RI TRANSPARENCY REPORT

2020

IFU Investment Fund for Developing Countries

About this report

The PRI Reporting Framework is a key step in the journey towards building a common language and industry standard for reporting responsible investment (RI) activities. This RI Transparency Report is one of the key outputs of this Framework. Its primary objective is to enable signatory transparency on RI activities and facilitate dialogue between investors and their clients, beneficiaries and other stakeholders. A copy of this report will be publicly disclosed for all reporting signatories on the [PRI website](#), ensuring accountability of the PRI Initiative and its signatories.

This report is an export of the individual Signatory organisation's response to the PRI during the 2020 reporting cycle. It includes their responses to mandatory indicators, as well as responses to voluntary indicators the signatory has agreed to make public. The information is presented exactly as it was reported. Where an indicator offers a response option that is multiple-choice, all options that were available to the signatory to select are presented in this report. Presenting the information exactly as reported is a result of signatory feedback which suggested the PRI not summarise the information. As a result, the reports can be extensive. However, to help easily locate information, there is a **Principles index** which highlights where the information can be found and summarises the indicators that signatories complete and disclose.

Understanding the Principles Index

The Principles Index summarises the response status for the individual indicators and modules and shows how these relate to the six [Principles for Responsible Investment](#). It can be used by stakeholders as an 'at-a-glance' summary of reported information and to identify particular themes or areas of interest.

Indicators can refer to one or more Principles. Some indicators are not specific to any Principle. These are highlighted in the 'General' column. When multiple Principles are covered across numerous indicators, in order to avoid repetition, only the main Principle covered is highlighted.

All indicators within a module are presented below. The status of indicators is shown with the following symbols:

Symbol	Status
✓	The signatory has completed all mandatory parts of this indicator
☑	The signatory has completed some parts of this indicator
🔒	This indicator was not relevant for this signatory
-	The signatory did not complete any part of this indicator
Ⓜ	The signatory has flagged this indicator for internal review

Within the table, indicators marked in blue are mandatory to complete. Indicators marked in grey are voluntary to complete.

SG 01.4

Describe your organisation's investment principles and overall investment strategy, interpretation of fiduciary (or equivalent) duties, and how they consider ESG factors and real economy impact.

IFU is a development finance institution providing equity, loans and guarantees on commercial terms to private sector investments in developing countries and emerging markets. IFU's objective is to promote investments which support sustainable development in its three dimensions - economic, social and environmental - in a balanced and integrated manner in developing countries and contribute to the realisation of the UN Sustainable Development Goals (SDGs).

IFU's dual purpose is to generate measurable, beneficial development impacts alongside financial returns, realising that long-term investment returns are prerequisites for creating continued development. IFU believes that responsible business conduct adds value to investments and generates development impacts.

SG 01.5

Provide a brief description of the key elements, any variations or exceptions to your investment policy that covers your responsible investment approach. [Optional]

Sustainability being an integral part of IFU's investment strategy, IFU is committed to contributing to social, environmental and economic sustainable development, including the UN Sustainable Development Goals (SDGs). Aligned with the UNGP and the OECD Guidelines for Multinational Enterprises, IFU will furthermore identify, prevent and mitigate potential adverse impacts related to environmental, social and governance impacts that IFU may cause or contribute to, or to which IFU is directly linked through investments and other business relationships. Where adverse impacts are identified, IFU will use its leverage to address and mitigate such adverse impacts. IFU is committed to ensuring that Environmental, Social and Governance issues in investments are aligned with international standards (as listed in sustainability Policy, Annex G) where these go beyond regulation in host countries and where these standards may improve operational excellence of the companies. This includes finding innovative solutions using IFU's leverage as an investor.
