RI TRANSPARENCY REPORT

2017

Montagu Private Equity

About this report

The PRI Reporting Framework is a key step in the journey towards building a common language and industry standard for reporting responsible investment (RI) activities. This RI Transparency Report is one of the key outputs of this Framework. Its primary objective is to enable signatory transparency on RI activities and facilitate dialogue between investors and their clients, beneficiaries and other stakeholders. A copy of this report will be publicly disclosed for all reporting signatories on the [PRI website](#), ensuring accountability of the PRI Initiative and its signatories.

This report is an export of the individual Signatory organisation's response to the PRI during the 2017 reporting cycle. It includes their responses to mandatory indicators, as well as responses to voluntary indicators the signatory has agreed to make public. The information is presented exactly as it was reported. Where an indicator offers a response option that is multiple-choice, all options that were available to the signatory to select are presented in this report. Presenting the information exactly as reported is a result of signatory feedback which suggested the PRI not summarise the information. As a result, the reports can be extensive. However, to help easily locate information, there is a **Principles index** which highlights where the information can be found and summarises the indicators that signatories complete and disclose.

Understanding the Principles Index

The Principles Index summarises the response status for the individual indicators and modules and shows how these relate to the six [Principles for Responsible Investment](#). It can be used by stakeholders as an 'at-a-glance' summary of reported information and to identify particular themes or areas of interest.

Indicators can refer to one or more Principles. Some indicators are not specific to any Principle. These are highlighted in the 'General' column. When multiple Principles are covered across numerous indicators, in order to avoid repetition, only the main Principle covered is highlighted.

All indicators within a module are presented below. The status of indicators is shown with the following symbols:

Symbol	Status
✓	The signatory has completed all mandatory parts of this indicator
☑	The signatory has completed some parts of this indicator
🔒	This indicator was not relevant for this signatory
-	The signatory did not complete any part of this indicator
Ⓜ	The signatory has flagged this indicator for internal review

Within the table, indicators marked in blue are mandatory to complete. Indicators marked in grey are voluntary to complete.

SG 03.1

Indicate if your organisation has a policy on managing potential conflicts of interest in the investment process.

Yes

SG 03.2

Describe your policy on managing potential conflicts of interest in the investment process.

Montagu, as an AIFM and FCA registered entity, is required to identify and manage conflicts of interest which arise or may arise in its business. Montagu's investment professionals are not directly remunerated on the basis of specific investment recommendations and Montagu obtains investment research only from independent providers of investment research and analysis to ensure that when they make investment decisions/recommendations they are not influenced by any conflicts of interest.

Montagu personnel must gain the prior agreement in writing of the Chief Executive if they wish to enter into a business partnership, take up an external (non-Montagu related) directorship, engage in any other business, and/or take any remunerative position outside Montagu.

All Montagu Staff should inform the Company Secretary and the Compliance Officer of any directorships or other offices held by them. Montagu will maintain a database of all such interests to enable it to identify and manage any actual or potential conflicts of interest that may arise as a result. Potential conflicts arising from the holding of an external office by Montagu Staff will be managed by disclosure where possible and appropriate.
