# RI TRANSPARENCY REPORT

## 2019

IVO Capital Partners

## About this report

The PRI Reporting Framework is a key step in the journey towards building a common language and industry standard for reporting responsible investment (RI) activities. This RI Transparency Report is one of the key outputs of this Framework. Its primary objective is to enable signatory transparency on RI activities and facilitate dialogue between investors and their clients, beneficiaries and other stakeholders. A copy of this report will be publicly disclosed for all reporting signatories on the [PRI website](#), ensuring accountability of the PRI Initiative and its signatories.

This report is an export of the individual Signatory organisation's response to the PRI during the 2019 reporting cycle. It includes their responses to mandatory indicators, as well as responses to voluntary indicators the signatory has agreed to make public. The information is presented exactly as it was reported. Where an indicator offers a response option that is multiple-choice, all options that were available to the signatory to select are presented in this report. Presenting the information exactly as reported is a result of signatory feedback which suggested the PRI not summarise the information. As a result, the reports can be extensive. However, to help easily locate information, there is a **Principles index** which highlights where the information can be found and summarises the indicators that signatories complete and disclose.

## Understanding the Principles Index

The Principles Index summarises the response status for the individual indicators and modules and shows how these relate to the six [Principles for Responsible Investment](#). It can be used by stakeholders as an 'at-a-glance' summary of reported information and to identify particular themes or areas of interest.

Indicators can refer to one or more Principles. Some indicators are not specific to any Principle. These are highlighted in the 'General' column. When multiple Principles are covered across numerous indicators, in order to avoid repetition, only the main Principle covered is highlighted.

All indicators within a module are presented below. The status of indicators is shown with the following symbols:

Symbol	Status
✓	The signatory has completed all mandatory parts of this indicator
☑	The signatory has completed some parts of this indicator
🔒	This indicator was not relevant for this signatory
-	The signatory did not complete any part of this indicator
Ⓜ	The signatory has flagged this indicator for internal review

Within the table, indicators marked in blue are mandatory to complete. Indicators marked in grey are voluntary to complete.

As an asset manager, IVO Capital Partners focuses on listed and private debt and mainly invests in the following internally managed instruments:

- Listed fixed income or assimilated from private or public issuers
- Litigation finance-related securities including loans, debt instruments, unlisted or listed shares of vehicles involved in litigation finance

IVO Capital Partners also invests in equities and hedge funds through its mandates, but these asset classes are externally managed.

-------	-----------	--------	---------	---------

**OO 10.1** Select the active ownership activities your organisation implemented in the reporting year.

### Listed equity – engagement

- We engage with companies on ESG factors via our staff, collaborations or service providers.
- We require our external managers to engage with companies on ESG factors on our behalf.
- We do not engage directly and do not require external managers to engage with companies on ESG factors.

#### OO 10.2

Indicate why you do not engage and do not require external managers to engage.

We do not engage directly as we do not internally manage this asset class. We will study to what extent it is possible to require external managers to do so.

### Listed equity – voting

- We cast our (proxy) votes directly or via dedicated voting providers
- We require our external managers to vote on our behalf.
- We do not cast our (proxy) votes directly and do not require external managers to vote on our behalf

#### OO 10.3

Indicate why you do not cast your votes

- Indicate why you do not cast your votes

We do not cast our vote directly as we do not internally manage this asset class. We will study to what extent it is possible to require external managers to vote on our behalf.

- We do not cast our votes but provide substantive research and voting recommendations to our clients.

### Fixed income SSA – engagement

- We engage with SSA bond issuers on ESG factors via our staff, collaborations or service providers.
- We do not engage directly and do not require external managers to engage with SSA bond issuers on ESG factors. Please explain why you do not.

Please explain why you do not engage directly and do not require external managers to engage with companies on ESG factors.

Engagement at a State-level requires a scale that we don't have yet. IVO Capital Partners rather focus on engagement at a company-level in order to create expertise and start to get recognised as a serious player in collective bargain dealing of ESG engagement.

### Fixed income Corporate (financial) – engagement

- We engage with companies on ESG factors via our staff, collaborations or service providers.
- We do not engage directly and do not require external managers to engage with companies on ESG factors. Please explain why you do not.

### Fixed income Corporate (non-financial) – engagement

- We engage with companies on ESG factors via our staff, collaborations or service providers.
- We do not engage directly and do not require external managers to engage with companies on ESG factors. Please explain why you do not.

**OO 11.1** Select the internally managed asset classes in which you addressed ESG incorporation into your investment decisions and/or your active ownership practices (during the reporting year).

**SG 01.4**

Describe your organisation's investment principles and overall investment strategy, interpretation of fiduciary (or equivalent) duties, and how they consider ESG factors and real economy impact.

The investment strategy and responsible policy applies to "Listed fixed income or assimilated from private or public issuers" asset class only, through IVO Fixed Income EUR Fund and mandates' direct lines, which represents 60,5% of the total AuM as of December 2018 31st. As the very specific characteristics of litigation finance require a dedicated expertise to conduct ESG analysis, we do not apply yet ESG criteria to this asset class.

