RI TRANSPARENCY REPORT

2019

South Suez Capital Ltd

About this report

The PRI Reporting Framework is a key step in the journey towards building a common language and industry standard for reporting responsible investment (RI) activities. This RI Transparency Report is one of the key outputs of this Framework. Its primary objective is to enable signatory transparency on RI activities and facilitate dialogue between investors and their clients, beneficiaries and other stakeholders. A copy of this report will be publicly disclosed for all reporting signatories on the [PRI website](#), ensuring accountability of the PRI Initiative and its signatories.

This report is an export of the individual Signatory organisation's response to the PRI during the 2019 reporting cycle. It includes their responses to mandatory indicators, as well as responses to voluntary indicators the signatory has agreed to make public. The information is presented exactly as it was reported. Where an indicator offers a response option that is multiple-choice, all options that were available to the signatory to select are presented in this report. Presenting the information exactly as reported is a result of signatory feedback which suggested the PRI not summarise the information. As a result, the reports can be extensive. However, to help easily locate information, there is a **Principles index** which highlights where the information can be found and summarises the indicators that signatories complete and disclose.

Understanding the Principles Index

The Principles Index summarises the response status for the individual indicators and modules and shows how these relate to the six [Principles for Responsible Investment](#). It can be used by stakeholders as an 'at-a-glance' summary of reported information and to identify particular themes or areas of interest.

Indicators can refer to one or more Principles. Some indicators are not specific to any Principle. These are highlighted in the 'General' column. When multiple Principles are covered across numerous indicators, in order to avoid repetition, only the main Principle covered is highlighted.

All indicators within a module are presented below. The status of indicators is shown with the following symbols:

Symbol	Status
✓	The signatory has completed all mandatory parts of this indicator
☑	The signatory has completed some parts of this indicator
🔒	This indicator was not relevant for this signatory
-	The signatory did not complete any part of this indicator
Ⓜ	The signatory has flagged this indicator for internal review

Within the table, indicators marked in blue are mandatory to complete. Indicators marked in grey are voluntary to complete.

Describe your organisation's investment principles and overall investment strategy, interpretation of fiduciary (or equivalent) duties, and how they consider ESG factors and real economy impact.

As a long-term investor, South Suez recognises the importance of sustainable investing and is committed to promoting sound ESG management practices within its portfolio. Poor ESG management can have substantial negative effects on the financial performance and viability of a business, both in terms of actual operations or through damage to its brand or reputation. Conversely, thoughtful and well-implemented ESG management can enhance profitability and create significant value for investors and stakeholders. South Suez has therefore developed a comprehensive policy on responsible investing that addresses identification, analysis and management of potential ESG risks and opportunities, both before investment and post-investment.

Matthew Hunt, Director at South Suez Capital, is a Board member of the African Private Equity and Venture Capital Association (AVCA) Sustainability Committee. The Committee leads research, advocacy and educational initiatives around sustainable development and shares the latest trends and insights on key sustainable investment issues with AVCA members.

The Sustainability Committee assists AVCA to further build on its series of industry research and materials, elevating awareness and understanding of private equity and venture capital in Africa. Last year, ACVA has published its second edition of the AVCA Africa Sustainability Study which focused on job creation in private equity-backed companies. South Suez is committed to supporting AVCA in continuing to shape and promote value-added information about sustainable development in Africa.

Shane Rogel, Managing Director at South Suez Capital, has recently been appointed to the African Private Equity and Venture Capital Association (AVCA) Compliance & Best Practice Committee. The primary focus of the Compliance & Best Practices Committee (the "Committee") is to advise and recommend AVCA management and Board of Directors on compliance and best practices which may impact the interests of AVCA members and the African private equity and venture capital industry.
