RI TRANSPARENCY REPORT

2019

MV Credit Partners LLP

About this report

The PRI Reporting Framework is a key step in the journey towards building a common language and industry standard for reporting responsible investment (RI) activities. This RI Transparency Report is one of the key outputs of this Framework. Its primary objective is to enable signatory transparency on RI activities and facilitate dialogue between investors and their clients, beneficiaries and other stakeholders. A copy of this report will be publicly disclosed for all reporting signatories on the [PRI website](#), ensuring accountability of the PRI Initiative and its signatories.

This report is an export of the individual Signatory organisation's response to the PRI during the 2019 reporting cycle. It includes their responses to mandatory indicators, as well as responses to voluntary indicators the signatory has agreed to make public. The information is presented exactly as it was reported. Where an indicator offers a response option that is multiple-choice, all options that were available to the signatory to select are presented in this report. Presenting the information exactly as reported is a result of signatory feedback which suggested the PRI not summarise the information. As a result, the reports can be extensive. However, to help easily locate information, there is a **Principles index** which highlights where the information can be found and summarises the indicators that signatories complete and disclose.

Understanding the Principles Index

The Principles Index summarises the response status for the individual indicators and modules and shows how these relate to the six [Principles for Responsible Investment](#). It can be used by stakeholders as an 'at-a-glance' summary of reported information and to identify particular themes or areas of interest.

Indicators can refer to one or more Principles. Some indicators are not specific to any Principle. These are highlighted in the 'General' column. When multiple Principles are covered across numerous indicators, in order to avoid repetition, only the main Principle covered is highlighted.

All indicators within a module are presented below. The status of indicators is shown with the following symbols:

Symbol	Status
✓	The signatory has completed all mandatory parts of this indicator
☑	The signatory has completed some parts of this indicator
🔒	This indicator was not relevant for this signatory
-	The signatory did not complete any part of this indicator
⚠	The signatory has flagged this indicator for internal review

Within the table, indicators marked in blue are mandatory to complete. Indicators marked in grey are voluntary to complete.

SG 01.4

Describe your organisation's investment principles and overall investment strategy, interpretation of fiduciary (or equivalent) duties, and how they consider ESG factors and real economy impact.

MV Credit is a private debt investor with a core focus on European headquartered businesses. MV Credit has a formalised, written ESG investment procedures which outlines both: (i) how we incorporate ESG risk and considerations in accordance with our values, and (ii) how we undergo ESG due diligence of prospective investments. ESG valuation is a mandatory step in our investment process; and by and large it can be divided into the following steps:

As a preliminary stage, MV Credit elects to not invest in certain sectors and industries and takes a very cautious approach to investing in all businesses that could potentially negatively impact vulnerable members of society (more on question FI 04.2).

Secondly, MV Credit only considers a potential investment after confirming the related PE sponsor is a UN PRI (or equivalent) signatory. If not, and on an exceptional basis, the Manager Board reserves the right to approve the sponsor relationship based on extensive alignment of ESG values.

Thirdly, a rigorous assessment of ESG risks is conducted throughout the overall credit due diligence stage.

Finally, the underlined ESG risks are debated during the investment committee/Board and constitute a key criterion when reaching the investment decision.

SG 03.1

Indicate if your organisation has a policy on managing potential conflicts of interest in the investment process.

 Yes**SG 03.2**

Describe your policy on managing potential conflicts of interest in the investment process.

The Firm has robust conflict management procedures. Should conflicts arise these are dealt with using clear processes outlined in procedures manuals and policies set out by the Firm. These procedures and organisational guidelines were designed and successfully tested to manage such potential situations and should alleviate any potential conflicts of interest. As an example, the Firm has an allocation committee to manage allocation of investments across similar investment strategies.

ESG incorporation in actively managed fixed income

Implementation processes

FI 01	Mandatory	Public	Gateway	PRI 1
-------	-----------	--------	---------	-------

FI 01.1	Indicate (1) Which ESG incorporation strategy and/or combination of strategies you apply to your actively managed fixed income investments; and (2) The proportion (+/- 5%) of your total actively managed fixed income investments each strategy applies to.
----------------	---

Corporate (non-financial)	Screening alone	0
	Thematic alone	0
	Integration alone	0
	Screening + integration strategies	100
	Thematic + integration strategies	0
	Screening + thematic strategies	0
	All three strategies combined	0
	No incorporation strategies applied	0
	100%	

FI 01.2	Describe your reasons for choosing a particular ESG incorporation strategy and how combinations of strategies are used.
----------------	---

Whilst MV Credit invests across the capital structure, most of our funds are focused on Senior (e.g. TLB, FRN) and Subordinated lending (e.g. second Lien, PIK, preferred equity). As such, our ESG strategy development has been characterised by our non-active ownership of the underlying assets we invest in.

