RI TRANSPARENCY REPORT

2020

Acumen Latam Capital Partners, LLC

About this report

The PRI Reporting Framework is a key step in the journey towards building a common language and industry standard for reporting responsible investment (RI) activities. This RI Transparency Report is one of the key outputs of this Framework. Its primary objective is to enable signatory transparency on RI activities and facilitate dialogue between investors and their clients, beneficiaries and other stakeholders. A copy of this report will be publicly disclosed for all reporting signatories on the [PRI website](#), ensuring accountability of the PRI Initiative and its signatories.

This report is an export of the individual Signatory organisation's response to the PRI during the 2020 reporting cycle. It includes their responses to mandatory indicators, as well as responses to voluntary indicators the signatory has agreed to make public. The information is presented exactly as it was reported. Where an indicator offers a response option that is multiple-choice, all options that were available to the signatory to select are presented in this report. Presenting the information exactly as reported is a result of signatory feedback which suggested the PRI not summarise the information. As a result, the reports can be extensive. However, to help easily locate information, there is a **Principles index** which highlights where the information can be found and summarises the indicators that signatories complete and disclose.

Understanding the Principles Index

The Principles Index summarises the response status for the individual indicators and modules and shows how these relate to the six [Principles for Responsible Investment](#). It can be used by stakeholders as an 'at-a-glance' summary of reported information and to identify particular themes or areas of interest.

Indicators can refer to one or more Principles. Some indicators are not specific to any Principle. These are highlighted in the 'General' column. When multiple Principles are covered across numerous indicators, in order to avoid repetition, only the main Principle covered is highlighted.

All indicators within a module are presented below. The status of indicators is shown with the following symbols:

Symbol	Status
✓	The signatory has completed all mandatory parts of this indicator
☑	The signatory has completed some parts of this indicator
🔒	This indicator was not relevant for this signatory
-	The signatory did not complete any part of this indicator
Ⓜ	The signatory has flagged this indicator for internal review

Within the table, indicators marked in blue are mandatory to complete. Indicators marked in grey are voluntary to complete.

SG 01.4

Describe your organisation's investment principles and overall investment strategy, interpretation of fiduciary (or equivalent) duties, and how they consider ESG factors and real economy impact.

Investment thesis: The growing inequality in the Latin America, coupled with the rise of high caliber mission driven entrepreneurs that are addressing the needs of low income population presents a substantial opportunity for investors to achieve both social and financial returns while making a lasting impact. These companies are an important engine of growth in the region and have the capacity to truly drive change. However, most of these enterprises struggle to obtain investment capital. ALCP intends to provide critical capital and operational support to enable these businesses to scale their operations, maximize their impact and reach long-term financial profitability.

Impact and ESG considerations: ALCP's main impact objective is to tackle poverty by investing in early growth companies in the agribusiness, education and access to energy sectors. Primarily, the fund tracks industry-specific impact metrics, using Acumen's framework to measure impact (breadth, depth, poverty focus). In addition, gender-related metrics are measured across sectors. ALCP tracks its contribution to the attainment of certain Sustainable Development Goals in its target countries. Finally, ALCP includes ESG considerations into every phase of the investment cycle, from due diligence (based on IFC ESG Performance Standards) to portfolio management, by supporting investees to adapt best ESG practices.

SG 03.2	Describe your policy on managing potential conflicts of interest in the investment process.
---------	---------------------------------------------------------------------------------------------

- Interested persons have a duty to disclose any actual or possible conflict of interest to the Limited Partner Advisory Committee (LPAC). If a person fails to disclose an actual or possible conflict of interest, the LPAC will take disciplinary and corrective actions.
- After disclosure, LPAC decides if a conflict of interest or related party transaction exists
- If a conflict of interest exists, the LPAC shall appoint a disinterested person or committee to investigate alternatives to the proposed transaction of arrangement.
- After due diligence, the LPAC will determine whether the Fund can obtain a more advantageous transaction of arrangement from a person or entity that does not have a conflict of interest.
- If a more advantageous alternative is not possible, the LPAC will determine by majority vote of disinterested members whether the proposed transaction or arrangement is the in Fund's best interest, for its own benefit, and whether it is fair and reasonable.

Overview

PE 02	Mandatory	Public	Core Assessed	PRI 2
-------	-----------	--------	---------------	-------

PE 02.1 Indicate whether your organisation's investment activities are guided by a responsible investment policy / follow responsible investment guidelines.

- Our investment activities are guided by a responsible investment policy

PE 02.2 Describe how your organisation outlines expectations on staff and portfolio companies' approach towards ESG issues in investment activities.

Given that social impact is central to ALCP's investment philosophy, all staff members are required to understand the responsible investment policy. Analyzing social impact of current and potential investees is part of the daily activities of staff. In addition, the manager has developed an ESG assessment methodology. All investment staff members are trained on this methodology and are required to implement it as part of the due diligence and post-investment processes.

Regarding portfolio companies, ALCP is explicit since early communications regarding its interest in investing in social impact as well as requirements regarding ESG compliance. ALCP requires each company to report on changes to ESG policies or ESG events each fiscal year.

- Our investment activities are not guided by a responsible investment policy
- We do not have a responsible investment policy

Pre-investment (selection)

PE 05	Mandatory	Public	Gateway	PRI 1
-------	-----------	--------	---------	-------

PE 05.1	During due-diligence indicate if your organisation typically incorporates ESG issues when selecting private equity investments.
----------------	---------------------------------------------------------------------------------------------------------------------------------

Yes

PE 05.2	Describe your organisation's approach to incorporating ESG issues in private equity investment selection.
----------------	-----------------------------------------------------------------------------------------------------------

During our due diligence process, we positively select for companies that have a significant social impact on their suppliers or clients (depending on the sector). This is a pre-requisite for ALCP to be able to consider an investment. In addition, during the due diligence process, we conduct a full ESG assessment based on a framework developed internally, which incorporates IFC's ESG Performance Standards.

No
