RI TRANSPARENCY REPORT

2020

CPE Capital (CPEC)

About this report

The PRI Reporting Framework is a key step in the journey towards building a common language and industry standard for reporting responsible investment (RI) activities. This RI Transparency Report is one of the key outputs of this Framework. Its primary objective is to enable signatory transparency on RI activities and facilitate dialogue between investors and their clients, beneficiaries and other stakeholders. A copy of this report will be publicly disclosed for all reporting signatories on the [PRI website](#), ensuring accountability of the PRI Initiative and its signatories.

This report is an export of the individual Signatory organisation's response to the PRI during the 2020 reporting cycle. It includes their responses to mandatory indicators, as well as responses to voluntary indicators the signatory has agreed to make public. The information is presented exactly as it was reported. Where an indicator offers a response option that is multiple-choice, all options that were available to the signatory to select are presented in this report. Presenting the information exactly as reported is a result of signatory feedback which suggested the PRI not summarise the information. As a result, the reports can be extensive. However, to help easily locate information, there is a **Principles index** which highlights where the information can be found and summarises the indicators that signatories complete and disclose.

Understanding the Principles Index

The Principles Index summarises the response status for the individual indicators and modules and shows how these relate to the six [Principles for Responsible Investment](#). It can be used by stakeholders as an 'at-a-glance' summary of reported information and to identify particular themes or areas of interest.

Indicators can refer to one or more Principles. Some indicators are not specific to any Principle. These are highlighted in the 'General' column. When multiple Principles are covered across numerous indicators, in order to avoid repetition, only the main Principle covered is highlighted.

All indicators within a module are presented below. The status of indicators is shown with the following symbols:

Symbol	Status
✓	The signatory has completed all mandatory parts of this indicator
☑	The signatory has completed some parts of this indicator
🔒	This indicator was not relevant for this signatory
-	The signatory did not complete any part of this indicator
Ⓜ	The signatory has flagged this indicator for internal review

Within the table, indicators marked in blue are mandatory to complete. Indicators marked in grey are voluntary to complete.

CPE Capital ("CPEC") was one the first Australian private equity managers to become a signatory of the United Nations Principles for Responsible Investment ("UNPRI"), in 2009. CPEC believes that responsible investing leads to sustainable and enhanced returns. ESG considerations are therefore considered throughout the full lifecycle of each investment.

The Investment Team and Investment Committee are responsible for taking ESG considerations into account when making investment decisions. The ultimate responsibility for implementation of the ESG framework is with the CPEC Board

CPEC's focus on key ESG factors begins at the due diligence stage where it considers material and potential ESG risks and opportunities.

The investment team recognizes that CPEC has a significant role to play and believe that integrating ESG into our investment process will enhance value.

Key ESG findings are included in the final Investment Papers (White Papers) and 100 Day Plans to ensure that the Investment Committee is fully informed on the ESG matters and the various sector specific ESG issues are prioritised.

Post-acquisition, an ESG reporting template is integrated into the board papers, which assists in identifying and managing ESG related risks and opportunities on an ongoing basis.

SG 01.4

Describe your organisation's investment principles and overall investment strategy, interpretation of fiduciary (or equivalent) duties, and how they consider ESG factors and real economy impact.

CPE Capital's active ownership model will minimise risk factors and add ESG value to investments by integrating the consideration of ESG issues into its continuing governance and management frameworks.

The CPE Capital Investment Team, often in conjunction with external ESG experts, works closely with management to assess and monitor ESG risks and opportunities and then report on ESG performance.

CPE Capital believes that integrating ESG criteria into its investment process will enhance value for CPE Capital's stakeholders. CPE Capital will appropriately consider, monitor, disclose and engage on material environmental, social and governance issues of relevance to its stakeholders.

Please see the 'CPE Capital Policy on Responsible Investment' document for further details.

Environmental Impact Studies will be obtained during due diligence for target companies that have an environmental element to their business. All investment papers contain an ESG section detailing material ESG issues. CPE Capital has developed an ESG reporting template for inclusion in the portfolio company board reports, this is implemented as part of the 100 day plan.

ESG Integration in the Investment Process

As part of our pre-investment due diligence process, ESG considerations are incorporated as standard practice in our Investment Committee discussion papers and 100 Day Plans and the various sector specific ESG issues are prioritised, with a focus being on the most important in the short/medium term.

With regard to post acquisition engagement, the investment team will be required to define company specific ESG indicators and ensure that the target company will be equipped with the tools to monitor and measure ESG practices.

Our aim with this investment approval integration is to develop a better understanding of how ESG issues can be intelligently translated into incremental investment returns ultimately for the benefit of both CPE Capital and its investors.

Pre-investment (selection)

PE 05	Mandatory	Public	Gateway	PRI 1
-------	-----------	--------	---------	-------

PE 05.1	During due-diligence indicate if your organisation typically incorporates ESG issues when selecting private equity investments.
----------------	---------------------------------------------------------------------------------------------------------------------------------

Yes

PE 05.2	Describe your organisation's approach to incorporating ESG issues in private equity investment selection.
----------------	-----------------------------------------------------------------------------------------------------------

CPE Capital's focus on key ESG factors begins at the due diligence stage where it considers material and potential ESG risks and opportunities. Key ESG findings are included in White Papers and 100 Day Plans to ensure that the Investment Committee is fully informed on the ESG matters and the various sector specific ESG issues are prioritised. Post-acquisition, an ESG reporting template is integrated into the board papers, which assists in identifying and managing ESG related risks and opportunities on an ongoing basis.

PE 09.4 Additional information. [Optional]

While CPE Capital doesn't set specific ESG targets for our portfolio companies, the companies have their own internal ESG targets / projects and CPE Capital monitors the progress of each. ESG reporting of targets can take a number of forms:

Portfolio Company reporting to CPE Capital

CPE Capital works with its portfolio companies to agree on the appropriate reporting on relevant ESG issues.

Annual Reporting

A portfolio company's annual ESG statement to CPE Capital will capture:

- Performance against its ESG management plan;
- Any changes to material ESG issues and/or changes to its ESG management plan; and
- Priorities and areas of focus for the coming year.

Quarterly Reporting

The progress against the ESG management plan will be also be monitored by CPE Capital and the Board of the company through regular reporting by management.

CPE Capital'S ESG reporting to Limited Partners

CPE Capital will provide its LPs with periodic updates on the status of ESG management plans of each of their portfolio companies.

Ad hoc LP Engagement

In addition to its periodic reporting, CPE Capital will:

- Respond to formal or informal requests for information; and
- Update LPs on particular ESG issues affecting funds or portfolio companies.
