RI TRANSPARENCY REPORT

2020

Fondo Pensioni del Personale Gruppo BNL/BNP Paribas
Italia

About this report

The PRI Reporting Framework is a key step in the journey towards building a common language and industry standard for reporting responsible investment (RI) activities. This RI Transparency Report is one of the key outputs of this Framework. Its primary objective is to enable signatory transparency on RI activities and facilitate dialogue between investors and their clients, beneficiaries and other stakeholders. A copy of this report will be publicly disclosed for all reporting signatories on the [PRI website](#), ensuring accountability of the PRI Initiative and its signatories.

This report is an export of the individual Signatory organisation's response to the PRI during the 2020 reporting cycle. It includes their responses to mandatory indicators, as well as responses to voluntary indicators the signatory has agreed to make public. The information is presented exactly as it was reported. Where an indicator offers a response option that is multiple-choice, all options that were available to the signatory to select are presented in this report. Presenting the information exactly as reported is a result of signatory feedback which suggested the PRI not summarise the information. As a result, the reports can be extensive. However, to help easily locate information, there is a **Principles index** which highlights where the information can be found and summarises the indicators that signatories complete and disclose.

Understanding the Principles Index

The Principles Index summarises the response status for the individual indicators and modules and shows how these relate to the six [Principles for Responsible Investment](#). It can be used by stakeholders as an 'at-a-glance' summary of reported information and to identify particular themes or areas of interest.

Indicators can refer to one or more Principles. Some indicators are not specific to any Principle. These are highlighted in the 'General' column. When multiple Principles are covered across numerous indicators, in order to avoid repetition, only the main Principle covered is highlighted.

All indicators within a module are presented below. The status of indicators is shown with the following symbols:

Symbol	Status
✓	The signatory has completed all mandatory parts of this indicator
☑	The signatory has completed some parts of this indicator
🔒	This indicator was not relevant for this signatory
-	The signatory did not complete any part of this indicator
Ⓜ	The signatory has flagged this indicator for internal review

Within the table, indicators marked in blue are mandatory to complete. Indicators marked in grey are voluntary to complete.

OO 11.4

Provide a brief description of how your organisation includes responsible investment considerations in your investment manager selection, appointment and monitoring processes.

Integrating ESG factors into investment choices The Pension Fund, in the definition of the "Universe ESG", is supported by an Advisor specifically qualified in this assessment and the targeted selection is made according to the following criteria: 10 Principles of the UN Global Compact; well-defined sector policies; avoiding involvement in activities in controversial sectors (such as pornography, weapons, gambling, alcohol and tobacco); "Best in Class Sector" ratings.

A quality assessments is made by the Advisor define a list of securities as follows:

From Dec 1 to 3: Positive - From Dec 4 to 7: Neutral - From Dec 8 to 10: Negative

The Pension Fund monthly receives an excel sheet with a detailed analysis for these index:

MSCI North America - MSCI Europe - MSCI Pacific - Bloomberg Barclays Global Aggregate.

All the holdings are reported with an ESG score and with the weight contribution within the above indexes.

Once checked on the in/out securities (split, mergers etc.), the Pension Fund sends to the Man.Co. the investing universe for each index, stopping at the first 7 deciles, reducing the investment choice to those companies that, according to criteria defined by the Board, are eligible to invest in because of their Socially Responsible Principles.

The delegated managers will have to Man.Co. could comply with the limits imposed by the investing universe and achieve monthly performance aligned with those of the benchmark assigned (45% MSCI EUROPE - 35% MSCI N.America - 25% MSCI PACIFICO) by maximizing the rating (scoring) ESG portfolio, with annual tracking error volatility levels below 1.0%.

At the moment, the target average ESG score is about 55, with the possibility of increasing the ESG target according to the SRI assessment that the Board will impose.

The Pension Fund, the Man.Co. and the ESG Advisor perform a steady active control during the month; if there were any variations to securities (due to mergers / split etc ..) it should be immediately discussed, provided that the responsibility of the decision remains on the Fund.

Monthly the Pension Fund receives updated sector research from the ESG Review Team.

OO 11.5
