

CLIMATE TRANSPARENCY REPORT

2019

C-QUADRAT Asset Management GmbH

About the Climate-related Disclosure Indicators

Climate has been identified as a top priority for PRI signatories, with over 70% of asset owners reporting this as the most important long-term trend they are acting on.

The FSB Task Force's guidance on climate-related financial disclosure aim to create a single framework for disclosure on assessment and management of climate-related risk. The recommendations, supported by investors representing US\$22 trillion, identify four main disclosures, Governance, Strategy, Risk Management, Metrics and Targets, and include specific guidance for asset owners and managers.

As a result, the PRI introduced climate-related disclosure indicators that can be used to align with the TCFD recommendations in the 2019 PRI Reporting Framework.

About this report

This report is an export of only the climate-related indicators from the 2019 Reporting Framework response. The full Public Transparency Report is available here (https://reporting.unpri.org/surveys/PRI-reporting-framework-2019/-3A931B23-B307-4044-8516-B6272D1325CE/00000000-0000-0000-0000-000000000000/doc/2/-%7C%7C*complete*%7C*public*/Merged/). It shows the responses to all the completed climate indicators, even those you chose to keep private. It is designed for your internal review or – if you wish - to share with your stakeholders.

The PRI will not publish this report on its website if you have designated your 2019 climate reporting as “private”. Otherwise, you will be able to access the Climate Transparency Report of your organisation and that of other signatories on the [PRI website](#) and on the [Data Portal](#).

To easily locate information, there is a **Recommendation index** which summarises the indicators that signatories complete and disclose. The report presents information exactly as it was reported as per signatory preference. Where an indicator offers a response option that is multiple-choice, all options that were available to the signatory are presented in this report.

Investment policy

SG 01

Mandatory

Public

Core Assessed

General

New selection options have been added to this indicator. Please review your prefilled responses carefully.

SG 01.1

Indicate if you have an investment policy that covers your responsible investment approach.

Yes

SG 01.2

Indicate the components/types and coverage of your policy.

Select all that apply

Policy components/types	Coverage by AUM
<input checked="" type="checkbox"/> Policy setting out your overall approach <input type="checkbox"/> Formalised guidelines on environmental factors <input type="checkbox"/> Formalised guidelines on social factors <input type="checkbox"/> Formalised guidelines on corporate governance factors <input type="checkbox"/> Fiduciary (or equivalent) duties <input type="checkbox"/> Asset class-specific RI guidelines <input type="checkbox"/> Sector specific RI guidelines <input type="checkbox"/> Screening / exclusions policy <input type="checkbox"/> Engagement policy <input type="checkbox"/> (Proxy) voting policy <input type="checkbox"/> Other, specify (1) <input type="checkbox"/> Other, specify(2)	<input type="radio"/> Applicable policies cover all AUM <input checked="" type="radio"/> Applicable policies cover a majority of AUM <input type="radio"/> Applicable policies cover a minority of AUM

SG 01.3

Indicate if the investment policy covers any of the following

- Your organisation's definition of ESG and/or responsible investment and it's relation to investments
- Your investment objectives that take ESG factors/real economy influence into account
- Time horizon of your investment
- Governance structure of organisational ESG responsibilities
- ESG incorporation approaches
- Active ownership approaches
- Reporting
- Climate change
- Understanding and incorporating client / beneficiary sustainability preferences
- Other RI considerations, specify (1)
- Other RI considerations, specify (2)

SG 01.4

Describe your organisation's investment principles and overall investment strategy, interpretation of fiduciary (or equivalent) duties, and how they consider ESG factors and real economy impact.

Investments are analyzed with regards to a double bottom line, on one hand possible investments have to be able to generate a financial return on the other hand a social/ESG return. The guidelines are formalized by a best in class approach, a social analysis framework and exclusion criteria.

For example the principal objective of the Dual Return Fund - Vision Microfinance is to enable investors an involvement in the microfinance industry. The fund is dedicated to the concept of responsible investment by being committed to develop and implement environmental, social and governance (ESG) principles in daily fund management contributing to increasing transparency in the microfinance industry. Each investment's social return is analyzed on the basis of seven criteria including governance, labor climate, environmental policy, financial inclusion etc. as the investments are reaching the real economy.

If an investment fulfills these criteria it's impact on the existing allocation is analyzed and in a next step proposed to the risk management for an independent check. If the feedback is positive the investment can be pursued.

SG 01.5

Provide a brief description of the key elements, any variations or exceptions to your investment policy that covers your responsible investment approach. [Optional]

The key elements with regards to:

- financial return include: the classic investment banking metrics e.g. profitability ratios, margin analysis
- social return include: governance, labor climate, environmental policy, financial inclusion, community engagement, product quality, client protection etc.

