# RI TRANSPARENCY REPORT

## 2020

Chahine Capital

## About this report

The PRI Reporting Framework is a key step in the journey towards building a common language and industry standard for reporting responsible investment (RI) activities. This RI Transparency Report is one of the key outputs of this Framework. Its primary objective is to enable signatory transparency on RI activities and facilitate dialogue between investors and their clients, beneficiaries and other stakeholders. A copy of this report will be publicly disclosed for all reporting signatories on the [PRI website](#), ensuring accountability of the PRI Initiative and its signatories.

This report is an export of the individual Signatory organisation's response to the PRI during the 2020 reporting cycle. It includes their responses to mandatory indicators, as well as responses to voluntary indicators the signatory has agreed to make public. The information is presented exactly as it was reported. Where an indicator offers a response option that is multiple-choice, all options that were available to the signatory to select are presented in this report. Presenting the information exactly as reported is a result of signatory feedback which suggested the PRI not summarise the information. As a result, the reports can be extensive. However, to help easily locate information, there is a **Principles index** which highlights where the information can be found and summarises the indicators that signatories complete and disclose.

## Understanding the Principles Index

The Principles Index summarises the response status for the individual indicators and modules and shows how these relate to the six [Principles for Responsible Investment](#). It can be used by stakeholders as an 'at-a-glance' summary of reported information and to identify particular themes or areas of interest.

Indicators can refer to one or more Principles. Some indicators are not specific to any Principle. These are highlighted in the 'General' column. When multiple Principles are covered across numerous indicators, in order to avoid repetition, only the main Principle covered is highlighted.

All indicators within a module are presented below. The status of indicators is shown with the following symbols:

Symbol	Status
✓	The signatory has completed all mandatory parts of this indicator
☑	The signatory has completed some parts of this indicator
🔒	This indicator was not relevant for this signatory
-	The signatory did not complete any part of this indicator
Ⓜ	The signatory has flagged this indicator for internal review

Within the table, indicators marked in blue are mandatory to complete. Indicators marked in grey are voluntary to complete.

- We do not cast our (proxy) votes directly and do not require external managers to vote on our behalf

**OO 10.3** Indicate why you do not cast your votes

- Indicate why you do not cast your votes
  - We have not cast our votes so far, because our investment process makes it difficult to deal with this with the current resources. However, we are now actively pursuing the implementation of a solution involving proxy voting with the help of external resources.
  - We do not cast our votes but provide substantive research and voting recommendations to our clients.

Chahine Capital is an independent management company based in Luxembourg and a pioneer in quantitative Momentum management applied to long-only equity strategies.

Chahine Capital manages the Digital Funds SICAV, founded in 1998. Digital Funds apply a long-only strategy on momentum applied to European or American listed equities.

Starting with the analysis of a considerable amount of financial data, our algorithmic models identify Stars companies which offer a good potential of outperforming the markets.

Our dynamic and quantitative investment process is 100% bottom-up. Its added value results of an active selection of securities.

This process is extremely rigorous : any unintentional bias, risk factors, the weight of each security in our portfolios, their liquidity, are all strictly controlled.

SG 03.2	Describe your policy on managing potential conflicts of interest in the investment process.
---------	---

Mechanism to manage a conflict of interest at J.Chahine Capital:

- the detected conflict of interest is identified by the Compliance Officer, or brought to his attention by the concerned employee;
- the Head of Compliance must propose a solution to deal with the conflict, giving priority to the interest of the client or the UCITS under management, and necessarily informs him/her in writing. As stipulated in Article 13 of the Code of General Ethics, unresolved conflicts of interest will be reported to the Board of Directors and resolved. in the manner determined by him;
- J.Chahine Capital abstains definitively if no solution allows to respect the principle stated above;
- the conflict of interest must be recorded in the specific register held by J.Chahine Capital. This register records the types of collective portfolio management and discretionary management activities carried out by J.Chahine Capital for which a conflict of interest involving a significant risk of harming the interests of one or more UCITS or other customers has occurred or is likely to occur;
- the Chief Compliance Officer must then propose corrective actions to prevent such occurrences in the future conflict

LEI 01.2	Describe your organisation's approach to ESG incorporation and the reasons for choosing the particular strategy/strategies.
----------	---

The RI approach of Chahine Capital consists of a normative exclusion screening, a sector exclusion screening and a controversy-based exclusion screening.

The ESG approach of Chahine Capital's funds has been designed using exclusions, because an exclusion-based process is the best complement to our 20-year old investment philosophy. Other approaches would have modified too much our investment process.

### (A) Implementation: Screening

LEI 04	Mandatory	Public	Descriptive	PRI 1
--------	-----------	--------	-------------	-------

**LEI 04.1**

Indicate and describe the type of screening you apply to your internally managed active listed equities.

**Type of screening**

- Negative/exclusionary screening

**Screened by**

- Product  
 Activity  
 Sector  
 Country/geographic region  
 Environmental and social practices and performance  
 Corporate governance

## Description

Our sector-based screening excludes producers of tobacco, coal, nuclear or non-conventional weapons. A controversy-based screening excludes companies whose ESG-based reputational risk is too high. Indeed, business conduct risks related to human rights, labour, the environment and corruption can result in risks to a company's reputation and finances, and therefore in a risk for the final investor. Thus, we exclude companies with a high level of controversy (levels defined in the ESG Risk Control procedure). We use the external RepRisk database for this purpose.

- Positive/best-in-class screening  
 Norms-based screening

**Screened by**

- UN Global Compact Principles  
 The UN Guiding Principles on Business and Human Rights  
 International Labour Organization Conventions  
 United Nations Convention Against Corruption  
 OECD Guidelines for Multinational Enterprises  
 Other, specify

## Description

In addition, companies whose operations violate UNGC (United Nations Global Compact) principles are excluded.

**LEI 04.2**

Describe how you notify clients and/or beneficiaries when changes are made to your screening criteria.

The implementation of our screening criteria is recent and has not required any modification, so far.

LEI 05	Mandatory	Public	Core Assessed	PRI 1
--------	-----------	--------	---------------	-------

**LEI 05.1** Indicate which processes your organisation uses to ensure ESG screening is based on robust analysis.

- Comprehensive ESG research is undertaken or sourced to determine companies' activities and products.
- Companies are given the opportunity by you or your research provider to review ESG research on them and correct inaccuracies.
- External research and data used to identify companies to be excluded/included is subject to internal audit by ESG/RI staff, the internal audit function or similar.
- Third-party ESG ratings are updated regularly to ensure that portfolio holdings comply with fund policies.
- Trading platforms blocking / restricting flagged securities on the black list.
- A committee, body or similar with representatives independent of the individuals who conduct company research reviews some or all screening decisions.
- A periodic review of internal research is carried out.
- Review and evaluation of external research providers.
- Other; specify
- None of the above

**LEI 05.3** Indicate how frequently third party ESG ratings are updated for screening purposes.

- Quarterly or more frequently
- Bi-Annually
- Annually
- Less frequently than annually
