RI TRANSPARENCY REPORT

2018

ICE Canyon LLC

About this report

The PRI Reporting Framework is a key step in the journey towards building a common language and industry standard for reporting responsible investment (RI) activities. This RI Transparency Report is one of the key outputs of this Framework. Its primary objective is to enable signatory transparency on RI activities and facilitate dialogue between investors and their clients, beneficiaries and other stakeholders. A copy of this report will be publicly disclosed for all reporting signatories on the [PRI website](#), ensuring accountability of the PRI Initiative and its signatories.

This report is an export of the individual Signatory organisation's response to the PRI during the 2018 reporting cycle. It includes their responses to mandatory indicators, as well as responses to voluntary indicators the signatory has agreed to make public. The information is presented exactly as it was reported. Where an indicator offers a response option that is multiple-choice, all options that were available to the signatory to select are presented in this report. Presenting the information exactly as reported is a result of signatory feedback which suggested the PRI not summarise the information. As a result, the reports can be extensive. However, to help easily locate information, there is a **Principles index** which highlights where the information can be found and summarises the indicators that signatories complete and disclose.

Understanding the Principles Index

The Principles Index summarises the response status for the individual indicators and modules and shows how these relate to the six [Principles for Responsible Investment](#). It can be used by stakeholders as an 'at-a-glance' summary of reported information and to identify particular themes or areas of interest.

Indicators can refer to one or more Principles. Some indicators are not specific to any Principle. These are highlighted in the 'General' column. When multiple Principles are covered across numerous indicators, in order to avoid repetition, only the main Principle covered is highlighted.

All indicators within a module are presented below. The status of indicators is shown with the following symbols:

Symbol	Status
✓	The signatory has completed all mandatory parts of this indicator
☑	The signatory has completed some parts of this indicator
🔒	This indicator was not relevant for this signatory
-	The signatory did not complete any part of this indicator
Ⓜ	The signatory has flagged this indicator for internal review

Within the table, indicators marked in blue are mandatory to complete. Indicators marked in grey are voluntary to complete.

ICE Canyon seeks to incorporate UN Principles for Responsible Investment and ESG standards into investment underwriting and the formation of our investment strategies.

ICE Canyon is making a difference in four ways:

- Fully integrating ESG factors into our investment process-risk estimation, discovering hidden value, or challenging companies on their strategy for sustainability - Targeting our investments to leading companies that are managing for sustainability; §Mobilizing other investors or investment managers to adopt SRI/PRI and collectively strengthen the role of the capital markets in long-term sustainability; - Strengthening the disciplinary potential of the capital markets and capacity of the markets to allocate capital to the right types of companies.

By incorporating PRI into our investment approach, products and strategies, we expect to enhance investment performance and long-term value creation.

PRI and ESG factors add an important dimension to our global investment footprint and to our fiduciary responsibility.

SG 01.5	Provide a brief description of the key elements, any variations or exceptions to your investment policy that covers your responsible investment approach. [Optional]
----------------	--

- PRINCIPLE 1: We seek to incorporate ESG issues into investment analysis and decision-making processes by directly and indirectly incorporating ESG issues into investment analysis, strategy, and asset allocation and by supporting the development and adoption of ESG-related tools, metrics, and analytics.
- PRINCIPLE 2: We seek to establish formal long-term goals using active Exclusion and Inclusion targets based on ESG criteria and leverage our strong relationships with leading EM companies to engage directly on ESG issues.
- PRINCIPLE 3: We will seek appropriate disclosure on ESG issues by the companies in which we invest by advocating for systematic reporting practices in annual and interim financial reports and actively participating in creditor initiatives to promote uniform ESG disclosure.
- PRINCIPLE 4: We will seek to promote understanding, acceptance, and implementation of the Principles within the global investment industry.
- PRINCIPLE 5: We will widely collaborate to enhance our effectiveness in implementing the Principles.
- PRINCIPLE 6: We will report regularly on our activities and progress towards implementing the Principles.

FI 03.1 Indicate how you ensure that your ESG research process is robust:

- Issuers are given the opportunity by you or your research provider to review ESG research on them and correct inaccuracies
- Issuer information and/or ESG ratings are updated regularly to ensure ESG research is accurate
- Internal audits of ESG research are undertaken in a systematic way
- ESG analysis is benchmarked for quality against other providers
- Other, specify

specify description

- The investment team routinely monitors how well we are taking ESG issues into consideration.
- None of the above

FI 03.2 Describe how your ESG information or analysis is shared among your investment team.

- ESG information is held within a centralised database and is accessible to all investment staff
- ESG information is a standard item on all individual issuer summaries, 'tear sheets', 'dashboards' or similar documents
- Investment staff are required to discuss ESG information on issuers as a standard item during investment committee meetings
- Records capture how ESG information and research was incorporated into investment decisions
- Other, specify
- None of the above
