RI TRANSPARENCY REPORT

2019

Devon Funds Management

About this report

The PRI Reporting Framework is a key step in the journey towards building a common language and industry standard for reporting responsible investment (RI) activities. This RI Transparency Report is one of the key outputs of this Framework. Its primary objective is to enable signatory transparency on RI activities and facilitate dialogue between investors and their clients, beneficiaries and other stakeholders. A copy of this report will be publicly disclosed for all reporting signatories on the [PRI website](#), ensuring accountability of the PRI Initiative and its signatories.

This report is an export of the individual Signatory organisation's response to the PRI during the 2019 reporting cycle. It includes their responses to mandatory indicators, as well as responses to voluntary indicators the signatory has agreed to make public. The information is presented exactly as it was reported. Where an indicator offers a response option that is multiple-choice, all options that were available to the signatory to select are presented in this report. Presenting the information exactly as reported is a result of signatory feedback which suggested the PRI not summarise the information. As a result, the reports can be extensive. However, to help easily locate information, there is a **Principles index** which highlights where the information can be found and summarises the indicators that signatories complete and disclose.

Understanding the Principles Index

The Principles Index summarises the response status for the individual indicators and modules and shows how these relate to the six [Principles for Responsible Investment](#). It can be used by stakeholders as an 'at-a-glance' summary of reported information and to identify particular themes or areas of interest.

Indicators can refer to one or more Principles. Some indicators are not specific to any Principle. These are highlighted in the 'General' column. When multiple Principles are covered across numerous indicators, in order to avoid repetition, only the main Principle covered is highlighted.

All indicators within a module are presented below. The status of indicators is shown with the following symbols:

Symbol	Status
✓	The signatory has completed all mandatory parts of this indicator
☑	The signatory has completed some parts of this indicator
🔒	This indicator was not relevant for this signatory
-	The signatory did not complete any part of this indicator
Ⓜ	The signatory has flagged this indicator for internal review

Within the table, indicators marked in blue are mandatory to complete. Indicators marked in grey are voluntary to complete.

The Principles for Responsible Investment

As institutional investors, we have a duty to act in the best long-term interests of our beneficiaries. In this fiduciary role, we believe that Environmental, Social, and Governance (ESG) issues can affect the performance of investment portfolios (to varying degrees across companies, sectors, regions, asset classes and through time). We also recognize that applying these Principles may better align investors with broader objectives of society. Therefore, where consistent with our fiduciary responsibilities, we commit to the following:

- 1) We will incorporate ESG issues into our investment analysis and decision-making processes.
- 2) We will be active owners and incorporate ESG issues into our ownership policies and practices.
- 3) We will seek appropriate disclosure on ESG issues by the entities in which we invest.
- 4) We will promote acceptance and implementation of the Principles within the investment industry.
- 5) We will work together to enhance our effectiveness in implementing the Principles.
- 6) We will report on our activities and progress towards implementing the Principles.

LEI 01.2

Describe your organisation's approach to incorporation and the reasons for choosing the particular ESG incorporation strategy/strategies.

Devon has a broad approach to ESG incorporation as it is included in the investment process. Devon's investment process is based on bottom up research. We conduct our own primary research and leverage off the analysis of MSCI. As such we believe the aforementioned integration strategy is the best fit for our process. Since our inception this is the strategy we have used.

LEI 01.3

If assets are managed using a combination of ESG incorporation strategies, briefly describe how these combinations are used. [Optional]

Along with business model, industry structure, company financials, management and valuation, ESG makes up one of the six pillars of research framework that Devon incorporates into its investment decisions. We allocate companies, within our investable universe, scores across their Environmental, Social, and Governance performance. Additionally, we will supplement our ESG views with ESG research provided by MSCI. Since the inception of the firm, ESG has always been incorporated into our investment process.

(A) Implementation: Screening

LEI 04

LEI 04.1

Indicate and describe the type of screening you apply to your internally managed active listed equities.

Type of screening

- Negative/exclusionary screening

Screened by

- Product
- Activity
- Sector
- Country/geographic region
- Environmental and social practices and performance
- Corporate governance

Description

Devon does not apply a standard Screening or Exclusions policy across all of our portfolios although specific mandates require certain company and sector eliminations to occur. Devon engage with MCSI and other third party providers to determine company and sector definitions.

- Positive/best-in-class screening
- Norms-based screening

Screened by

- UN Global Compact Principles
- The UN Guiding Principles on Business and Human Rights
- International Labour Organization Conventions
- United Nations Convention Against Corruption
- OECD Guidelines for Multinational Enterprises
- Other, specify

We leverage off the International Norms and Conventions used by MSCI. Devon references the ESG standards from a range of sources in considering investment appropriateness.

Description

We leverage off the International Norms and Conventions used by MSCI.

LEI 04.2	Describe how you notify clients and/or beneficiaries when changes are made to your screening criteria.

LEA 12.1

Indicate how you typically make your (proxy) voting decisions.

Approach

- We use our own research or voting team and make voting decisions without the use of service providers.

Based on

- our own voting policy
- our clients' requests or policies
- other, explain
- We hire service provider(s) who make voting recommendations and/or provide research that we use to guide our voting decisions.
- We hire service provider(s) who make voting decisions on our behalf, except for some pre-defined scenarios where we review and make voting decisions.
- We hire service provider(s) who make voting decisions on our behalf.

LEA 12.2

Provide an overview of how you ensure your voting policy is adhered to, giving details of your approach when exceptions to the policy are made.

We have a Corporate Actions Database where we keep a record of previous voting.

We have adopted an exceptions basis of reporting whereby we notify clients only if we perceive there is an issue. This may lead to both parties engaging with that company on the particular issue. We also encourage companies to improve their reporting on ESG issues. On the whole we believe Australasia has improved markedly in its adoption and reporting of ESG issues.
