RI TRANSPARENCY REPORT

2020

Monash University

About this report

The PRI Reporting Framework is a key step in the journey towards building a common language and industry standard for reporting responsible investment (RI) activities. This RI Transparency Report is one of the key outputs of this Framework. Its primary objective is to enable signatory transparency on RI activities and facilitate dialogue between investors and their clients, beneficiaries and other stakeholders. A copy of this report will be publicly disclosed for all reporting signatories on the [PRI website](#), ensuring accountability of the PRI Initiative and its signatories.

This report is an export of the individual Signatory organisation's response to the PRI during the 2020 reporting cycle. It includes their responses to mandatory indicators, as well as responses to voluntary indicators the signatory has agreed to make public. The information is presented exactly as it was reported. Where an indicator offers a response option that is multiple-choice, all options that were available to the signatory to select are presented in this report. Presenting the information exactly as reported is a result of signatory feedback which suggested the PRI not summarise the information. As a result, the reports can be extensive. However, to help easily locate information, there is a **Principles index** which highlights where the information can be found and summarises the indicators that signatories complete and disclose.

Understanding the Principles Index

The Principles Index summarises the response status for the individual indicators and modules and shows how these relate to the six [Principles for Responsible Investment](#). It can be used by stakeholders as an 'at-a-glance' summary of reported information and to identify particular themes or areas of interest.

Indicators can refer to one or more Principles. Some indicators are not specific to any Principle. These are highlighted in the 'General' column. When multiple Principles are covered across numerous indicators, in order to avoid repetition, only the main Principle covered is highlighted.

All indicators within a module are presented below. The status of indicators is shown with the following symbols:

Symbol	Status
✓	The signatory has completed all mandatory parts of this indicator
☑	The signatory has completed some parts of this indicator
🔒	This indicator was not relevant for this signatory
-	The signatory did not complete any part of this indicator
Ⓜ	The signatory has flagged this indicator for internal review

Within the table, indicators marked in blue are mandatory to complete. Indicators marked in grey are voluntary to complete.

OO 11.4 Provide a brief description of how your organisation includes responsible investment considerations in your investment manager selection, appointment and monitoring processes.

All external fund managers must be PRI signatories. Monash's investment advisors actively engage with external managers on incorporation of ESG in investment decisions, and industry wide & asset sector approaches to responsible investment. ESG approach is considered as part of manager selection and considered in monitoring performance of long term pool external managers.

Principles

Monash aims to actively incorporate environmental, social and governance (ESG) principles into its investment approach. The Investment Advisory Committee via its investment advisor and investment managers will actively engage on ESG issues to influence corporate behaviour where possible.

Strategy

The Long Term Investment Pool is viewed as an investment in perpetuity, aiming to maintain and grow its capital base to provide a source of funding for University expenditure into the future. The investment objective is to maximise the rate of return over a relatively long time horizon within an acceptable level of risk (including currency risk, credit risk, third party, ESG and sovereign risks). IAC considerations also include the tax exempt status of the University.

Topic or issue	Active manager investment in Adani Ports
Conducted by	<input type="checkbox"/> Internal staff <input checked="" type="checkbox"/> Investment consultants
Asset class	<input type="checkbox"/> All asset classes <input checked="" type="checkbox"/> Listed Equity
Scope and process	As part of Monash's monitoring process through the Investment Advisory Committee and external advisors, it holds an annual meeting with each fund manager. It was identified that an emerging markets active manager had a holding in Adani Ports. Monash raised concerns about the ESG credentials of the broader Adani group and expressed its preference to not hold investments in Adani or its associated entities as Monash does not think that Adani aligns with its values.
Outcomes	The active manager advised that they are likely to be exiting from that investment.

Add Example 2

Topic or issue	Community Infrastructure Fund investment ESG profile
Conducted by	<input type="checkbox"/> Internal staff <input checked="" type="checkbox"/> Investment consultants
Asset class	<input checked="" type="checkbox"/> All asset classes <input type="checkbox"/> Listed Equity
Scope and process	As part of its manager selection process, Monash reviewed the underlying assets within the Fund to confirm that it was comfortable with their ESG profiles.
Outcomes	Manager was appointed, and funds invested in November 2019. Notably this manager has invested in a wind farm as part of the portfolio.
