, the reports can be extensive. However, to help easily locate information, there is a **Principles index** which highlights where the information can be found and summarises the indicators that signatories complete and disclose.

Understanding the Principles Index

The Principles Index summarises the response status for the individual indicators and modules and shows how these relate to the six [Principles for Responsible Investment](#). It can be used by stakeholders as an 'at-a-glance' summary of reported information and to identify particular themes or areas of interest.

Indicators can refer to one or more Principles. Some indicators are not specific to any Principle. These are highlighted in the 'General' column. When multiple Principles are covered across numerous indicators, in order to avoid repetition, only the main Principle covered is highlighted.

All indicators within a module are presented below. The status of indicators is shown with the following symbols:

Symbol	Status
✓	The signatory has completed all mandatory parts of this indicator
☑	The signatory has completed some parts of this indicator
🔒	This indicator was not relevant for this signatory
-	The signatory did not complete any part of this indicator
⚠	The signatory has flagged this indicator for internal review

Within the table, indicators marked in blue are mandatory to complete. Indicators marked in grey are voluntary to complete.

Investment policy

SG 01	Mandatory	Public	Core Assessed	General
-------	-----------	--------	---------------	---------

New selection options have been added to this indicator. Please review your prefilled responses carefully.

SG 01.1 Indicate if you have an investment policy that covers your responsible investment approach.

- Yes
 No

SG 01.6 Provide a brief description of the key elements, any variations or exceptions to your investment policy that covers your responsible investment approach. [Optional]

Advanced Capital believes that the consideration of ESG issues actually improves the overall financial performance in the long term, especially by reducing systemic risk and creating a more ethic and efficient environment for the global economy. Advanced Capital is committed to be in line with international best practices in promoting the highest ethical standards in all its activities and relations, believing that the always wider pool of RI adhering associations will push even strongly for a better regulation and awareness of the theme. Even though the firm does not currently have an overall policy to address the topic, Advanced Capital's ESG commitment is enshrined in the investment process and in the post-investment monitoring activity. There is always a reference to the ESG themes in every AC presentation and Advanced Capital's professionals link the discussion to ESG issues at every meeting, raising the awareness of LPs, placement agents, GPs, and other players on the topic.

SG 03	Mandatory	Public	Core Assessed	General
-------	-----------	--------	---------------	---------

SG 03.1 Indicate if your organisation has a policy on managing potential conflicts of interest in the investment process.

- Yes

SG 03.2 Describe your policy on managing potential conflicts of interest in the investment process.

Advanced Capital's conflicts of interest policy was implemented in 2008 and subsequently enhanced in November 2012 to include: (i) a more specific definition of different typologies of conflicts of interest (counterparty conflict, conflict of intermediation, conflict of co-investment and supply). This provided an opportunity to better define roles and responsibilities of each person involved in the identification, evaluation and management of conflicts of interest. The Company constantly monitors potential conflict of interest situations: (i) in the funds' investment and disposal phases a specific disclosure on potential conflicts of interest is asked to all the "relevant persons"; (ii) new supplier contracts must have appropriate disclosure on potential conflicts of interest; (iii) a conflicts of interest mapping is produced once a year by the Company; (iv) the Compliance & AML Responsible keeps records of the conflict of interest cases highlighting the most relevant ones and the actions taken by the Company to manage them. In any case, a binding opinion of the funds' Advisory Boards is produced when evaluating potential conflict of interest situations, especially when making investments/disposals. Furthermore, an independent "Conflicts of Interest Committee" oversees the whole process of identification, valuation and management of conflict of interest cases.

- No

Objectives and strategies

SG 05	Mandatory	Public	Gateway/Core Assessed	General
-------	-----------	--------	-----------------------	---------

SG 05.1	Indicate if and how frequently your organisation sets and reviews objectives for its responsible investment activities.
---------	---

- Quarterly or more frequently
- Biannually
- Annually
- Less frequently than annually
- Ad-hoc basis
- It is not reviewed

SG 05.2	Additional information. [Optional]
---------	------------------------------------

Advanced Capital aims to select only ethical investments. To compensate the lack of a specific ESG policy at present, the firm has integrated these issues in its daily activities. As an example, the firm sets periodic monitoring calls - to be made at least biannually - with all its general partners during which ESG issues are also addressed. If a core ESG situation arises, Advanced Capital keeps constantly monitored the general partner's management and behavior, offering advice as to how better address the issue. To further improve its commitment to responsible investing, Advanced Capital has set an internal objective of taking a more active participation in conferences held on the topic.

Governance and human resources

SG 07	Mandatory	Public	Core Assessed	General
-------	-----------	--------	---------------	---------

SG 07.1	Indicate the roles present in your organisation and for each, indicate whether they have oversight and/or implementation responsibilities for responsible investment.
