

CLIMATE TRANSPARENCY REPORT 2020

Développement international Desjardins

About the Climate-related Disclosure Indicators

Climate has been identified as a top priority for PRI signatories, with over 70% of asset owners reporting this as the most important long-term trend they are acting on.

The FSB Task Force's guidance on climate-related financial disclosure aim to create a single framework for disclosure on assessment and management of climate-related risk. The recommendations, supported by investors representing US\$22 trillion, identify four main disclosures, Governance, Strategy, Risk Management, Metrics and Targets, and include specific guidance for asset owners and managers.

As a result, the PRI introduced climate-related disclosure indicators that can be used to align with the TCFD recommendations in the 2020 PRI Reporting Framework.

About this report

This report is an export of only the climate-related indicators from the 2020 Reporting Framework response. The full Public Transparency Report is available here (<https://reporting.unpri.org/surveys/PRI-reporting-framework-2020/-B7DAA4F1-94F4-45D0-A34C-C798DE8C9B31/79894dbc337a40828d895f9402aa63de/html/2/?lang=en&a=1>). It shows the responses to all the completed climate indicators, even those you chose to keep private. It is designed for your internal review or – if you wish - to share with your stakeholders.

The PRI will not publish this report on its website if you have designated your 2020 climate reporting as “private”. Otherwise, you will be able to access the Climate Transparency Report of your organisation and that of other signatories on the [PRI website](#) and on the [Data Portal](#).

To easily locate information, there is a **Recommendation index** which summarises the indicators that signatories complete and disclose. The report presents information exactly as it was reported as per signatory preference. Where an indicator offers a response option that is multiple-choice, all options that were available to the signatory are presented in this report.

----------	-------------------------------------------	--------	-------------	---------

SG 01.6 CC Indicate whether your organisation has identified transition and physical climate-related risks and opportunities and factored this into the investment strategies and products, within the organisation's investment time horizon.

Yes

Describe the identified transition and physical climate-related risks and opportunities and how they have been factored into the investment strategies/products.

DID has developed an Environmental Reference Framework identifying such risks and opportunities with different levers of impact:

1. Environmental and social risk management
2. Green microfinance products and services
3. Internal ecological footprint reduction
4. Designing projects with an environmental purpose

This framework is incorporated into the investment process

No

SG 01.7 CC Indicate whether the organisation has assessed the likelihood and impact of these climate risks?

Yes

No

Describe why your organisation has not yet assessed the likelihood and impact of climate risks

DID did not itself undertake the assessment of impacts and probabilities of climate related risks.

SG 01.8 CC Indicate whether the organisation publicly supports the TCFD?

Yes

No

Explain the rationale

DID is a non-profit organisation initiated by the Desjardins Group, which supports the initiative. We agree with the TCFD and its recommendations but did not separately endorse.

SG 01.9 CC Indicate whether there is an organisation-wide strategy in place to identify and manage material climate-related risks and opportunities.

Yes

Describe

We are currently in the process of researching and reviewing such strategy with the goal of better incorporating climate-related risks and opportunities in the investment process

No

SG 1.10 CC Indicate the documents and/or communications the organisation uses to publish TCFD disclosures.