An exclusion list complements the investment policy/strategy.

No

ESG issues in asset allocation

SG 13	Mandatory	Public	Descriptive	PRI 1
--------------	------------------	---------------	--------------------	--------------

SG 13.1	Indicate whether the organisation undertakes scenario analysis and/or modelling and provide a description of the scenario analysis (by asset class, sector, strategic asset allocation, etc.).
----------------	--

- Yes, to assess future ESG factors
- Yes, to assess future climate-related risks and opportunities
- No, not to assess future ESG/climate-related issues

SG 14	Mandatory to Report Voluntary to Disclose	Public	Additional Assessed	PRI 1
--------------	--	---------------	----------------------------	--------------

SG 14.1	Some investment risks and opportunities arise as a result of long term trends. Indicate which of the following are considered.
----------------	--

- Changing demographics
- Climate change
- Resource scarcity
- Technological developments
- Other, specify(1)
- Other, specify(2)
- None of the above

SG 14.2 Indicate which of the following activities you have undertaken to respond to climate change risk and opportunity

- Established a climate change sensitive or climate change integrated asset allocation strategy
- Targeted low carbon or climate resilient investments
- Phase out your investments in your fossil fuel holdings
- Reduced portfolio exposure to emissions intensive or fossil fuel holdings
- Used emissions data or analysis to inform investment decision making
- Sought climate change integration by companies
- Sought climate supportive policy from governments
- Other, specify

other description

- C-QUADRAT becoming climate neutral
- None of the above

SG 14.3 Indicate which of the following tools the organisation uses to manage climate-related risks and opportunities.

- Scenario analysis
- Disclosures on emissions risks to clients/trustees/management/beneficiaries
- Climate-related targets
- Encouraging internal and/or external portfolio managers to monitor emissions risks
- Emissions-risk monitoring and reporting are formalised into contracts when appointing managers
- Weighted average carbon intensity
- Carbon footprint (scope 1 and 2)
- Portfolio carbon footprint
- Total carbon emissions
- Carbon intensity
- Exposure to carbon-related assets
- Other emissions metrics
- Other, specify
- None of the above

SG 14 CC	Voluntary	Public	General
-----------------	------------------	---------------	----------------

SG 14.6 CC Please provide further details on these key metric(s) used to assess climate related risks and opportunities.

Metric Type	Coverage	Purpose	Metric Unit	Metric Methodology
Carbon footprint (scope 1 and 2)	<input type="checkbox"/> All assets <input type="checkbox"/> Majority of assets <input checked="" type="checkbox"/> Minority of assets			

SG 14.8
CC Indicate whether climate-related risks are integrated into overall risk management and explain the risks management processes for identifying, assessing, and managing climate-related risks.

- Process for climate-related risks is integrated into overall risk management
- Process for climate-related risks is not integrated into our overall risk management

SG 14.9
CC Indicate whether the organisation undertakes active ownership activities to encourage TCFD adoption.

- Yes
- No, we do not engage

SG 15	Mandatory to Report Voluntary to Disclose	Public	Descriptive	PRI 1
--------------	--	---------------	--------------------	--------------

SG 15.1 Indicate if your organisation allocates assets to, or manages, funds based on specific environmental and social themed areas.

- Yes

SG 15.2 Indicate the percentage of your total AUM invested in environmental and social themed areas.

%

25

SG 15.3 Specify which thematic area(s) you invest in, indicate the percentage of your AUM in the particular asset class and provide a brief description.

Area

- Energy efficiency / Clean technology
- Renewable energy
- Green buildings
- Sustainable forestry
- Sustainable agriculture
- Microfinance

Asset class invested

- Listed equity
- Fixed income - SSA
- Fixed income - Corporate (financial)
- Fixed income - Corporate (non-financial)
- Fixed income - Securitised
- Inclusive finance

% of AUM

20

Brief description and measures of investment

C-QUADRAT launched its first Microfinance fund in 2006, the "Dual Return Vision Microfinance Fund". In 2010 the "Dual Return Vision Microfinance Local Currency Fund" was launched, which is unique in the investment philosophy of giving loans to microfinance institutions in the regional local currency. This helps MFIs to reduce transaction costs (e.g. a MFI does not have to hedge a foreign currency exposure like the US-Dollar in the portfolio anymore) and this saving can be passed on to microentrepreneurs in the form of lower interest rates. To date over 1,3billion USD have been handed out in the form of more than 1000 promissory notes to around 400 different MFIs in almost 60 countries. This meaningful and sustainable help for self-help permits families access to food, medical care and education for their children. Until today the lives of more than one million people have been transformed with the help of the Vision Microfinance Funds.
