

# CLIMATE TRANSPARENCY REPORT 2020

Qualium Investissement

# About the Climate-related Disclosure Indicators

Climate has been identified as a top priority for PRI signatories, with over 70% of asset owners reporting this as the most important long-term trend they are acting on.

The FSB Task Force's guidance on climate-related financial disclosure aim to create a single framework for disclosure on assessment and management of climate-related risk. The recommendations, supported by investors representing US\$22 trillion, identify four main disclosures, Governance, Strategy, Risk Management, Metrics and Targets, and include specific guidance for asset owners and managers.

As a result, the PRI introduced climate-related disclosure indicators that can be used to align with the TCFD recommendations in the 2020 PRI Reporting Framework.

## About this report

This report is an export of only the climate-related indicators from the 2020 Reporting Framework response. The full Public Transparency Report is available here (<https://reporting.unpri.org/surveys/PRI-reporting-framework-2020/-7DD14779-66F6-46E1-82D3-9A1AA975F148/79894dbc337a40828d895f9402aa63de/html/2/?lang=en&a=1>). It shows the responses to all the completed climate indicators, even those you chose to keep private. It is designed for your internal review or – if you wish - to share with your stakeholders.

The PRI will not publish this report on its website if you have designated your 2020 climate reporting as “private”. Otherwise, you will be able to access the Climate Transparency Report of your organisation and that of other signatories on the [PRI website](#) and on the [Data Portal](#).

To easily locate information, there is a **Recommendation index** which summarises the indicators that signatories complete and disclose. The report presents information exactly as it was reported as per signatory preference. Where an indicator offers a response option that is multiple-choice, all options that were available to the signatory are presented in this report.

# TCFD Recommendations Index

Strategy and Governance - CC			TCFD Recommendation

## Reported Information

### Public version

### Strategy and Governance

## PRI disclaimer

This document presents information reported directly by signatories. This information has not been audited by the PRI Secretariat or any other party acting on their behalf. While this information is believed to be reliable, no representations or warranties are made as to the accuracy of the information presented, and no responsibility or liability can be accepted for any error or omission.

## Investment policy

SG 01	Mandatory	Public	Core Assessed	General
-------	-----------	--------	---------------	---------

**New selection options have been added to this indicator. Please review your prefilled responses carefully.**

**SG 01.1** Indicate if you have an investment policy that covers your responsible investment approach.

SG 01 CC	Mandatory to Report Voluntary to Disclose	Public	Descriptive	General
----------	---	--------	-------------	---------

**SG 01.6 CC** Indicate whether your organisation has identified transition and physical climate-related risks and opportunities and factored this into the investment strategies and products, within the organisation's investment time horizon.

Yes

Describe the identified transition and physical climate-related risks and opportunities and how they have been factored into the investment strategies/products.

Transition and physical climate-related risks and opportunities are factored directly in the investment strategy defined in the By-Laws of the funds. As an illustration, Qualium will not consider new investment opportunities related to activities / industries having a material negative impact on climate change (for instance certain plastic manufacturing industries) or in companies that generate more than 20% of their turnover from activities related to thermal coal.

On the other hand, in its investment strategy, Qualium focuses more and more on digital and services activities with less direct impact on climate change.

No

**SG 01.7 CC** Indicate whether the organisation has assessed the likelihood and impact of these climate risks?

Yes

No

Describe why your organisation has not yet assessed the likelihood and impact of climate risks

Climate risk is publicly and commonly identified as long term major risk.

**SG 01.8 CC** Indicate whether the organisation publicly supports the TCFD?

Yes

No

Explain the rationale

not adapted to Qualium size (AUM <1Bn ; 40 LPs ; 20 peoples ; 13 investments in small or medium companies)

**SG 01.9**  
**CC** Indicate whether there is an organisation-wide strategy in place to identify and manage material climate-related risks and opportunities.

- Yes
- No

Describe how and over what time frame the organisation will implement an organisation-wide strategy that manages climate-related risks and opportunities.

Qualium Investissement is currently improving the integration of climate-related risks and opportunities. The aim is to have a closer monitoring of portfolio companies. In this way, Qualium is supported by an external advisor for the implementation.

**SG 1.10**  
**CC** Indicate the documents and/or communications the organisation uses to publish TCFD disclosures.

- Public PRI Climate Transparency Report
- Annual financial filings
- Regular client reporting
- Member communications
- Other
- We currently do not publish TCFD disclosures

**Governance and human resources**

**ESG issues in asset allocation**

SG 13	Mandatory	Public	Descriptive	PRI 1
-------	-----------	--------	-------------	-------

**SG 13.1** Indicate whether the organisation carries out scenario analysis and/or modelling, and if it does, provide a description of the scenario analysis (by asset class, sector, strategic asset allocation, etc.).

- Yes, in order to assess future ESG factors
- Yes, in order to assess future climate-related risks and opportunities
- No, our organisation does not currently carry out scenario analysis and/or modelling

**SG 13.3** Additional information. [OPTIONAL]

scenario analyses, in the event of a material impact, are carried out on a case-by-case basis during the due diligence phases and adapted according to the sector of activity

The funds managed by Qualium (since 2010) will not invest in companies that have a material negative impact on the environment, in particular through their contribution to the climate change, the water pollution, or the

diminution of biodiversity. Qualium Fund II (2018) will also not invest in business that generate more than 20% of their turnover from activities related to thermal coal.

SG 14	Mandatory to Report Voluntary to Disclose	Public	Additional Assessed	PRI 1
-------	---	--------	---------------------	-------

<b>SG 14.1</b>	Some investment risks and opportunities arise as a result of long term trends. Indicate which of the following are considered.
----------------	--

- Changing demographics
- Climate change
- Resource scarcity
- Technological developments
- Other, specify(1)
- Other, specify(2)
- None of the above

<b>SG 14.2</b>	Indicate which of the following activities you have undertaken to respond to climate change risk and opportunity
----------------	--

- Established a climate change sensitive or climate change integrated asset allocation strategy
- Targeted low carbon or climate resilient investments
- Phase out your investments in your fossil fuel holdings
- Reduced portfolio exposure to emissions intensive or fossil fuel holdings
- Used emissions data or analysis to inform investment decision making
- Sought climate change integration by companies
- Sought climate supportive policy from governments
- Other, specify
- None of the above

<b>SG 14.3</b>	Indicate which of the following tools the organisation uses to manage climate-related risks and opportunities.
----------------	--

- Scenario analysis
- Disclosures on emissions risks to clients/trustees/management/beneficiaries
- Climate-related targets
- Encouraging internal and/or external portfolio managers to monitor emissions risks
- Emissions-risk monitoring and reporting are formalised into contracts when appointing managers
- Weighted average carbon intensity
- Carbon footprint (scope 1 and 2)
- Portfolio carbon footprint
- Total carbon emissions
- Carbon intensity
- Exposure to carbon-related assets
- Other emissions metrics
- Other, specify
- None of the above

SG 15	Mandatory to Report Voluntary to Disclose	Public	Descriptive	PRI 1
-------	---	--------	-------------	-------

## SG 15.1

Indicate if your organisation allocates assets to, or manages, funds based on specific environmental and social themed areas.

- Yes  
 No