The FI fund follows a Global High Yield bond strategy with a focus on Emerging Markets, employing a fundamental approach to benefit from mismatches between bond yields and the intrinsic credit quality of their issuers. The fund's contrarian and opportunistic approach aims to acquire bonds at discounted valuations. The strategy employs a high conviction approach to explore the entire spectrum of the listed universe within the bond market, without geographic constraints.

We intend to deliver attractive returns by selecting:

- low leveraged companies with high exposure to USD;
- in countries affected by temporary macro-economic pressure;

while taking into account ESG criteria:

- through our analysis process and investment decision;
- by excluding companies with no responsible policy in controversial sectors;
- by engaging with companies to encourage better impact on society and environment.

**SG 03.2** Describe your policy on managing potential conflicts of interest in the investment process.

IVO CAPITAL PARTNERS has set up a system for the prevention and management of conflicts of interest which in particular provides for:

- the identification of natural or legal persons as well as professions that may have conflicts of interest with holders or principals;
- identification of potential conflict of interest situations, including the development of risk mapping in this area;
- measures taken for the prevention of conflicts, particularly with regard to incompatibilities of functions;
- the formalization of relations between the business lines concerned and the management activity;
- the implementation of a conflict of interest management policy, including procedures for alerting and resolving conflicts;
- a specific permanent control system for both the 1st and 2nd levels;

<b>SG 07.2</b>	For the roles for which you have RI oversight/accountability or implementation responsibilities, indicate how you execute these responsibilities.
----------------	---

Financial analysts are responsible for negative-screening and ensuring companies do not have activities part of the exclusion list, prior to start any fundamental analysis. The CIO, as directly involved in investment decisions, also have a role in the implementation. A double verification from a compliance officer is realized before any investment decision. The portfolio compliance is reviewed on a regular basis.

Engagement approaches are collectively decided upstream by the Head of sustainability, investment analysts and salesforce, as an integral part of the investment strategy. Actions are implemented afterwards by the portfolio managers and ultimately incorporated into investment decisions.

## ESG incorporation in actively managed fixed income

### Implementation processes

FI 01	Mandatory	Public	Gateway	PRI 1
FI 01.1	Indicate (1) Which ESG incorporation strategy and/or combination of strategies you apply to your actively managed fixed income investments; and (2) The proportion (+/- 5%) of your total actively managed fixed income investments each strategy applies to.

	All three strategies combined	0
	No incorporation strategies applied	0
		100%

**FI 01.2** Describe your reasons for choosing a particular ESG incorporation strategy and how combinations of strategies are used.

IVO Capital Partners is currently working on improving its implementation process by integrating ESG indicators / risk into its models. Defining a screening method, with the set up of an exclusion list, was a first step towards a formalised consideration of ESG criteria.

<b>FI 03</b>	<b>Mandatory</b>	<b>Public</b>	<b>Additional Assessed</b>	<b>PRI 1</b>
--------------	------------------	---------------	----------------------------	--------------

**FI 03.1** Indicate how you ensure that your ESG research process is robust:

- Comprehensive ESG research is undertaken internally to determine companies' activities; and products and/or services
- Issuers are given the opportunity by you or your research provider to review ESG research on them and correct inaccuracies
- Issuer information and/or ESG ratings are updated regularly to ensure ESG research is accurate
- Internal audits and regular reviews of ESG research are undertaken in a systematic way.
- A materiality/sustainability framework is created and regularly updated that includes all the key ESG risks and opportunities for each sector/country.
- Other, specify
- None of the above

**FI 03.2** Describe how your ESG information or analysis is shared among your investment team.

- ESG information is held within a centralised database and is accessible to all investment staff
- ESG information is displayed on front office research platforms
- ESG information is a standard item on all individual issuer summaries, research notes, 'tear sheets', or similar documents
- Investment staff are required to discuss ESG information on issuers as a standard item during investment committee meetings
- Records capture how ESG information and research was incorporated into investment decisions
- Other, specify
- None of the above

**FI 03.3** Additional information. [Optional]

Investment staff do use ESG data provided directly by the company or by an external provider and discuss ESG criteria during investment committee. We set up a grid with ESG indicators, pre-filled by our analyst and send to portfolio's companies for revision and completion. An ESG review has also been added to our issuer analysis summaries. However, this is not yet systematic as implementation work is in process.

**(A) Implementation: Screening**

<b>FI 04</b>	<b>Mandatory</b>	<b>Public</b>	<b>Gateway</b>	<b>PRI 1</b>

Positive/best-in-class screening	<input type="checkbox"/>	<input type="checkbox"/>	
Norms-based screening	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	

**FI 04.2** Describe your approach to screening for internally managed active fixed income

To identify companies to be excluded from our investment universe, we realize a sector-based and norm-based negative screening. Nonetheless, we do believe that the decision not to invest is not always the best option to help emerging economies to grow. In order to engage with societies matching with the exclusion list and not passing the screening, we allow them a 18-month period to become compliant before divestment (maximum 5% of the portfolio). Exclusion criterias have been established according to international conventions and controversial sectors, adapted to emerging markets. The exclusion list is reviewed once a year and an updated version is publicly available on our website.

FI 06.1	Indicate which systems your organisation has to ensure that fund screening criteria are not breached in fixed income investments.
