RI TRANSPARENCY REPORT

2020

Jade Invest

About this report

The PRI Reporting Framework is a key step in the journey towards building a common language and industry standard for reporting responsible investment (RI) activities. This RI Transparency Report is one of the key outputs of this Framework. Its primary objective is to enable signatory transparency on RI activities and facilitate dialogue between investors and their clients, beneficiaries and other stakeholders. A copy of this report will be publicly disclosed for all reporting signatories on the [PRI website](#), ensuring accountability of the PRI Initiative and its signatories.

This report is an export of the individual Signatory organisation's response to the PRI during the 2020 reporting cycle. It includes their responses to mandatory indicators, as well as responses to voluntary indicators the signatory has agreed to make public. The information is presented exactly as it was reported. Where an indicator offers a response option that is multiple-choice, all options that were available to the signatory to select are presented in this report. Presenting the information exactly as reported is a result of signatory feedback which suggested the PRI not summarise the information. As a result, the reports can be extensive. However, to help easily locate information, there is a **Principles index** which highlights where the information can be found and summarises the indicators that signatories complete and disclose.

Understanding the Principles Index

The Principles Index summarises the response status for the individual indicators and modules and shows how these relate to the six [Principles for Responsible Investment](#). It can be used by stakeholders as an 'at-a-glance' summary of reported information and to identify particular themes or areas of interest.

Indicators can refer to one or more Principles. Some indicators are not specific to any Principle. These are highlighted in the 'General' column. When multiple Principles are covered across numerous indicators, in order to avoid repetition, only the main Principle covered is highlighted.

All indicators within a module are presented below. The status of indicators is shown with the following symbols:

Symbol	Status
✓	The signatory has completed all mandatory parts of this indicator
☑	The signatory has completed some parts of this indicator
🔒	This indicator was not relevant for this signatory
-	The signatory did not complete any part of this indicator
⚠	The signatory has flagged this indicator for internal review

Within the table, indicators marked in blue are mandatory to complete. Indicators marked in grey are voluntary to complete.

OO 11.4 Provide a brief description of how your organisation includes responsible investment considerations in your investment manager selection, appointment and monitoring processes.

RI oversight is incorporated throughout Jade Invest's organisation, and is not the responsibility of a dedicated ESG team. Identifying and resolving ESG issues require deep understanding of a portfolio company and frequent and close interaction with founders/management. This is why the ultimate responsibility for Detection and Implementation falls under the Project Manager (i.e. the team member assigned for the overall post-investment portfolio management for a given company). However, each member of Jade Invest's investment and portfolio management teams, from investment professionals to back office, has a responsibility to report any suspected, potential or confirmed ESG issues directly to the Portfolio Manager, who in turn must disclose such issues to management without delay.

SG 01.4

Describe your organisation's investment principles and overall investment strategy, interpretation of fiduciary (or equivalent) duties, and how they consider ESG factors and real economy impact.

At the core of Jade Invest's investment philosophy is the aim to combine deep local expertise and access in China with international best practice in ESG, tax and regulatory compliance. Although China suffers from a disproportionately large number of issues in these areas compared with mature markets, the upside in backing private businesses that share our views on ESG is in our view substantial. Currently, only a small minority of private businesses in China take ESG into account but the direction is clear and as an investor, being ahead of the curve of sustainable secular trends is crucial. Our strategy incorporates ESG both at the screening stage and in port-investment portfolio management and monitoring. We apply a gradual implementation approach, starting with a focus on a small number of specific areas for improvement to build understanding and trust with management, and then accelerate our efforts into a wider scope.

SG 01.5

Provide a brief description of the key elements, any variations or exceptions to your investment policy that covers your responsible investment approach. [Optional]

Jade Invest's Responsible Investment Guidelines ("RI Guidelines") are fully integrated into the firm's overall screening, due diligence and monitoring protocols and cover environment, corporate governance, labour rights, human rights as well as tax and regulatory compliance. In the pre-due diligence phase, Jade Invest conducts a top-level assessment of the potential target company to determine whether a) the the business model and industry are compatible with the RI guidelines, i.e. if it is deemed possible to reach a satisfactory level of compliance with adequate support and guidance. In the later stages of the underwriting process, a more detailed evaluation is being carried out as part of the overall risk assessment, along with an initial action plan focusing on areas of particular concern.

SG 03.1

Indicate if your organisation has a policy on managing potential conflicts of interest in the investment process.

Yes

SG 03.2

Describe your policy on managing potential conflicts of interest in the investment process.

Alignment of interests with founders/management is our single most important tool for managing conflicts of interests in our portfolio. This is achieved through numerous different ways, including but not limited to 1) ensuring the founder retains a significant minority stake post-investment, 2) ensuring and validating that the founder/management is dedicated to the business (i.e. no significant outside interests) and 3) Management Incentive Programs (MIP), which may include an additional equity stake subject to certain performance targets at or before exit. Moreover, Jade Invest has put in place stringent rules regarding a range of conflict of interest issues, from outside interest and corruption to insider trading. These are included in Jade Invest's internal staff policy charter, which is signed by every member of the team.

