

CLIMATE TRANSPARENCY REPORT 2020

APAX PARTNERS LLP

About the Climate-related Disclosure Indicators

Climate has been identified as a top priority for PRI signatories, with over 70% of asset owners reporting this as the most important long-term trend they are acting on.

The FSB Task Force's guidance on climate-related financial disclosure aim to create a single framework for disclosure on assessment and management of climate-related risk. The recommendations, supported by investors representing US\$22 trillion, identify four main disclosures, Governance, Strategy, Risk Management, Metrics and Targets, and include specific guidance for asset owners and managers.

As a result, the PRI introduced climate-related disclosure indicators that can be used to align with the TCFD recommendations in the 2020 PRI Reporting Framework.

About this report

This report is an export of only the climate-related indicators from the 2020 Reporting Framework response. The full Public Transparency Report is available here (<https://reporting.unpri.org/surveys/PRI-reporting-framework-2020/-AE3D0EFA-E95F-4D04-A0AE-300D1D7E53F7/79894dbc337a40828d895f9402aa63de/html/2/?lang=en&a=1>). It shows the responses to all the completed climate indicators, even those you chose to keep private. It is designed for your internal review or – if you wish - to share with your stakeholders.

The PRI will not publish this report on its website if you have designated your 2020 climate reporting as “private”. Otherwise, you will be able to access the Climate Transparency Report of your organisation and that of other signatories on the [PRI website](#) and on the [Data Portal](#).

To easily locate information, there is a **Recommendation index** which summarises the indicators that signatories complete and disclose. The report presents information exactly as it was reported as per signatory preference. Where an indicator offers a response option that is multiple-choice, all options that were available to the signatory are presented in this report.

TCFD Recommendations Index

Investment policy

SG 01	Mandatory	Public	Core Assessed	General
-------	-----------	--------	---------------	---------

New selection options have been added to this indicator. Please review your prefilled responses carefully.

SG 01.1 Indicate if you have an investment policy that covers your responsible investment approach.

SG 01 CC	Mandatory to Report Voluntary to Disclose	Public	Descriptive	General
----------	---	--------	-------------	---------

SG 01.6 CC Indicate whether your organisation has identified transition and physical climate-related risks and opportunities and factored this into the investment strategies and products, within the organisation's investment time horizon.

- Yes
 No

Describe why your organisation has not yet gone through a process to identify transition and physical climate-related risks and opportunities.

The Apax Funds' portfolio consists of a growing number of "asset light" businesses, due to the Apax focus on four specific sectors which do not have significant climate related exposure: Tech & Telco, Services, Healthcare and Consumer. TCFD is a key regulatory development and we are currently reviewing how we should augment our current practices in order to incorporate it into our processes.

SG 01.8 CC Indicate whether the organisation publicly supports the TCFD?

- Yes
 No

Explain the rationale

TCFD is a key regulatory development and we are currently reviewing how we should augment our current practices in order to incorporate it into our processes.

SG 01.9 CC Indicate whether there is an organisation-wide strategy in place to identify and manage material climate-related risks and opportunities.

- Yes

	Describe
--	----------

Apax runs an annual ESG Key Performance Indicator ("KPI") collection cycle. Through this Apax is able to capture the ESG footprint of the Funds' portfolio companies and establish the possible areas of materiality which require further focus from the investment team to create value or mitigate risk. For Apax the key goal of this project is to have visibility and relevant information in order to drive improvement of amongst others the Environmental footprint of the overall Apax portfolio and the individual portfolio companies.

No

SG 1.10 CC	Indicate the documents and/or communications the organisation uses to publish TCFD disclosures.
-------------------	---

- Public PRI Climate Transparency Report
- Annual financial filings
- Regular client reporting
- Member communications
- Other

	specify
--	---------

The publicly available Apax Sustainability Report contains detail on key climate indicators

- We currently do not publish TCFD disclosures

Governance and human resources

SG 07 CC	Mandatory to Report Voluntary to Disclose	Public	Descriptive	General
-----------------	--	---------------	--------------------	----------------

SG 07.5 CC	Indicate the roles in the organisation that have oversight, accountability and/or management responsibilities for climate-related issues.
-------------------	---

