# RI TRANSPARENCY REPORT

## 2020

Trium Capital LLP

## About this report

The PRI Reporting Framework is a key step in the journey towards building a common language and industry standard for reporting responsible investment (RI) activities. This RI Transparency Report is one of the key outputs of this Framework. Its primary objective is to enable signatory transparency on RI activities and facilitate dialogue between investors and their clients, beneficiaries and other stakeholders. A copy of this report will be publicly disclosed for all reporting signatories on the [PRI website](#), ensuring accountability of the PRI Initiative and its signatories.

This report is an export of the individual Signatory organisation's response to the PRI during the 2020 reporting cycle. It includes their responses to mandatory indicators, as well as responses to voluntary indicators the signatory has agreed to make public. The information is presented exactly as it was reported. Where an indicator offers a response option that is multiple-choice, all options that were available to the signatory to select are presented in this report. Presenting the information exactly as reported is a result of signatory feedback which suggested the PRI not summarise the information. As a result, the reports can be extensive. However, to help easily locate information, there is a **Principles index** which highlights where the information can be found and summarises the indicators that signatories complete and disclose.

## Understanding the Principles Index

The Principles Index summarises the response status for the individual indicators and modules and shows how these relate to the six [Principles for Responsible Investment](#). It can be used by stakeholders as an 'at-a-glance' summary of reported information and to identify particular themes or areas of interest.

Indicators can refer to one or more Principles. Some indicators are not specific to any Principle. These are highlighted in the 'General' column. When multiple Principles are covered across numerous indicators, in order to avoid repetition, only the main Principle covered is highlighted.

All indicators within a module are presented below. The status of indicators is shown with the following symbols:

Symbol	Status
✓	The signatory has completed all mandatory parts of this indicator
☑	The signatory has completed some parts of this indicator
🔒	This indicator was not relevant for this signatory
-	The signatory did not complete any part of this indicator
Ⓜ	The signatory has flagged this indicator for internal review

Within the table, indicators marked in blue are mandatory to complete. Indicators marked in grey are voluntary to complete.

**SG 01.4**

Describe your organisation's investment principles and overall investment strategy, interpretation of fiduciary (or equivalent) duties, and how they consider ESG factors and real economy impact.

Trium Capital LLPs ("Trium") portfolio managers ("the managers") are proven managers with exceptional pedigree. The managers focus on managing their specific liquid portfolio's respectively, whilst Trium's control groups ensure high standards of governance and risk management within a robust trading ecosystem.

Furthermore, Trium's ethos is to partner with its investors to deliver and develop investment products that continue to meet their investor needs into the long-term. Trium has a progressive approach to fee structures and are committed to making sure that its interests and, in turn that of its employees, are all aligned to its investor partners.

Trium considers ESG factors to help ensure that assets under its stewardship are managed in a way which optimises its investors' risk and reward objectives. This includes varying degrees of ESG analysis based on the relevance of such factors to each underlying investment strategy. Alongside wider ESG consideration, Trium is actively broadening its suite of ESG strategies and had two ESG products that involve engagement with companies and target ESG 'improver' companies to invest in.

<b>SG 03.2</b>	Describe your policy on managing potential conflicts of interest in the investment process.
----------------	---

Trium Capital is regulated by the Financial Conduct Authority ("FCA"), and registered with the NFA. Trium Capital LLP ("Trium" and/or the "Firm") has a fiduciary duty to manage and deal in the best interests of its clients and - where applicable - the investors in the AIFs in respect of which the Firm acts as AIFM. Further, the Central Bank of Ireland requires managers of Irish UCITS funds to establish a conflicts of interest policy which must as a minimum include:

- The identification of, with reference to the collective portfolio management activities carried out by or on behalf of the UCITS funds, the circumstances which constitute or may give rise to a conflict of interest entailing a material risk of damage to the interests of the CIS or one or more other clients;&
- Procedures to be followed and measures to be adopted in order to manage such conflicts.

Trium therefore has an obligation to manage and deal in the best interests of its clients. Trium's Conflicts of Interest ("COI") policy identifies a number of potential conflicts that could arise along with measures to manage them. This policy is available to the PRI on request.