SG 07.2	For the roles for which you have RI oversight/accountability or implementation responsibilities, indicate how you execute these responsibilities.
----------------	---

RI oversight is incorporated throughout Jade Invest's organisation, and is not the responsibility of a dedicated ESG team. Identifying and resolving ESG issues require deep understanding of a portfolio company and frequent and close interaction with founders/management. This is why the ultimate responsibility for Detection and Implementation falls under the Project Manager (i.e. the team member assigned for the overall post-investment portfolio management for a given company). However, each member of Jade Invest's investment and portfolio management teams, from investment professionals to back office, has a responsibility to report any suspected, potential or confirmed ESG issues directly to the Portfolio Manager, who in turn must disclose such issues to management without delay.

Jade Invest works closely with portfolio company management teams to define feasible near-term goals as well as the major milestones to be achieved throughout the expected holding period. This is normally done during quarterly board meetings. Our approach emphasizes the importance of building deep commercial understanding within the portfolio company management with respect to ESG. This will include a study on the impact of ESG improvements on the company's addressable market as well as the improved exit potential that may come as a result of a higher overall level of ESG, tax and regulatory compliance, particularly in the case of an overseas strategic trade buyer.

SG 08.3

Provide any additional information on your organisation's performance management, reward and/or personal development processes in relation to responsible investment.

Jade Invest's performance assessment incorporates all aspects relevant to the long-term success of the firm and its portfolio companies, including RI. Since RI is included in Jade Invest's portfolio management / monitoring (through the "Issues Log"), it becomes a natural part of any team member's performance review. In relative terms, the bottleneck to successful RI implementation in our market is not staff training or identification of RI/ESG issues. The key challenge lies in the dialogue with portfolio company management, particularly where certain RI measures may result in a negative short-term impact on profitability. China has been a hyper-growth market for two decades and long-term strategies have until recently been associated with a negative premium to profitability and valuations. Through dialogue, case studies and detailed analysis (e.g. of exit valuation scenarios at different levels of RI implementation), Jade Invest strives to build trust and understanding with portfolio company management teams/founders regarding the significant long-term upside that can be realized through patient and systematic improvement of ESG, tax and regulatory compliance.

We operate in a market where ESG/RI lags behind mature markets with a significant margin. Consequently, Jade Invest's primary objective is to improve ESG/RI standards within its own portfolio. Our philosophy builds on the assumption that real-life success stories around ESG/RI with commercially sound outcomes are the single most effective promotion tool for RI.

One important feature of Jade Invest's RI approach is the focus on commercially grounded dialogue with founder management teams. ESG, tax and regulatory compliance matter not only to most overseas potential trade buyers today, but also to a growing number of large domestic trade buyers. We help founder management teams to measure the impact of their addressable universe of exit routes deriving from improved compliance. In addition, we highlight emerging trends with respect to Chinese consumer preferences by comparing with mature overseas markets to help management build a more tangible understanding of the commercial upside in stronger ESG standards.

ESG Objectives

ESG related strategy, specify

At the core of Jade Invest's investment philosophy is the firm conviction that sustainability and best practice are accretive to long-term investment returns, both through downside risk reduction and increased return potential.

ESG related investment restrictions, specify

Our investment screening is subject to several restrictions, i.e. certain criteria that need to be fulfilled prior to initial commercial due diligence. As a result, Jade Invest will refrain from investing in the following areas:

- * Companies that have been found to be in serious and systematic breach of environmental regulation, e.g. illegal disposal of hazardous waste or highly polluting manufacturing and/or sourcing
- * Products or substances harmful to human health, including tobacco and alcohol
- * Products or services in breach of fundamental Socially Responsible Investing (SRI) standards, including gambling and adult entertainment
- * Weapons and munitions
- * Companies involved in serious and systematic corruption, fraud or violation of local and international regulation
- * Companies associated with activities that are violating human rights
- * Companies engaged in business activities deemed to be in violation of international sanctions

ESG integration, specify

Jade Invest manages a highly concentrated portfolio with deep and frequent interaction with management and ESG issues are not separated out from the overall portfolio management process, but fully integrated throughout the portfolio.

Engagement, specify

Jade Invest works closely with portfolio company management teams to define feasible near-term goals as well as the major milestones to be achieved throughout the expected holding period. This is normally done during quarterly board meetings. Our approach emphasizes the importance of building deep commercial understanding within the portfolio company management with respect to ESG. This will include a study on the impact of ESG improvements on the company's addressable market as well as the improved exit potential that may come as a result of a higher overall level of ESG, tax and regulatory compliance.

ESG specific improvements

Other, specify

ESG guidelines/regulation, principles/standards, specify

Jade Invest's Responsible Investment Guidelines are fully integrated into the firm's overall screening, due diligence and monitoring protocols and cover environment, corporate governance, labour rights, human rights as well as tax and regulatory compliance. In the pre-due diligence phase, Jade Invest conducts a top-level assessment of the potential target company to determine whether a) the the business model and industry are compatible with the RI guidelines, i.e. if it is deemed possible to reach a satisfactory level of compliance with adequate support and guidance. In the later stages of the underwriting process, a more detailed evaluation is being carried out as part of the overall risk assessment, along with an initial action plan focusing on areas of particular concern.