	Chief Executive Officer (CEO), Chief Investment Officer (CIO), Chief Risk Officer (CRO), Investment Committee
--	---

- Oversight/accountability for climate-related issues
- Assessment and management of climate-related issues
- No responsibility for climate-related issues

	Other Chief-level staff or heads of departments
--	---

- Oversight/accountability for climate-related issues
- Assessment and management of climate-related issues
- No responsibility for climate-related issues

	Portfolio managers
--	--------------------

- Oversight/accountability for climate-related issues
- Assessment and management of climate-related issues
- No responsibility for climate-related issues

Investment analysts

- Oversight/accountability for climate-related issues
- Assessment and management of climate-related issues
- No responsibility for climate-related issues

Dedicated responsible investment staff

- Oversight/accountability for climate-related issues
- Assessment and management of climate-related issues
- No responsibility for climate-related issues

Investor relations

- Oversight/accountability for climate-related issues
- Assessment and management of climate-related issues
- No responsibility for climate-related issues

ESG issues in asset allocation

SG 13	Mandatory	Public	Descriptive	PRI 1
--------------	------------------	---------------	--------------------	--------------

SG 13.1 Indicate whether the organisation carries out scenario analysis and/or modelling, and if it does, provide a description of the scenario analysis (by asset class, sector, strategic asset allocation, etc.).

- Yes, in order to assess future ESG factors
- Yes, in order to assess future climate-related risks and opportunities
- No, our organisation does not currently carry out scenario analysis and/or modelling

SG 14	Mandatory to Report Voluntary to Disclose	Public	Additional Assessed	PRI 1
--------------	--	---------------	----------------------------	--------------

SG 14.1 Some investment risks and opportunities arise as a result of long term trends. Indicate which of the following are considered.

- Changing demographics
- Climate change
- Resource scarcity
- Technological developments
- Other, specify(1)
- Other, specify(2)
- None of the above

SG 14.2

Indicate which of the following activities you have undertaken to respond to climate change risk and opportunity

- Established a climate change sensitive or climate change integrated asset allocation strategy
- Targeted low carbon or climate resilient investments
- Phase out your investments in your fossil fuel holdings
- Reduced portfolio exposure to emissions intensive or fossil fuel holdings
- Used emissions data or analysis to inform investment decision making
- Sought climate change integration by companies
- Sought climate supportive policy from governments
- Other, specify
- None of the above

SG 14.3

Indicate which of the following tools the organisation uses to manage climate-related risks and opportunities.

- Scenario analysis
- Disclosures on emissions risks to clients/trustees/management/beneficiaries
- Climate-related targets
- Encouraging internal and/or external portfolio managers to monitor emissions risks
- Emissions-risk monitoring and reporting are formalised into contracts when appointing managers
- Weighted average carbon intensity
- Carbon footprint (scope 1 and 2)
- Portfolio carbon footprint
- Total carbon emissions
- Carbon intensity
- Exposure to carbon-related assets
- Other emissions metrics
- Other, specify

other description

Tracking of non-financial information/data from the portfolio around resources usage and emissions

- None of the above

SG 14 CC

Voluntary

Public

General

SG 14.8 CC

Indicate whether climate-related risks are integrated into overall risk management and explain the risk management processes used for identifying, assessing and managing climate-related risks.

- Processes for climate-related risks are integrated into overall risk management
- Processes for climate-related risks are not integrated into overall risk management

Please describe

The Apex investment sectors are not focused on heavy industries but predominantly on services, retail, technology and digital businesses. As such, the Apex Funds' portfolio consists of a large number of "asset light" businesses which do not have a significant ESG impact.

Only a few companies have a large Environmental footprint. From a Fund perspective, a small number of

companies influence the ESG footprint to a large degree. For example in 2018, 82% of electricity kWh was reported by six portfolio companies and the remaining 18% accounted for by the other 15 reporting companies

Based on this information the Apax portfolio is not as exposed to climate related risks as other more asset intensive portfolios.

SG 15	Mandatory to Report Voluntary to Disclose	Public	Descriptive	PRI 1
-------	---	--------	-------------	-------

SG 15.1	Indicate if your organisation allocates assets to, or manages, funds based on specific environmental and social themed areas.
---------	---

- Yes
- No
