RI TRANSPARENCY REPORT

2020

Causeway Capital

About this report

The PRI Reporting Framework is a key step in the journey towards building a common language and industry standard for reporting responsible investment (RI) activities. This RI Transparency Report is one of the key outputs of this Framework. Its primary objective is to enable signatory transparency on RI activities and facilitate dialogue between investors and their clients, beneficiaries and other stakeholders. A copy of this report will be publicly disclosed for all reporting signatories on the [PRI website](#), ensuring accountability of the PRI Initiative and its signatories.

This report is an export of the individual Signatory organisation's response to the PRI during the 2020 reporting cycle. It includes their responses to mandatory indicators, as well as responses to voluntary indicators the signatory has agreed to make public. The information is presented exactly as it was reported. Where an indicator offers a response option that is multiple-choice, all options that were available to the signatory to select are presented in this report. Presenting the information exactly as reported is a result of signatory feedback which suggested the PRI not summarise the information. As a result, the reports can be extensive. However, to help easily locate information, there is a **Principles index** which highlights where the information can be found and summarises the indicators that signatories complete and disclose.

Understanding the Principles Index

The Principles Index summarises the response status for the individual indicators and modules and shows how these relate to the six [Principles for Responsible Investment](#). It can be used by stakeholders as an 'at-a-glance' summary of reported information and to identify particular themes or areas of interest.

Indicators can refer to one or more Principles. Some indicators are not specific to any Principle. These are highlighted in the 'General' column. When multiple Principles are covered across numerous indicators, in order to avoid repetition, only the main Principle covered is highlighted.

All indicators within a module are presented below. The status of indicators is shown with the following symbols:

Symbol	Status
✓	The signatory has completed all mandatory parts of this indicator
☑	The signatory has completed some parts of this indicator
🔒	This indicator was not relevant for this signatory
-	The signatory did not complete any part of this indicator
⚠	The signatory has flagged this indicator for internal review

Within the table, indicators marked in blue are mandatory to complete. Indicators marked in grey are voluntary to complete.

Causeway Capital Partners I LP invests in SMEs with strong growth potential. We have an entrepreneurial approach to portfolio management and seek to accelerate growth through direct equity investment and hands-on management support. We have therefore always considered ourselves to be a responsible investor. ESG issues impact the communities where Causeway and our portfolio companies operate. As a fund manager, Causeway Capital recognises this and is committed to assessing and managing material ESG risks in its decision making, both in relation to pre-investment diligence and portfolio management. We do not expect that all of our portfolio companies will necessarily meet all of the minimum standards immediately following our investment. However, we do expect the executive management team to be fully committed to meeting the minimum standards within a reasonable timeframe and Causeway will support them to do so.

SG 01.5

Provide a brief description of the key elements, any variations or exceptions to your investment policy that covers your responsible investment approach. [Optional]

Our policy is, to the best of our ability, to:

Comply with all relevant regulations, at Causeway and at our portfolio companies, in the countries in which we operate

Manage and minimise our own direct ESG impacts

Integrate ESG considerations into all stages of the deal cycle -in relation to pre-investment diligence and portfolio management, and also at exit

Encourage portfolio companies to consider and address all ESG issues relevant to their business, with the aim of delivering continuous improvement

Track and report progress of ESG initiatives at portfolio companies
