RI TRANSPARENCY REPORT

2017

Tau Investment Management LLC (Provisional Signatory)

About this report

The PRI Reporting Framework is a key step in the journey towards building a common language and industry standard for reporting responsible investment (RI) activities. This RI Transparency Report is one of the key outputs of this Framework. Its primary objective is to enable signatory transparency on RI activities and facilitate dialogue between investors and their clients, beneficiaries and other stakeholders. A copy of this report will be publicly disclosed for all reporting signatories on the [PRI website](#), ensuring accountability of the PRI Initiative and its signatories.

This report is an export of the individual Signatory organisation's response to the PRI during the 2017 reporting cycle. It includes their responses to mandatory indicators, as well as responses to voluntary indicators the signatory has agreed to make public. The information is presented exactly as it was reported. Where an indicator offers a response option that is multiple-choice, all options that were available to the signatory to select are presented in this report. Presenting the information exactly as reported is a result of signatory feedback which suggested the PRI not summarise the information. As a result, the reports can be extensive. However, to help easily locate information, there is a **Principles index** which highlights where the information can be found and summarises the indicators that signatories complete and disclose.

Understanding the Principles Index

The Principles Index summarises the response status for the individual indicators and modules and shows how these relate to the six [Principles for Responsible Investment](#). It can be used by stakeholders as an 'at-a-glance' summary of reported information and to identify particular themes or areas of interest.

Indicators can refer to one or more Principles. Some indicators are not specific to any Principle. These are highlighted in the 'General' column. When multiple Principles are covered across numerous indicators, in order to avoid repetition, only the main Principle covered is highlighted.

All indicators within a module are presented below. The status of indicators is shown with the following symbols:

Symbol	Status
✓	The signatory has completed all mandatory parts of this indicator
☑	The signatory has completed some parts of this indicator
🔒	This indicator was not relevant for this signatory
-	The signatory did not complete any part of this indicator
Ⓜ	The signatory has flagged this indicator for internal review

Within the table, indicators marked in blue are mandatory to complete. Indicators marked in grey are voluntary to complete.

SG 03.1 Indicate if your organisation has a policy on managing potential conflicts of interest in the investment process.

Yes

SG 03.2 Describe your policy on managing potential conflicts of interest in the investment process.

Investors should be aware that there will be situations where TAU and its affiliates may encounter potential conflicts of interest in connection with the Fund's activities. On any issue involving a conflict of interest, employees, operating partners and affiliates ("TAU Members") will be guided by their good faith judgment as to the Fund's best interests (although the best interests of different fund vehicles or the interests of co-investors, if any, may sometimes be inconsistent or in conflict). TAU Members shall internally disclose any and all actual or perceived conflicts and work to take such actions as may be necessary to ameliorate the conflict. Prior to managing assets for a Fund, TAU will have the following in place to manage conflicts of interest: (1) All employees of TAU, the General Partner and affiliates will agree to a Code of Ethics as a condition of employment (2) All TAU Members have been directed to use and have access to a Conflict Disclosure (3) The General Partner will consult with a Fund's Limited Partners Advisory Committee (4) The Investment Manager intends to establish various policies such as Policies on Gifts, Entertainment and Political Contributions, Supervisory Policy, etc.

Asset Class	Describe what processes are in place and the outputs or outcomes achieved
Other (1) [as defined in Organisational Overview module]	ESG is deeply integrated in TAU's investment process. During the initial screening stage and pipeline development, the impact team assigns an ESG risk rating around the scale, sensitivity, and magnitude of potential risks. All significant ESG issues of concern will be discussed at the TAU investment committee, and the committee will sign off that a strategy is in place to address them. ESG due diligence is conducted on potential targets as part of the main due diligence process, during which the impact team will provide a baseline assessment of each potential investee site. TAU will develop an implementation plan as part of the overall Value Enhancement Plan which is, in turn, part of the investment agreement. TAU will incorporate provisions and investment conditions into term sheets and investment agreements, which will include general expectations, as well as deal-specific commitments. TAU will provide the potential investee with a draft format for the annual ESG and Impact Report to be submitted to TAU annually, and the KPIs to be reported quarterly. Execution of the suite of ESG interventions agreed upon for each site will be implemented by the company's staff, TAU's team, partnerships and collaborations with experts and consultants as necessary.