Since inception, MV Credit has always operated with an informal and formal investment exclusion criterion. Initially the informal aspect was driven by the managers personal investment philosophy (ethical and moral exclusions); whilst the formal criteria included further specific requests from our LPs; which were formally included in our fund documentation [See more on questions FI 04.2 and SG 01.4].

Through gradually formalising our ESG practices (e.g. becoming a UN PRI signatory in 2012 - then under CapVest) we have reached a point in our development where we currently incorporate a three step ESG / RI evaluation of prospective investments. We (i) screen potential investments through a negative/exclusionary and norms-based strategy, (ii) seek further support/ validation of ESG values through a deeper Due Diligence Assessment (integration strategies), and (iii) our findings are presented and vindicated at the investment committee / Board level.

FI 03	Mandatory	Public	Additional Assessed	PRI 1
--------------	------------------	---------------	----------------------------	--------------

FI 03.1	Indicate how you ensure that your ESG research process is robust:
----------------	---

- Comprehensive ESG research is undertaken internally to determine companies' activities; and products and/or services
- Issuers are given the opportunity by you or your research provider to review ESG research on them and correct inaccuracies
- Issuer information and/or ESG ratings are updated regularly to ensure ESG research is accurate
- Internal audits and regular reviews of ESG research are undertaken in a systematic way.
- A materiality/sustainability framework is created and regularly updated that includes all the key ESG risks and opportunities for each sector/country.
- Other, specify
- None of the above

FI 03.2	Describe how your ESG information or analysis is shared among your investment team.
----------------	---

- ESG information is held within a centralised database and is accessible to all investment staff
- ESG information is displayed on front office research platforms
- ESG information is a standard item on all individual issuer summaries, research notes, 'tear sheets', or similar documents
- Investment staff are required to discuss ESG information on issuers as a standard item during investment committee meetings
- Records capture how ESG information and research was incorporated into investment decisions
- Other, specify
- None of the above

(A) Implementation: Screening

FI 04	Mandatory	Public	Gateway	PRI 1
--------------	------------------	---------------	----------------	--------------

FI 04.1	Indicate the type of screening you conduct.

Negative/exclusionary screening			<input checked="" type="checkbox"/>	
Positive/best-in-class screening			<input type="checkbox"/>	
Norms-based screening			<input checked="" type="checkbox"/>	

FI 04.2	Describe your approach to screening for internally managed active fixed income
----------------	--

MV Credit's screening approach starts with investing only with private equity sponsors which are in line with our values. As such, our PE sponsor evaluation includes (i) an assessment as to whether the PE sponsor is a UNPRI or equivalent signatory, and (ii) if not, on an exceptional basis, the Manager Board reserves the right to approve the sponsor relationship based on extensive alignment of ESG values.

Furthermore, MV Credit elects to not invest in certain sectors and industries. First of all, we do not invest in activities outlined in the following Exclusion List, which includes revenue derived from Tobacco, Weapons, Nuclear energy, Pornography, Gambling and Alcohol. To further encourage ethical behaviour beyond this exclusion list, we also take a very cautious approach to investing in care homes, nurseries, primary schools, fossil fuels, short-term unsecured lending, and - on a case by case basis - all businesses that could potentially negatively impact vulnerable members of society due to the highly leveraged nature of the proposed transaction.

FI 06	Mandatory	Public	Core Assessed	PRI 1
--------------	------------------	---------------	----------------------	--------------

(C) Implementation: Integration

FI 10	Mandatory	Public	Descriptive	PRI 1
-------	-----------	--------	-------------	-------

FI 10.1	Describe your approach to integrating ESG into traditional financial analysis.
---------	--

An assessment of ESG risks, when making investment recommendations, is added to the Investment Memorandums to be presented to the Board. This assessment includes:

- A complete ESG investment checklist
- A complete ESG reporting checklist
- A review/list of other relevant ESG considerations addressed throughout the due diligence process. This review focuses on relevant ESG risks for each individual investment and put emphasis on how these would be addressed throughout the life of the holding of the asset (a suggested selection of considerations is listed on question FI 12.2).

Going forward, MV Credit is looking to implement an ESG scoring system, which will formalise how the Manager Board determines and evaluates ESG compliance.
